Canadian Expeditionary Force, 1914-1919 G.W.L.

Nicholson, Mark Osborne Humphries, 2015-11-01 Colonel G.W.L.

Nicholson's *Canadian Expeditionary Force, 1914-1919* was first published by the Department of National Defence in 1962 as the official history of the Canadian Army's involvement in the First World War. Immediately after the war ended Colonel A. Fortescue Duguid made a first attempt to write an official history of the war, but the ill-fated project produced only the first of an anticipated eight volumes. Decades later, G.W.L. Nicholson - already the author of an official history of the Second World War - was commissioned to write a new official history of the First. Illustrated with numerous photographs and full-colour maps, Nicholson's text offers an authoritative account of the war effort, while also discussing politics on the home front, including debates around conscription in 1917. With a new critical introduction by Mark Osborne Humphries that traces the development of Nicholson's text and analyzes its legacy, *Canadian Expeditionary Force, 1914-1919* is an essential resource for both professional historians and military history enthusiasts.

Surprise, Kill, Vanish Annie Jacobsen,2019-05-14 From

Pulitzer Prize finalist Annie Jacobsen, the untold USA Today bestselling story of the CIA's secret paramilitary units. Surprise . . . your target. Kill . . . your enemy. Vanish . . . without a trace. When diplomacy fails, and war is unwise, the president calls on the CIA's Special Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day, along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils -- like never before -- a complex world of individuals working in treacherous environments populated with killers, connivers, and saboteurs. Despite Hollywood

notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, *Surprise, Kill, Vanish* brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews -- with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world -- reveal, for the first time, the enormity of this shocking, controversial, and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal.

Combat Support in Korea Cpt. John G. Westover, 2017-01-12

One of the cherished beliefs of those who do not know is that the logistical services of the Army lead a safe and boring life, even in the combat zone. The Combat Engineers and the Signal Corps began to cloud this belief in World War I. The Medical Corps, the Chemical Corps and the Bomb Disposal squads of the Ordnance Corps began to demand respect as dangerous assignments in World War II. In Korea all the services won the right to be shot at. War becomes increasingly a matter of logistics. The thin cutting edge of infantry, armor and artillery still contains the larger proportion of heroes, dead and alive, but these combat arms depend more and more on the services to provide them not only with the traditional beans and bullets, but with gasoline,

transportation, medical service, concealing smoke, communications equipment, graves registration, potable water, laundry service—the list is endless. Here are some true accounts that tell how the services fulfilled their missions in a tough and dirty little war. There are tales of devotion to duty that match those of any combat arm. There are roles of technical proficiency combined with the foresight to seize opportunities as they arose. But because these are true stories, there are descriptions of actions whose only value is to indicate what should not be done, what lack of preparedness means in lives and dollars. Here is an honest book—one that had to be honest because it was conceived to tell the whole truth, for the education of our army. This is a book for every soldier, every youth who might become a soldier, every parent of every such youth. He succeeded, and the fruit of his labors is here.

American Armies and Battlefields in Europe ,2018-08-17 This volume was first published by the American Battle Monuments Commission in 1938 and was republished by CMH in 1992 to commemorate the American Expeditionary Forces' seventy-fifth birthday. *American Armies and Battlefields in Europe*, a facsimile edition to commemorate the seventy-fifth birthday of the American Expeditionary Forces, is a unique, illustrated volume that captures

the AEF's lessons of battle during World War I. Based on the series of battlefield tours conducted for staff officers at General John J. Pershing's headquarters, the operational chapters describe the military situation, giving detailed accounts of actual fighting supported by maps and sketches, and a summary of events and service of combat divisions. Topical chapters on the Services of Supply, the U.S. Navy, military cemeteries and memorials, and other interesting and useful facts conclude the narrative. For scholars and students of the Great War, as well as veterans and their descendants wishing to find battle sites of long ago, this guidebook remains the most authoritative and easily usable source for visitors to the AEF's battlefields. The American Battle Monuments Commission, a small independent agency established by Congress in 1923 at the request of General John J. Pershing, is the guardian of America's overseas commemorative cemeteries and memorials. Its mission is to honor the service, achievements, and sacrifice of the United States armed forces. The Other Side of the Mountain: Mujahideen Tactics in the Soviet-Afghan War Ali Ahmad Jalali,2020-12-08 The Other Side of the Mountain: Mujahadeen Tactics in the Soviet-Afghan War is a 1998 non-fiction book written by former Afghan Army Colonel Ali Ahmad Jalali and American military scholar Lester W. Grau. The book was commissioned by the United States Marine Corps Studies and Analysis Division to complement Grau's previous book, The Bear Went Over the Mountain. Jalali and Grau had planned travel into Afghanistan to interview Mujahideen fighters in late 1996, but were forced to remain in Pakistan when a Taliban

offensive campaign started to seize major portions of Afghanistan, eventually capturing Kabul on September 27. Jalali interviewed approximately 40 Mujahideen during the month which the authors spent in Pakistan and an associate, Major Nasrullah Safi, conducted interviews inside Afghanistan for two months to collect additional data.

Cthulhu Confidential Pelgrane Press,2017-07 Cthulhu

Confidential is a roleplaying game designed for one player and one game master. Its powered by the GUMSHOE One-2-One game system which retunes, rebuilds and reimagines the acclaimed GUMSHOE investigative rules set, as seen in such hit roleplaying games as Trail of Cthulhu and Nights Black Agents, for one player and one GM. Together, you create a story that evokes the classic solo protagonist mystery format. Cthulhu Confidential drops your hero into the noir nightscape of hardboiled-era Los Angeles, New York or Washington, DC. Meet powerbrokers and politicians, rub shoulders with Hollywood studio bosses and fiery evangelists. Face narrow-eyed G-Men, bent cops and dangerous crime lords. But beneath it all, under the scrim of all this human endeavor, lives corruption so old and inhuman youll need all your courage and resourcefulness to face it. Choose one of three heroes with their

own settings and adventures: Langston Wright is an African-American war veteran and scholar in WW2-era DC with a keen intellect. Dex Raymond is a hard-boiled private detective in 1930s Los Angeles with a nose for trouble. And Vivian Sinclair is The New York Herald's most determined scoop-hound. Each is a lone investigator, equipped with smarts, fists, and just maybe a code of honor, uncovering their towns' secret truths. But what happens when you scratch the veneer of human malfeasance to reveal an eternal evil—the malignant, cosmic indifference of HP Lovecraft's Cthulhu Mythos? Made in the U.S.
