**Chinese Investment in Israeli Technology and Infrastructure**  
Shira Efron, Karen Schwindt, Emily Haskel, 2020-06-30 Relations between China and Israel have expanded rapidly since the early 2000s in numerous areas, including diplomacy, trade, investment, construction, educational partnerships, scientific cooperation, and tourism. Israel seeks to expand its diplomatic, economic, and strategic ties with the world's fastest-growing major economy and diversify its export markets and investments. China seeks Israel's advanced technology and values Israel's location as part of the Belt and Road Initiative. Chinese investments in Israel have grown

substantially and include investments in high-tech companies that produce sensitive technologies as well as the construction and operation of key infrastructure projects. Chinese investment in sensitive technologies and construction of major Israeli infrastructure projects present distinct concerns for Israel and the United States. The authors examine the extent and nature of Chinese investments in Israeli technology and infrastructure and discuss the security implications these pose for Israel and the United States. The primary concern regarding investment relates to Chinese ownership of companies that might possess sensitive technology or data; concerns over construction are focused on the use of infrastructure projects to further Chinese foreign policy goals. The operation of infrastructure projects affords China unique surveillance opportunities and possibly economic and political levers of influence. The report concludes with a set of open-ended questions that merit further investigation to better understand the magnitude of risks associated with Chinese investment in the Israeli market.

### **Children's Social Worlds in Cultural Context Tiia**

Tulviste, Deborah L. Best, Judith L. Gibbons, 2019-09-10 This book addresses cultural variability in children's social worlds, examining

the acquisition, development, and use of culturally relevant social competencies valued in diverse cultural contexts. It discusses the different aspects of preschoolers' social competencies that allow children – including adopted, immigrant, or at-risk children – to create and maintain relationships, communicate, and to get along with other people at home, in daycare or school, and other situations. Chapters explore how children's social competencies reflect the features of the social worlds in which they live and grow. In addition, chapters examine the extent that different cultural value orientations manifest in children's social functioning and describes how parents in autonomy-oriented cultures tend to value different social skills than parents with relatedness or autonomous-relatedness orientations. The book concludes with recommendations for future research directions. Topics featured in this book include: Gender development in young children. Peer interactions and relationships during the preschool years. Sibling interactions in western and non-western cultural groups. The roles of grandparents in child development. Socialization and development in refugee children. Child development within institutional care. *Children's Social Worlds in Cultural Context* is a valuable resource for researchers, clinicians/practitioners, and

graduate students in developmental psychology, child and school psychology, social work, cultural anthropology, family studies, and education.

*Jacob & Esau* Malachi Haim Hacohen, 2019-01-10 Jacob and

Esau is a profound new account of two millennia of Jewish European history that, for the first time, integrates the cosmopolitan narrative of the Jewish diaspora with that of traditional Jews and Jewish culture. Malachi Haim Hacohen uses the biblical story of the rival twins, Jacob and Esau, and its subsequent retelling by Christians and Jews throughout the ages as a lens through which

to illuminate changing Jewish-Christian relations and the opening and closing of opportunities for Jewish life in Europe. Jacob and Esau tells a new history of a people accustomed for over two-and-a-half millennia to forming relationships, real and imagined, with successive empires but eagerly adapting, in modernity, to the nation-state, and experimenting with both assimilation and Jewish nationalism. In rewriting this history via Jacob and Esau, the book charts two divergent but intersecting Jewish histories that together represent the plurality of Jewish European cultures.

*Mutagenesis: exploring genetic diversity of crops* N.B.

Tomlekova,M.I. Kozgar,M.R. Wani,2023-09-04 In the present era various international organizations, such as FAO, UNO, IAEA, FNCA, etc., have unanimously agreed that millions of people in both developing and developed countries are not only facing a shortage of food, but also non-availability of nutrients. The main

reason put forward by these agencies is that there is less genetic diversity prevalent in the major crops, which has been further diminished since the inception of conventional plant breeding. Since the first decade of the last century the mutation breeding approach has been pivotal in enhancing the genetic diversity of crops, thereby enriching the genetic pool. 'Mutagenesis: exploring genetic diversity of crops' describes the latest achievements in mutation breeding, with a particular focus on the development of novel mutant varieties and F1 hybrids of crops highly superior to the parental ones. The book details experimental as well as literary studies of induced mutagenesis and its role in developing the new potent varieties. The book will be useful for agricultural policy making authorities in countries of agricultural importance, scientific researchers, breeders, teachers and students keen to use mutation breeding and to explore its hidden potential to secure food and nutrient availability for the growing world population.

**Coronary Vasomotion Abnormalities** Hiroaki Shimokawa, 2020-12-08 This book reviews the latest findings on epicardial coronary spasm and coronary microvascular dysfunction

(CMD), important diseases for understanding coronary artery vasomotion abnormalities. The book chiefly consists of two major parts, each of which explores the epidemiology, pathophysiology, diagnosis and treatment of the diseases. The chapters present a range of experimental and clinical studies, including the editor's life's work on coronary spasm; how Rho-kinase activation plays an important role in connection with the disease; how chronic adventitial inflammation is a central pathophysiology of the spasm; the importance of Rho-kinase activation in the pathogenesis of CMD; how epicardial spasm and CMD frequently co-exist; and much more. Coronary Vasomotion Abnormalities will help practicing cardiologists, cardiac surgeons, vascular biologists and radiologists understand the latest issues concerning the clinical, interventional, and surgical management of these conditions, and offer these readers valuable insights into the effective treatment of microvascular angina.

**Handbook of Intercultural Training** Dan Landis, Janet Marie

Bennett, Milton J. Bennett, 2004 This handbook deals with the question of how people can best live and work with others who come from very different cultural backgrounds. Handbook of Intercultural Training provides an overview of current trends and issues in the field of intercultural training. Contributors represent a wide range of disciplines including psychology, interpersonal communication, human resource management, international management, anthropology, social work, and education. Twenty-four chapters, all new to this edition, cover an array of topics including training for specific contexts, instrumentation and methods, and training design.

#### **Horticulture — New Technologies and Applications J.**

Prakash, R.L.M Pierik, 2012-12-06 In November 1990 Indo-American Hybrid Seeds (IAHS), one of the largest and very innovative horticultural enterprises of its kind in India, celebrated its silver jubilee year in the town of Bangalore, India. On the occasion of this silver jubilee of IAHS an International Seminar on 'New Frontiers in Horticulture' was organized from 25-28th of November 1990 at the Ashok Radisson Hotel in Bangalore. IAHS was almost fully responsible in terms of organization and financially for this International Seminar. Assisted by an International Scientific

Advisory Board, the organizing committee, all members of the company IAHS, really did a great job. I would like to thank in particular Mr. Mammohan Attavar (the company's founder) and Mr. Sri N.K. Bhat (partner of the company), respectively chairman and treasurer of the organizing committee, for their organizational and financial support in organizing this conference. Very special words of thanks go to my colleague editor, Dr. Jitendra Prakash, Secretary Organizing committee and Director of Biotechnology - IAHS, who was really the spill in the whole organization of our very successful conference.
