**The Write Man for Her** Christie Walker Bos,2008-05 Work, work, work. That's how Jessica Anne Singer has dealt with the loneliness since her divorce. Except for her squawky cockatiel, Merlin, Jessica hasn't had a date in years, but all that's about to end. Jessica's best friend, Cath, has decided that Jessica needs to meet her dreamy online professor, Brant Wilson. Creative writing professor Brant Wilson is intrigued by one of his online students, Jessica Singer. She seems more worldly than most of his students and has a penchant for arguing with him over just about everything, which he finds oddly enjoyable. But when she asks to meet with him in person to discuss her grades he immediately refuses. He never meets with his students face-to-face. Never. Undeterred, Cath hatches a harebrained plan to find the reclusive professor. When the plan actually works, Jessica uncovers the real reason the professor doesn't meet with his students. Stunned by her discovery, Jessica must decide if she'll listen to her head or her heart when it comes to determining if Professor Brant Wilson is the right man for her.

*10 PRINT CHR\$(205.5+RND(1)); : GOTO 10* Nick Montfort,Patsy Baudoin,John Bell,Ian Bogost,Jeremy Douglass,2012-11-23 A single line of code offers a way to understand the cultural context of computing. This book takes a single line of code—the extremely concise BASIC program for the Commodore 64 inscribed in the title—and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text—in the case of *10 PRINT*, a text that appeared in many different printed sources—that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.

**Bioterrorism and Biocrimes** W. Seth Carus, Center for Counterproliferation Research, 2002 The working paper is divided into two main parts. The first part is a descriptive analysis of the illicit use of biological agents by criminals and terrorists. It draws on a series of case studies documented in the second part. The case studies describe every instance identifiable in open source materials in which a perpetrator used, acquired, or threatened to use a biological agent. While the inventory of cases is clearly incomplete, it provides an empirical basis for addressing a number of important questions relating to both biocrimes and bioterrorism. This material should enable policymakers concerned with bioterrorism to make more informed decisions. In the course of this project, the author has researched over 270 alleged cases involving biological agents. This includes all incidents found in open sources that allegedly occurred during the 20th Century. While the list is certainly not complete, it provides the most comprehensive existing unclassified coverage of instances of illicit use of biological agents.

*How Are We to Live?* Peter Singer,2010-03-19 Many people have an uneasy feeling that they may be missing out on something basic that would give their lives a significance it currently lacks. But how should we live? What is there to stop us behaving selfishly? In this account, which makes reference to a wide variety of sources and everyday issues, Peter Singer suggests that the conventional pursuit of self-interest is individually and collectively self-defeating. Taking into consideration the beliefs of Jesus, Kant, Rousseau, and Adam Smith amongst others, he looks at a number of different cultures, including America, Japan, and the Aborigines to assess whether or not selfishness is in our genes and how we may find greater satisfaction in an ethical lifestyle.

*Barbarians at the Gate* Bryan Burrough, John Helyar, 2009-10-13 "One of the finest, most compelling accounts of what happened to corporate America and Wall Street in the 1980's." —New York Times Book Review A #1 New York Times bestseller and arguably the best business narrative ever written, *Barbarians at the Gate* is the classic account of the fall of RJR Nabisco. An enduring masterpiece of investigative journalism by Bryan Burrough and John Helyar, it includes a new afterword by the authors that brings this remarkable story of greed and double-dealings up to date twenty years after the famed deal. The Los Angeles Times calls *Barbarians at the Gate*, "Superlative." The Chicago Tribune raves, "It's hard to imagine a better story...and it's hard to imagine a better account." And in an era of spectacular business crashes and federal bailouts, it still stands as a valuable cautionary tale that must be heeded.

**The Demise of the American Holiness Movement** Darius Salter, Darius L Salter Ph D, 2019-04-11 Introduction: Born in 1947, I have lived in two worlds. The first world was pre-cell phone, pre- air conditioner, pre-computer, pre-fast food, pre-microwave, pre-travel, pre-mobility, pre-Walmart, pre-secondary education, pre-secularism, pre-mall, pre-middle class, and pre-consolidation. Most of these are self-evident for anyone my age and perhaps several of them are relevant only to me or the individuals raised in my community or similar communities. For instance, until I was sixteen years old I had never been more than 175 miles west of the small fishing village where I grew up on the coast of North Carolina. Until that time, I would not have been out of the state, except for the fact that as a child of a Navy serviceman, I lived my first seven years in Norfolk, Virginia
