Orthographs Yiorgis Yerolymbos,Katharine Storr,Robert Storr,2017-01-01 This stunning photographic essay traces the development of Renzo Piano's Stavros Niarchos Foundation Cultural Center, a multifunctional complex for arts, education, and entertainment opening in 2017 in Athens. Photographer Yiorgis Yerolymbos finds intrigue and beauty in the grit of the construction site, where for nearly a decade he has meticulously recorded the ephemeral forms that underlie and foretell the shape of the future landmark. Deriving its title from architectural orthographic drawings, Orthographs tracks the progress of the building's construction site against Piano's visionary projections and plans. This beautiful volume offers rare, behind-the-scenes

access to the work performed and the land and materials moved in the service of turning vision into reality. The large format invites readers to immerse themselves in Yerolymbos's compelling photography, and texts by acclaimed architects and critics hail the importance of the Center and its role in transforming the physical and cultural topography of Athens.

Death by Food Pyramid Denise Minger, 2014-01-01 Warning: Shock and outrage will grip you as you dive into this one-of-a-kind exposé. Shoddy science, sketchy politics, and shady special interests have shaped American Dietary recommendations--and destroyed our nation's health--over recent decades. The phrase death by food pyramid isn't shock-value sensationalism, but the tragic consequence of following federal advice and corporate manipulation in pursuit of health. In *Death by Food Pyramid*, Denise Minger exposes the forces that

overrode common sense and solid science to launch a pyramid phenomenon that bled far beyond US borders to taint the eating habits of the entire developed world. Minger explores how generations of flawed pyramids and plates endure as part of the national consciousness, and how the one size fits all diet mentality these icons convey pushes us deeper into the throes of obesity and disease. Regardless of whether you're an omnivore or vegan, research junkie or science-phobe, health novice or seasoned dieter, *Death by Food Pyramid* will reframe your understanding of nutrition science--and inspire you to take your health, and your future, into your own hands.

The topics that will be present in this book are interactive playgrounds, urban games using mobiles, sensor-equipped environments for playing, child-computer interaction, tangible game interfaces, interactive tabletop technology and applications, full-body interaction, exertion games, persuasion, engagement, evaluation and user experience. Readers of the book will not only get a survey of state-of-the-art research in these areas, but the chapters in this book will also provide a vision of the future where playful interfaces will be ubiquitous, that is, present and integrated in home, office, recreational, sports and urban environments, emphasizing that in the future in these environments game elements will be integrated and welcomed.
