*Postwar* Tony Judt, 2006-09-05 Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year

—The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. *Postwar* is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, *Postwar* is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

**Worlds of Music: An Introduction to the Music of the World's Peoples, Shorter Version**  
Jeff Todd Titon, Timothy J. Cooley, David Locke, David P. McAllester, Anne K. Rasmussen, 2009-01-05  
This shorter version of the best-selling WORLDS OF MUSIC provides much of the authoritative coverage of the comprehensive version in a format that's accessible to students without any background or training in music. Using a case-study approach, the text presents in-depth explorations of music of several cultures from around the world. The authors, all ethnomusicologists working in their fields of expertise, base their discussions of music-cultures on their own fieldwork, and give students a true sense of both the music and culture that created it. General editor, Jeff Todd Titon, has written the text's opening chapter that introduces students to ethnomusicology and relates each chapter's music heard on the accompanying CDs to the fundamentals of music in a worldwide context. The text concludes with a chapter that invites students to participate by undertaking a fieldwork research project that increases a student's understanding of music in daily life. The supplementary three-CD set works hand in hand with the authors' prose, providing students with access to a wide range of music-cultures and include authentic recordings from the authors' fieldwork. Leading off is the long-standing jewel in the WORLDS OF MUSIC crown -- James Koetting's magnificent recording of postal workers canceling stamps at the University of Ghana post office. A Western-sounding hymn tune performed against African rhythms, this piece, more than any other, lets the student hear contrasting music-cultures. **The Burden of Responsibility** Tony Judt,2008-11-15 Using the lives of the three outstanding French intellectuals of the twentieth century, renowned historian Tony Judt offers a unique look at how intellectuals can ignore political pressures and demonstrate a heroic commitment to personal integrity and moral responsibility unfettered by the difficult political exigencies of their time. Through the prism of the lives of Leon Blum, Albert Camus, and Raymond Aron, Judt examines pivotal issues in the history of contemporary French society—antisemitism and the dilemma of Jewish identity, political and moral idealism in public life, the Marxist moment in French thought, the traumas of decolonization, the disaffection of the intelligentsia, and the insidious quarrels rending Right and Left. Judt focuses particularly on Blum's leadership of the Popular Front and his

stern defiance of the Vichy governments, on Camus's part in the Resistance and Algerian War, and on Aron's cultural commentary and opposition to the facile acceptance by many French intellectuals of communism's utopian promise. Severely maligned by powerful critics and rivals, each of these exemplary figures stood fast in their principles and eventually won some measure of personal and public redemption. Judt constructs a compelling portrait of modern French intellectual life and politics. He challenges the conventional account of the role of intellectuals precisely because they mattered in France, because they could shape public opinion and influence policy. In Blum, Camus, and Aron, Judt finds three very different men who did not simply play the role, but evinced a courage and a responsibility in public life that far outshone their contemporaries. An eloquent and instructive study of intellectual courage in the face of what the author persuasively describes as intellectual irresponsibility.—Richard Bernstein, New York Times

*Resistance and Revolution in Mediterranean Europe 1939-1948* Tony Judt,2021-11-21 This book, first published in 1989, is the first general study of Communism in Mediterranean Europe during

and immediately after the war. It sheds light on the origins of Europe's Cold War East-West divide and probes the common and conflicting interests of the Soviet Union with the separate national and Communist resistance movements. It explores controversial issues including Stalin's intentions in post-war diplomacy, Communist attitudes to Nazi collaboration in France, and the origins of the Cold War. The decade following the outbreak of the war saw the transformation of society through armed conflict, national resistance and political revolution. The relationship between resistance to Fascism and occupation, on the one hand, and profound social and political changes on the other, was especially marked in southern Europe. In France and Italy, Communist parties emerged as prominent participants in post-war governments; in Yugoslavia the Communist partisans seized full power and effected a social revolution; while a similar attempt in Greece led to a long and bitter civil war.

*French Cruisers, 1922-1956* Jean Moulin, John Jordan, 2013-03-04 A technical analysis and pictorial history of the French navy cruisers built in the early to mid-twentieth century. The French produced some of the most striking and innovatory interwar cruiser designs. A large amount of new

information about these ships has become available over the past twenty years in France, but this book is the first to make this accessible to an English-speaking readership. Part I explains the design philosophy behind each of the classes built after 1922, and outlines the characteristics of each type, accompanied by detailed data tables and a comprehensive set of specially-drawn plans based on official documents, as well as carefully-selected photographs. Coverage includes the De Grasse, laid down in August 1939 and completed postwar as an AA cruiser, and also the heavy cruisers of the Saint Louis class intended to follow her, about which little has been published. Part II deals with the historical side, covering not only the eventful careers of these ships, but also explaining the peacetime organization of the Marine Nationale, the complex politics of this turbulent period and their impact on the navy. Like its highly successful predecessor, *French Battleships*, this beautifully presented book subtly blends technical and historical analysis to produce what must become the standard reference work. Praise for *French Cruisers* "A clearly-written and excellently presented book which, particularly with respect to its technical descriptions, explains its chosen subject area in a convincing and comprehensive fashion. The authors are to be commended for their achievement in bringing knowledge of a previously sparsely-covered subject to an English language readership."
