Crossing Design Boundaries Paul Rodgers,Libby Brodhurst,Duncan Hepburn,2006-02-01 This book presents over 100 papers from the 3rd Engineering & Product Design Education International Conference dedicated to the subject of exploring novel approaches in product design education. The theme of the book is Crossing Design Boundaries which reflects the editors' wish to incorporate many of the disciplines associated with, and integral to, modern product design and development pursuits. Crossing Design Boundaries covers, for example, the conjunction of anthropology and design, the psychology of design products, the application of soft computing in wearable products, and the utilisation of new media and design and how these can be best exploited within the current product design arena. The book includes discussions concerning product design education and the cross-over into other well established design disciplines such as interaction design, jewellery design, furniture design, and exhibition design which have been somewhat under represented in recent years. The book comprises a number of sections containing papers which cover highly topical and relevant issues including Design Curriculum Development, Interdisciplinarity, Design Collaboration and Team Working, Philosophies of Design Education, Design Knowledge, New Materials and New Technologies in Design, Design Communication, Industrial Collaborations and Working with Industry, Teaching and Learning Tools, and Design Theory.

The Art of Critical Making Rosanne Somerson,Mara Hermano,2013-09-11 Describes the world's leading approach to art and design taught at Rhode Island School of Design At Rhode Island School of Design students are immersed in a culture where making questions, ideas, and objects, using and inventing materials, and activating experience all serve to define a form of critical thinking—albeit with one's hands—i.e. critical making. The Art of Critical Making, by RISD faculty and staff, describes fundamental aspects of RISD's approach to critical making and how this can lead to innovation. The process of making taught at RISD is deeply introspective, passionate, and often provocative. This book illuminates how RISD nurtures the creative process, from brief or prompt to outcome, along with guidance on the critical

questions and research that enable making great works of art and design. Explores the conceptual process, idea research, critical questions, and iteration that RISD faculty employ to educate students to generate thoughtful work Authors are from the faculty and staff of the Rhode Island School of Design, which consistently ranks as the number one fine arts and design college in the United States The Art of Critical Making shows you how context, materials, thought processes, and self-evaluation are applied in this educational environment to prepare creative individuals to produce dynamic, memorable, and meaningful works.

C'lick Me Katrien Jacobs,2007 C'Lick Me: A Netporn Studies Reader is an anthology that collects the best material from two years of debate from The Art and Politics of Netporn 2005 conference to the 2007 C'Lick Me festival. The C'Lick Me reader opens the field of 'Internet pornology'. Based on non-conventional approaches and mixing academics, artists and activists, it reclaims a critical post-enthusiastic, post-censorship perspective on netporn, a dark field that has been dominated thus far by dodgy commerce and filtering. The C'Lick Me reader covers the rise of the netporn society from the Usenet underground to the blogosphere, analyses economic data and search engine traffic, compares sex work with the work of fantasy, disability and accessibility. The reader also expands the notion of digital desire beyond the predictable boundaries of the porn debate and depicts a broader libidinal spectrum ranging from fetish subcultures to digital alienation, from code pornography to war pornography. C'Lick Me concludes by re-contextualising queer discourse into a post-porn scenario.
