Papertoy Glowbots Brian Castleforte, 2016-08-23 Origami meets amazing creatures in a book of paper craft fun! Papertoy Glowbots introduces 46 robots that have the added cool factor of lighting up, whether using glow-in-the-dark stickers that come with the book or light sources like flashlights, Christmas tree lights, and electric tea lights. The 46 die-cut paper robots are created by Brian Castleforte, author of *Papertoy Monsters*, along with the hottest papertoy designers from around the world. Meet the robots and read about their entertaining backstories in the front, then turn to the card stock section in the back to build them. The templates are die-cut and ready to pop out, fold, and glue. Bold, colorful graphics ensure the robots look as amazing in the daytime as they do with the lights off.

We Are Paper Toys: Print-Cut-Fold-Glue-Fun Louis Bou, 2010-06-15 *We Are Paper Toys!* presents thirty-two of the finest paper toy designers in the world. Each artist gives us a glimpse of their world and explains their passion for paper toys through a personal interview. The book includes a CD with PDF templates of some of the paper toys showcased in this book. They are ready to be printed, cut, and pasted so you can have these small works of art in your own home. It's never too soon to start cutting, folding, pasting, and above all, having fun!

Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), *Papertoy Monsters* offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft

package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Imperium Lupi Adam Browne,2017-07-17 IMPERIUM LUPI A decade has passed since the last Howler War and the City of Lupa stands peaceful again under the choking clouds of the Ashfall. The wild hyenas have been conquered, the little beasts remain subdued, and the wolf packs preserve their uneasy oligarchy

thanks to the noxious power of imperium. However, new threats fester within the Lupan Wall. There are those who would overturn the rule of the Den Fathers, if not the dominion of wolfkind altogether, by persuasion, murder, even genocide, if that's what it takes. Imperium Lupi is a gritty, steampunk, fantasy adventure packed with intrigue and flexible morals. The true monsters are not the giant insects that stalk the wild world of Erde, but the beasts who don the mask of civility to cover their crooked convictions. For the Republic Lupi!

Light Paulo Torcato,2019-01-05 Inspiration really can come from the simplest of things. So what was the spark that ignited this series then? Quite simply a messy desk...As I sat down to work on my computer, I noticed a bright blinding light shining into my eyes - the sun was reflecting light onto an old CD bouncing straight into my vision; And that's when I realised - hey! I could do something really cool with this! :P

Shadows of Time Joseph J. Reinemann,2006-04 The first book in the award-winning Shadows of Time series introduces John Roley, Tim Jackson, and 2 intelligent computer prototypes known as ISAC-9. During their vacation, they are surprised to find that they have been proclaimed to be the guardians of time, a confusing situation since none of them had even been aware they were up for consideration. Before they have a chance to fully absorb this information (or decline the offer) they are thrown back in time to a point near the end of Mayan civilization. Immediately John is captured by Mayans, Tim is rescued by a group of people whose technology has no business existing anywhere, and both discover that real history is considerably more messed up than anyone could have imagined.

Transtopia in the Sinophone Pacific Howard Chiang, 2021-04-06 As a broad category of identity, "transgender" has given life to a vibrant field of academic research since the 1990s. Yet the Western origins of the field have tended to limit its cross-cultural scope. Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance. Defined as the antidote to transphobia, transtopia challenges a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum. Against the backdrop of the Sinophone Pacific, Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame. At the same time, he challenges China-centrism in the study of East Asian gender and sexual configurations. Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced through one another.

Grounded in an eclectic range of sources—from the archives of sexology to press reports of intersexuality, films about castration, and records of social activism—this book reorients anti-transphobic inquiry at the crossroads of area studies, medical humanities, and queer theory. Timely and provocative, *Transtopia in the Sinophone Pacific* highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity.

The Persian Wars Herodotus, 2021-04-10 Herodotus, the great Greek historian, wrote this famous history of warfare between the Greeks and the Persians in a delightful style. Herodotus portrays the dispute as one between the forces of slavery on the one hand and freedom on the other. This work covers the rise of the Persian influence and a history of the Persian empire, a description and history of Egypt, and a long digression on the landscape and traditions of Scythia. Because of the comprehensiveness of this work, it was considered the founding work of history in Western literature. A must-have for history enthusiasts.

The Complete Renaissance Swordsman, 2010 Dating from the 1520's, Bolognese swordmaster's Antonio Manciolino's Opera Nova is the earliest surviving printed book on Italian martial arts. This seminal and eclectic Renaissance work contains clear and systematic instruction on the use of the sword and small buckler, sword and large buckler, sword and targa, sword and dagger, sword and cape, two swords, sword alone, and sword and rotella, plus a fascinating compendium on the use of polearms. Clearly and elegantly written, Manciolino's text is one of the best and clearest presentations of the martial skills required of the ideal Renaissance man. For the first time since its original publishing, this book has been translated into English by experienced historical fencing instructor Tom Leoni. Also included is a valuable and extensive technical introduction, complete with illustrations from both original sources and modern photographs, making it easy to follow Manciolino's instructions, sword-in-hand, even by beginners, while providing years of training for veteran martial artists.

The Return of the Mother Andrew Harvey, 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, The Return of the Mother is a profound journey into the heart of the Divine

Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. The Return of the Mother offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. The Return of the Mother is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.
