Dassault Mirage M-5MA Elkan No. 705 Julio Arrospide,2023-10-08 Third monograph in the series 'Aircraft with History' by Aviation Art & History, telling the story of the Dassault Mirage M-5MA Elkan No. 705 of the Chilean Air Force. In twenty-four pages, details of its construction and service for the Belgian Air Force (FAB) until its service in the Chilean Air Force (FACH) are published. This Mirage operated for almost twenty years in the FAB as M-5BA BA-37 in Squadron No. 1 and was retired from service in 1989. In 1994,

it was modified by SABCA to the MirSIP standard to be sold to the FACH as M-5MA Elkan No. 705. The FACH assigned them to the Aviation Group No. 8, based mainly at Cerro Moreno Air Base, Antofagasta. In 2005, it participated in the CEIBO exercise, held in Argentina at Plumerillo Air Base, Mendoza. In 2006, it was retired from service along with the rest of the fleet and is currently preserved in the FACH Supply Wing, El Bosque Air Base.

Mirage Iiio Paul Mason, Darren Mottram, 2014-02-20 The Dassault Mirage IIII0 was the RAAF's first supersonic combat aircraft, and served as its front-line fighter for over 20 years. During that time, it wore a great many color schemes, official and unofficial, and was adorned with many unit and individual markings. For the first time, the evolution and details of all these color schemes and markings is described and illustrated. The colors of this elegant aircraft changed with its roles and the changes in official thinking with regard to camouflage; the infamous Aussie sense of humor added some striking and unusual markings to Mirages over the years too! The authors have researched this topic in great depth, helped by access to official and private photo collections and the memories of Mirage pilots and ground crew. The manufacturers, Dassault, have also helped with information and photos of the very first Australian Mirages. Many of these photos are being published for the very first time, and they provide a striking visual record of the many colors carried by this much-loved French Lady - The old adage often spoken about many aircraft rings true for the Mirage, if it looks right, it

probably is right. The Mirage, in my opinion, was, is, and forever will be the most beautiful aircraft ever flown (Paul Mason).

GAMD Mirage III Hervé Beaumont, 2010 French Text Designed in response to the official 1953 program planned to equip the Armée de l'Air with a light supersonic interceptor, the Mirage III is universally acknowledged as one of the most remarkable successes of the French post-war aircraft industry. This delta-winged fighter has a configuration which has since become the hallmark of the French aircraft builder, Dassault, and has rapidly demonstrated its qualities beyond its original frontiers, so much so that 1 400 examples of all variants came off the production lines, purchased by twenty or so countries. This very broad subject has been split into two distinct parts, the first volume dealing with the initial single-seat IIIC and two-seat IIIB versions equipped with the Atar 9B jet engine and the second deals with the improved versions of the fighter with a longer fuselage, powered by an Atar 9C and fitted with a more effective Doppler radar: the IIIE interceptor, the IIIR and RD reconnaissance versions, the 5 and 50 ground attack versions. In line with the name and aim of the collection only the planes used by the Armée de l'Air are described in these books.

100 Years of Fighter Planes Norman Schmidt, 2003-11-01

Iraqi Mirages Tom Cooper, 2018-07 Originally envisaged and acquired as a 'pure' interceptor, before long the Mirage F.1 in Iraqi service proved a highly capable multi-role platform aircraft, and was widely deployed not only

for ground attack but also anti-shipping purposes, as an aerial tanker, and for delivering long-range pin-point attacks.
