The Long Tail Chris Anderson, 2006-07-11 What happens when the bottlenecks that stand between supply and demand in our culture go away and everything becomes available to everyone? The Long Tail is a powerful new force in our economy: the rise of the niche. As the cost of reaching consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know.

The Long Tail is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the definition of what's commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches.

Lowrider Coloring Book Oscar Nilsson, 2011-04-14 Paint your own lowrider just the way you like it! Impalas, Cadillacs and Rivas. In the Lowrider Coloring Book, you will color the classic and most popular Lowrider models. Lowrider culture reaches back to 1930s Los Angeles, where it became popular for style-conscious Latino-Americans to load their cars with sandbags to bring it closer to the road. Style was everything, and when lowered cars were banned in California in the 1950s, it became necessary to find a way to raise and lower the car simply to avoid fines. The solution was to use hydraulics from old fighter planes left over from World War II. The rapper Kid Frost showcased lowriding in the early 90s hit Lowrider, and since then, the cars are closely associated with hip hop culture. Today, lowriding is bigger than ever with thousands of enthusiasts in most parts of the world. All strive to outdo each other with the most elegant varnish, interior, hydraulics, chrome and rims. The

custom cars you'll be coloring in the Lowrider Coloring book were converted by some of the best and most legendary enthusiasts. What color is your Impala?

LA Graffiti Black Book David Brafman, 2021-04-13 This collection of unique works by 150 Los Angeles graffiti and tattoo artists represents an unprecedented collaboration across the city's diverse artistic landscape. Many graffiti artists carry sketchbooks, called black books, and they ask crew members and others whose work they admire to inscribe their books with lettering or drawings. A few years ago, the Getty Research Institute invited artists, including Angst, Axis, Big Sleeps, Chaz, Cre8, Defer, EyeOne, Fische, Heaven, Hyde, Look, ManOne, and Prime, to consider the idea of a citywide graffiti black book. During visits to the Getty Center, the artists viewed rare books related to calligraphy and letterforms, including works by Albrecht Dürer and Leonardo da Vinci. The artists instantly recognized the connections to their own practices and were particularly drawn to a liber amicorum (book of friends), a form of autograph book popular in the seventeenth century. Passed from hand to hand, it was filled with signatures, poetry, and coats of arms, like a black book from another era.

Inspired by this meeting of minds across centuries, these artists became both creators and curators, crafting their own pages and inviting others to contribute. Eventually 150 Los Angeles artists decorated 143 individual pages. These were bound together into an exquisite artists' book that became known as the Getty Graffiti Black Book. This publication reproduces each page from the original artists' book and recounts the story of an unprecedented collaboration across the diverse artistic landscape of Los Angeles.

Twelve Years a Slave Solomon Northup, 2013 Film Adapted in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For

further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Tom Waits on Tom Waits Paul Maher, 2011-11-01 Tom Waits may just be what the Daily Telegraph calls him: 'the greatest entertainer on Planet Earth.' He is also a shape-shifter who, over a span of almost four decades, has restlessly transformed his song-writing and persona not to suit the times but his own whims. Along with Bob Dylan, he stands as one of American music's last great

mysteries. Hundreds of journalists have sought to crack the Waits code, but few have come close to piercing the myths that shroud him. *Tom Waits on Tom Waits* is a selection of over fifty of his most intriguing interviews, the majority of which have never been collected in book form before. In each Waits shares something truly unique, delivering prose as crafted, poetic, potent and haunting as his best lyrics. Taken together they present a de facto autobiography of a notoriously guarded artist.

The Black Hand Chris Blatchford, 2009-10-06 THE BLACK HAND is the true story of Rene Enriquez, aka Boxer, and his rise in a secret criminal organization, a new Mafia, that already has a grip on all organized crime in California and soon all of the United States. This Mafia is using a base army of an estimated 60,000 heavily armed, loyal Latino gang members, called Sureños, driven by fear and illicit profits. They are the most dangerous gang in American history and they wave the flag of the Black Hand. Mafioso Enriquez gives an insider's view of how he devoted his life to the cause--the Mexican Mafia, La Familia Mexicana, also known as La Eme--only to find betrayal and disillusionment at the end of a bloody trail of violence that he followed for two decades. And now, award-winning

investigative journalist Chris Blatchford, with the unprecedented cooperation of Rene Enriquez, reveals the inner workings, secret meetings, and elaborate murder plots that make up the daily routine of the Mafia brothers. It is an intense, never-before-told story of a man who devoted his life to a bloody cause only to find betrayal and disillusionment. Based on years of research and investigation, Chris Blatchford has delivered a historic narrative of a nefarious organization that will go down as a classic in mob literature.

