Borderlands Gloria Anzaldúa,1987 Second edition of Gloria Anzaldua's major work, with a new critical introduction by Chicano Studies scholar and new reflections by Anzaldua.

Finance for Normal People Meir Statman,2017 Behavioral finance presented in Finance for Normal People is a second generation behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as “rational” wants - restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as “irrational” - succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants - hope for riches and freedom from the fear of poverty, nurturing our children and families, being true to our values, gaining high social status, playing games and winning, and more. It distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency. These are presented in this book. We often hear that behavioral finance is nothing more than a collection of stories about irrational people misled by cognitive and emotional errors, that it lacks the unified structure of standard finance. Yet today's standard finance is no longer unified because wide cracks have opened between its theory and the evidence. This book offers behavioral finance as a unified structure that incorporates parts of standard finance, replaces others, and includes bridges between theory, evidence, and practice.

Race Car Design Derek Seward,2017-09-16 Based on the principles of engineering science, physics and mathematics, but assuming only an elementary understanding of these, this textbook masterfully explains the theory and practice of the subject. Bringing together key topics, including the chassis frame, suspension, steering, tyres, brakes, transmission, lubrication and fuel systems, this is the first text to cover all the essential elements of race car design in one student-friendly textbook. It avoids the pitfalls of being either too theoretical and mathematical, or else resorting to approximations without explanation of the underlying theory. Where relevant, emphasis is placed on the important role that computer tools play in the modern design process. This book is intended for motorsport engineering students and is the best possible resource for those involved in Formula Student/FSAE. It is also a valuable guide for practising car designers and constructors, and enthusiasts.

Aesthetic Experience George Hagman, 2011-07 George Hagman looks anew at psychoanalytic ideas about art and beauty through the lens of current developmental psychology that recognizes the importance of attachment and affiliative motivational systems. In dialogue with theorists such as Freud, Ehrenzweig, Kris, Rank, Winnicott, Kohut, and many others, Hagman brings the psychoanalytic understanding of aesthetic experience into the 21st century. He amends and extends old concepts and offers a wealth of stimulating new ideas regarding the creative process, the ideal, beauty, ugliness, and -perhaps his most original contribution-the sublime. Especially welcome is his grounding of aesthetic experience in intersubjectivity and health rather than individualism and pathology. His emphasis on form rather than the content of an individual's aesthetic experience is a stimulating new direction for psychoanalytic theory of art. With this work Hagman stands in the company of his

predecessors with this deeply-learned, sensitively conceived, and provocative general theory of human aesthetic experience. Ellen Dissanayake, author of *Art and Intimacy: How the Arts Began* and *Homo Aestheticus: Where Art Comes From and Why*.

Status Passage Anselm L. Strauss, 2017-07-05 The French writer Arnold van Gennep first called attention to the phenomena of status passages in his *Rites of Passage* one hundred years ago. In *Status Passage*, first published in 1971, the movement of individuals and groups in contemporary society from one status to another is examined in the light of Gennep's original theory. Glaser and Strauss demonstrate that society emerges as a comparative order. In this order, every organized action, collective or individual, can be seen as a form of status passage. From one status to another—from childhood to adolescence to adulthood, from being single to being married, movement from one income group, social class or religion to another—there are passages that entail movement into different parts of a social structure and loss or gain in privileges. Types of status passage are described by their proper ties. The authors present a formal theory of status passage in the form of a running theoretical discussion. The concepts and categories discussed in *Status Passage* are illuminated by a large number of examples chosen from a wide range of human behavior, and the applicability of the theory to still other examples is made apparent. The result is a stimulating and provocative book that will interest a wide range of sociologists, social psychologists, and other social scientists, and will be useful in a variety of courses.

Heartbreak Tango Manuel Puig, 2010 Awash in small-town gossip, petty jealousy, and intrigues, Manuel Puig's Heartbreak Tango is a comedic assault on the fault lines between the disappointments of the everyday world, and the impossible promises of commercials, pop songs, and movies. This melancholy and hilarious tango concerns the many women in orbit around Juan Carlos Etchepare, an impossibly beautiful Lothario wasting away ever-so-slowly from consumption, while those who loved and were spurned by him move on into workaday lives and unhappy marriages. Part elegy, part melodrama, and part dirty joke, this wicked and charming novel demonstrates Manuel Puig's mastery

of both the highest and lowest forms of life and culture.
