Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Trading Risk Kenneth L. Grant, 2011-01-19 Revolutionary techniques that
traders can implement to improve profits and avoid losses No trader,
professional or individual, can afford not to have a solid risk management
program integrated into his or her trading system. But finding a precise
mathematical model to replace subjective decision-making processes is a
challenge. Traditionally, risk management has focused solely on loss
avoidance, but in *Trading Risk*, hedge fund risk manager Kenneth Grant
presents something completely new—how to manage a portfolio to minimize risk
and increase profits by putting more capital at risk. *Trading Risk* details a

risk management program that can help both money managers and individual traders evaluate which elements in a portfolio are working efficiently and which aren't. By illustrating an extremely simple set of statistical and arithmetic tools this book can help readers enhance their performance in many financial markets. Kenneth L. Grant is Cheyne's Global Risk Manager, and is the Managing Member for Cheyne Capital, LLC, the firm's U.S. arm. Mr. Grant is a pioneer in the field of hedge fund risk management and capital allocation. Before joining Cheyne, he created risk control programs at two of the world's leading hedge funds, Tudor Investments and SAC Capital, where he was eventually promoted to the title of Chief Investment Strategist. Mr. Grant holds a Bachelor of Science in Economics and Mathematics from the University of Wisconsin, an MA in Economics from Columbia University, and an MBA from the University of Chicago Graduate School of Business.

Professor Pipes analyzes the political behavior of Russia's peasantry, nobility and bourgeoisie as well as its clergy, showing why none of them could limit the absolute power of the state. He discusses how the intelligentsia challenged the Tsars' power, leading to increased repression and Russia's development as a bureaucratic police state.
