Sweet Battlefields Mats Utas,2003

First Overland Tim Slessor,2016-03-07 Why Not? After all, no-one had ever done it before. It would be one of the longest of all overland journeys – half way round the world, from the English Channel to Singapore. They knew that several expeditions had already tried it. Some had got as far as the desrts of Persia; a few had even reached the plains of India. But no one had managed to go on from there: over the jungle clad mountains of Assam and across northern Burma to Thailand and Malaya. Over the last 3,000 miles it seemed there were ‘just too many rivers and too few roads’. But no-one really knew ... In fact, their problems began much earlier than that. As mere undergraduates, they had no money, no cars, nothing. But with a cool audacity, which was to become characteristic, they set to work – wheedling and cajoling. First, they coaxed the BBC to come up with some film for a possible TV series. They then gently persuaded the manufacturers to lend them two factory-fresh Land Rovers. A publisher was even sweet-talked into giving them an advance on a book. By the time they were ready to go, their sponsors (more than 80 of them) ranged from whiskey distillers to the makers of collapsible buckets. In late 1955, they set off. Seven months and 12,000 miles later, two very weary Land Rovers, escorted by police outriders, rolled into Singapore – to flash bulbs and champagne. Now, fifty years on, their book, ‘First Overland’, is republished – with a foreword by Sir David

Attenborough. After all, it was he who gave them that film.

Battle for Budapest Krisztián Ungváry, 2011-08-30 This title is presented with a new foreword by Istvan Deak. The battle of Budapest in the bleak winter of 1944-45 was one of the longest and bloodiest city sieges of World War II. From the appearance of the first Soviet tanks on the outskirts of the capital to the capture of Buda Castle, 102 days elapsed. In terms of human trauma, it comes second only to Stalingrad, comparisons to which were even being made by soldiers, both German and Soviet, fighting at the time. This definitive history covers their experiences, and those of the 800,000 non-combatants around whom the battle raged.

Design by Mercedes Benz Markus Bolsinger, 2013-01-16 Mercedes-Benz has been making design history for over 120 years. No other brand has launched as many dream machines; many of them have become style icons. Superb photographs of exemplary motor cars provide a visual tour through the annals of automotive d

War on the Eastern Front James Lucas, 2014-10-30 This classic WWII history presents a comprehensive yet vividly detailed account of the Third Reich's epic and bitter clash with the Red Army. The opening onslaughts of Operation Barbarossa began on June 22nd, 1941, as German forces stormed into the Soviet Union. Few of them were to survive the five long years of bitter struggle. A

posting to the Eastern Front during the Second World War was rightly regarded with dread by the German soldiers. They faced the unremitting hostility of the climate, the people and even, at times, their own leadership. There were epic conflicts, such as the battles of Stalingrad and Kursk. But surrounding these famous events was a daily war of attrition which ultimately ground Hitler's war machine to a halt. In this classic account, military historian James Lucas examines the Eastern Front from trench warfare to a bicycle-mounted antitank unit fighting against the oncoming Russian hordes. Told through the experiences of the German soldiers who endured these nightmarish years of warfare, War on the Eastern Front is a unique record of this cataclysmic campaign.

Brave New Car Karl Smith, 2021-09-27 The best years of the automobile lie before us. But it will be a new kind of car and a new kind of automotive experience. There will be a new powertrain dominating the motoring world. Driving will gradually be ceded to the on-board electronics, and, in response, interiors will become more luxurious and sociable. The car will connect with other cars, and infrastructure, a community and ecology of mobility. Brave New Car outlines the possibilities, and opportunities, that lie before us. A premium quality book for the professional, student, and enthusiast alike, Brave New Car is sure to challenge and inspire new thinking in the automotive world and beyond.

That Winter Pamela Gillilan, 1986 Pamela Gillilan was born in London in

1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

New Art of Cuba Luis Camnitzer, 2003 Starting with the groundbreaking 1981 exhibit called *Volumen I*, *New Art of Cuba* provided the first comprehensive look at the works of the first generation of Cuban artists completely shaped by the 1959 revolution. This revised edition includes a new epilogue that discusses developments in Cuban art since the book's publication in 1994, including the exodus of artists in the early 1990s, the effects of the new dollar economy on the status of artists, and the shift away from socialist themes to more personal concerns in the artists' works. Twenty-four new color plates augment the more than 200 b&w illustrations of the original volume.

Resistance and Revenge Jacques Derogy, 2011-12-31 Initially published in French under the title *Operation Nemesis*, this revealing work is now available to the English-speaking public for the first time. It ranks as a major revision in the historic study of the Armenian resistance to the Ottoman genocide of Armenians. *Operation Nemesis* is a study of the Armenian Revolutionary Federation (the Tashnak Party) and the individuals responsible for the execution of Turkish leaders. Until Derogy's book, it had been assumed that the assassins were acting out of personal and emotional motives. But through an amazing amount of detective work, it becomes clear that they were in fact part of a disciplined effort to seek retribution for historic crimes against the Armenian people. The work richly details Turkish plans for the liquidation of the Armenian people, the individuals selected to liquidate the genocidists, and above all, and most complex, to document for the first time the role of the organized Armenian political opposition to Turkish rule. In doing so, Derogy brings to light the relation between the legal party and its extra-legal arm; the mechanisms needed to implement the daring plan of assassination; and the special postwar circumstances in which the Armenian nation found itself - torn asunder by a Turkish-Soviet detente in which the independence of Armenia became the sacrificial pawn. Derogy worked closely with scholars around the world, and interviewed firsthand remaining survivors who had direct contact with the events described. His is a detective story of the first rank, no less than a piece of historical reconstruction with

obvious portent for current Armenian efforts to recapture political legitimacy and personal pride.
