Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application.

Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration.

Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Before I Was Me Frank Fraser, 2018-02-15 Before I was me, just before I was born, I asked God, "Who will I become?" "Oh, my little one," He replied, "I have great plans for you! I have chosen you to be a very important person whom I will always love." Thus begins a charming odyssey of self-discovery, as, in conversation with God, the child imagines himself as: . . . an ASTRONAUT going off to work each morning in a rocket, stopping halfway to Mars for milk and cookies a BAKER baking yummy treats everyone wants a FARMER growing food for hungry people of all nations around the world a DOCTOR healing giraffes and rabbits, and, yes, people, too a TEACHER helping boys and bears and gophers and girls become the best they can be (while giving hugs to the downcast!) a PARENT making the lives of children happy and safe; and finally a CHILD! . . . important simply for who he is and WHOM GOD WILL ALWAYS LOVE!

Dear Data Giorgia Lupi, Stefanie Posavec,2016-09-13 Equal parts mail art, data visualization, and affectionate correspondence, Dear Data celebrates the infinitesimal, incomplete, imperfect, yet exquisitely human details of life, in the words of Maria Popova (Brain Pickings), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. Dear Data reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers,

artists, correspondents, friends, and lovers everywhere.

Every touch. Every look.

Every stolen moment. The Nimali have no tolerance for outsiders. If they find out I'm not their princess, they will kill me. She is the daughter of my greatest enemy. I'm a Fai warrior, doing the bidding of the Nimali king to heal the princess. This is the penalty of war. Secretly, I work with the rebellion to free my people. Nimali are everything I hate. The princess is everything I despise. Cold. Aloof. Uncaring. Up close, she's nothing like I thought. I don't expect to crave her. I don't expect the spark between us. Our souls calling to one another. I am a prisoner. She is a princess. Our lies are the only thing keeping us alive.
