Brands and Branding Rita Clifton,2009-04-01 With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands in the age of globalization. Although the balance sheet may not even put a value on it, a company's brand or its portfolio of brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of Brands and Branding provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, Brands and Branding sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

Brands and Branding Stephen Brown,2016-08-17 Lecturers/Instructors - Request a free digital inspection copy here [A fun and humorous introductory](#)

book, written in Stephen Brown's entertaining and highly distinctive style, that introduces curious readers to the key components of brands and helps them to begin to make sense of them - what they are, what they do, why and how - using plenty of examples and references drawn from a wide range of brands such as Amazon, Apple, Google, Gucci, Nike, Nintendo, Starbucks, Swatch and The Worst Hotel in the World. With 3,000 branding books published each year, why would you (or your students) want to read *Brands & Branding*? Here are seven reasons why: It's introductory, aimed at undergraduate students or postgrads without a bachelor degree in business and assumes nothing more than readers' awareness of high profile brands such as Coca-Cola, Microsoft and Chanel. It's indicative, focusing on the basics and thus being a more reliable revision aid than Lucozade. It's immersive, taking readers on a journey and, working on the assumption that they have smartphones or tablet computers to hand, the print text links to images, articles and academic publications to give emphasis and context where appropriate. It's inclusive, considering articles and reports but also blogs, novels, newspapers, reviews, social media and other sources. It's irreverent – branding is not always a deadly serious business! It's intimate, Stephen speaks to you directly and together you will pick your way through the sometimes weird and unfailingly wonderful world of brands and branding using examples rather than abstract ideas to illustrate points. It's inspirational, celebrating the curious and successful stories of brands from Cillit Bang to Cacharel. Suitable for first and second year marketing or advertising students, and for those new to or interested in branding and who are keen to know more.
