A Successful Transformation? Petr Pavlínek,2008-04-30 This is a brilliant examination of the complex processes of the post-1990 transformation in the Czech automotive industry and its selective integration into the West European system. The post-1990 restructuring of the industry is analyzed in the context of its pre-1990 development and in the context of the East European automobile industry as a whole. Specifically, the book examines the development and post-1990 restructuring of the Czech car, components, and truck industries.

Sakura's Cherry Blossoms Robert Paul Weston,2018-02-20 A warm, gorgeous exploration of a little girl's experience immigrating to a new country and missing her home and her grandmother, who still lives far away. Sakura's dad gets a new job in America, so she and her parents make the move from their home in Japan. When she arrives in the States, most of all she misses her grandmother and the cherry blossom trees, under which she and her grandmother used to play and picnic. She wonders how she'll ever feel at home in this new place, with its unfamiliar language and landscape. One day, she meets her neighbor, a boy named Luke, and begins to feel a little more settled. When her grandmother becomes ill, though, her family takes a trip back to Japan. Sakura is sad when she returns to the States and once again reflects on all she misses. Luke does his best to cheer her up -- and tells her about a surprise he knows she'll love, but she'll have to wait till spring. In the meantime, Sakura and Luke's friendship blooms and finally, when spring comes, Luke takes her to see the cherry blossom trees flowering right there in her new neighborhood. Sakura's Cherry Blossoms captures the beauty of the healing power of friendship through Weston's Japanese poetry-inspired text and Saburi's breathtaking illustrations.

The Rejection of Consequentialism Samuel Scheffler,1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Resistance and Revolution in Mediterranean Europe 1939-1948 Tony Judt,2021-11-21 This book, first published in 1989, is the first general study of Communism in Mediterranean Europe during and immediately after the war. It sheds light on the origins of Europe's Cold War East-West divide and probes the common and conflicting interests of the Soviet Union with the separate national and Communist resistance movements. It explores controversial issues including Stalin's intentions in post-war diplomacy, Communist attitudes to Nazi collaboration in France, and the origins of the Cold War. The decade following the outbreak of the war saw the transformation of society through armed conflict, national resistance and political revolution. The relationship between resistance to Fascism and occupation, on the one hand, and profound social and political changes on the other, was especially marked in southern Europe. In France and Italy, Communist parties emerged as prominent participants in post-war governments; in Yugoslavia the Communist partisans seized full power and effected a social revolution; while a similar attempt in Greece led to a long and bitter civil war.

America's National Game Albert Goodwill Spalding,1911 This book is Albert Spalding's work of historic facts concerning the beginning, evolution, development and popularity of base ball, with personal reminiscences of its vicissitudes, its victories and its votaries. The Burden of Responsibility Tony Judt,2008-11-15 Using the lives of the three outstanding French intellectuals of the twentieth century, renowned historian Tony Judt offers a unique look at how intellectuals can ignore political pressures and demonstrate a heroic commitment to personal integrity and moral responsibility unfettered by the difficult political exigencies of their time. Through the prism of the lives of Leon Blum, Albert Camus, and Raymond Aron, Judt examines pivotal issues in the history of contemporary French society—antisemitism and the dilemma of Jewish identity, political and moral idealism in public life, the Marxist moment in French thought, the traumas of decolonization, the disaffection of the intelligentsia, and the insidious quarrels rending Right and Left. Judt focuses particularly on Blum's leadership of the Popular Front and his stern defiance of the Vichy governments, on Camus's part in the Resistance and Algerian War, and on Aron's cultural commentary and opposition to the facile acceptance by many French intellectuals of communism's utopian promise. Severely maligned by powerful critics and rivals, each of these exemplary figures stood fast in their principles and eventually won some measure of personal and public redemption. Judt constructs a compelling portrait of modern French intellectual life and politics. He challenges the conventional account of the role of intellectuals precisely because they mattered in France, because they could shape public opinion and influence policy. In Blum, Camus, and Aron, Judt finds three very different men who did not simply play the role, but evinced a courage and a responsibility in public life that far outshone their contemporaries. An eloquent and instructive study of intellectual courage in the face of what the author persuasively describes as intellectual irresponsibility.—Richard Bernstein, New York Times

Trafficking in Broken Hearts Edwin Sanchez,2014-12-15 When Papo, a tough-talking Puerto Rican hustler from the Bronx, meets Brian, a frightened young lawyer from the Midwest, Papo begins to glimpse the possibility of a romantic escape from his life on the streets. At the same time, Bobby, a 17-year-old runaway who has been repeatedly raped by his older brother, offers to take care of Papo and moves in with him in his fleabag hotel room. It is then when Papo suddenly finds his defenses melting and his heart torn in two directions. TRAFFICKING IN BROKEN HEARTS is a gritty, urban love story. Playwright Edwin Sanchez makes a promising New York debut with TRAFFICKING IN BROKEN HEARTS, a grim, streetwise and bracingly compassionate work ... he convinces with the honesty of his writing and a canny, thoughtful grasp of his trio of characters. The playwright does an especially effective job in penning the gray shades of his characters ... -Greg Evans, Variety

Scornflakes Attila (the Stockbroker),1992 Attila the Stockbroker has travelled the world for ten years, taking his highly individual, fiery cocktail of energetic performance poetry, hardcore minimalist folk-rock anthems (accompanied by his trusty mandola, Nelson) and surreal political satire from Shoreham Harbour to Sydney Harbour, from Harlow to Helsinki, via Leipzig, Vancouver, Auckland, Amsterdam and Tirana - not to mention Slough! Scornflakes is Attila's second book of poems, the follow-up to 1985's Cautionary Tales for Dead Commuters... Inspiration by Hilaire Belloc. Clothes sense by The Levellers. Holder of a poetic licence for a minstrel cycle, Attila's other interests include lugworms, cultivating coriander plants and 'attempting to control the growth of other vegetables, especially Tory C2s'.In Britain, Attila has done substantial work for The Guardian and Radio Four, written for the music press (ha!) and even stranger publications, and made considerable numbers of sporadic and often unlikely radio and TV appearances from John Peel to Pebble Mill. He's a regular at events such as the Edinburgh Fringe and Glastonbury Festival, and performs at every conceivable type of venue - arts centres, rock gigs, poetry festivals, comedy clubs...He has released five LPs in the UK - most recently Scornflakes and Donkeys' Years - and has also had albums issued in Canada, Australia, New Zealand and Germany. His most recent release is an Antipodean CD called 668 - Neighbour of the Beast.Scornflakes is illustrated with cartoons by Womble.