Affective Health and Masculinities in South Africa Hans Reihling, 2020-04-03 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than

global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Art and Curiosity Cabinets of the Late Renaissance Julius von Schlosser, 2021-01-19 For the first time, the pioneering book that launched the study of art and curiosity cabinets is available in English. Julius von Schlosser's *Die Kunst- und Wunderkammern der Spätrenaissance* (Art and Curiosity Cabinets of the Late Renaissance) is a seminal work in the history of art and collecting. Originally published in German in 1908, it was the first study to interpret sixteenth- and seventeenth-century cabinets of wonder as precursors to the modern museum, situating them within a history of collecting going back to Greco-Roman antiquity. In its comparative approach and broad geographical scope, Schlosser's book introduced an interdisciplinary and global perspective to the study of art and material

culture, laying the foundation for museum studies and the history of collections. Schlosser was an Austrian professor, curator, museum director, and leading figure of the Vienna School of art history whose work has not achieved the prominence of his contemporaries until now. This eloquent and informed translation is preceded by Thomas DaCosta Kaufmann's substantial introduction. Tracing Schlosser's biography and intellectual formation in Vienna at the turn of the twentieth century, it contextualizes his work among that of his contemporaries, offering a wealth of insights along the way.

That Winter Pamela Gillilan, 1986 Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

Light, Paper, Process Virginia Heckert, 2015-04-14 From its beginnings, photography has been

shaped by the desire to understand and explore the essence of the medium. *Light, Paper, Process* features the work of seven artists—Alison Rossiter, Marco Breuer, James Welling, Lisa Oppenheim, Chris McCaw, John Chiara, and Matthew Brandt—who investigate the possibilities of analog photography by finding innovative, surprising, and sometimes controversial ways to push light-sensitive photographic papers and chemical processing beyond their limits. A panoply of practices emerges in the work of these artists. Some customize cameras with special lenses or produce images on paper without a camera or film. Others load paper, rather than film, in the camera or create contact-printing with sources of light other than the enlarger, while still others use expired photographic papers and extraneous materials, such as dust and sweat, selected to match the particular subject of the photograph. All of the artists share a willingness to embrace accident and chance. Trial and error contribute to an understanding of the materials and their potential, as do the attitudes of underlying curiosity and inventive interrogation. The act of making each image is like a performance, with only the photographer present. The results are stunning. This lavish publication accompanies an eponymous

exhibition on view at the J. Paul Getty Museum from April 14 to September 6, 2015.

Outside Music, Inside Voices Garrison Fewell, 2015-05-31 *Outside Music, Inside Voices*, supported by a Faculty Fellowship grant from the Berklee College of Music, was edited by the jazz writer Ed Hazell and by Evelyn Rosenthal, former director of Harvard University Museum Publications. The 330-page book includes a foreword written by Ed Hazell; extensive notations in the footnotes of the author's introduction; individual biographies of each artist and the author; 30 brilliant black-and-white photographs of each artist, taken by Luciano Rossetti. As Herbie Hancock noted in his endorsement, "Garrison Fewell has written a brilliant reflection on creativity and spirituality, delving into the deep relationship between these two subjects that spark the explorations of many pioneers in avant-garde jazz music. The level of detail here is so compelling that it encourages much more than just a single reading of this book."

It is both an extraordinary image of tomorrow and an urgent examination of the environmental questions that face us today.

Under Discussion Donatien Grau, 2021-04-28 In almost thirty interviews, Donatien Grau probes some of the world's most prominent thinkers and preeminent arts leaders on the past, present, and future of the encyclopedic museum. Over the last two decades, the encyclopedic museum has been criticized and praised, constantly discussed, and often in the news. Encyclopedic museums are a phenomenon of Europe and the United States, and their locations and mostly Eurocentric collections have in more recent years drawn attention to what many see as bias. Debates on provenance in general, cultural origins, and restitutions of African heritage have exerted pressure on encyclopedic museums, and indeed on all manner of museums. Is there still a place for an institution dedicated to gathering, preserving, and showcasing all the world's cultures? Donatien Grau's conversations with international arts officials, museum leaders, artists, architects, and journalists go beyond the history of the encyclopedic format and the last decades' issues that have burdened existing institutions. Are

encyclopedic museums still relevant? What can they contribute when the Internet now seems to offer the greater encyclopedia? How important is it for us to have in-person access to objects from all over the world that can directly articulate something to us about humanity? The fresh ideas and nuances of new voices on the core principles important to museums in Dakar, Abu Dhabi, and Mumbai complement some of the world's arts leaders from European and American institutions—resulting in some revealing and unexpected answers. Every interviewee offers differing views, making for exciting, stimulating reading. Includes interviews with George Abungu, National Museums of Kenya; Kwame Anthony Appiah, New York University; Homi K. Bhabha, Harvard University; Hamady Bocoum, Musée des Civilisations Noires, Dakar; Irina Bokova, UNESCO; Partha Chatterjee, Columbia University; Thomas Campbell, Fine Arts Museum of San Francisco; James Cuno, J. American Indian and African American People, Communities, and Interactions Lisa Bier, 2004-06-30

Interest in this topic is growing rapidly, both as a field of academic research and as people with African American and American Indian backgrounds voice interest in their heritage. Materials on this topic are often difficult to locate because of the ways that libraries and research databases organize information. This bibliography is the first of its kind and strives to make researching this understudied topic easier. This volume will serve as an important research tool in this area. This bibliography features books, articles, Web sites, and videos containing information on interactions between African American and Native American people and communities. These interactions reveal communication, alliances, and

agency among the two groups, a neglected layer of North American history. The descriptive annotations are grouped into chapters that are organized either geographically or by tribe. The book concludes with a detailed index.

Slut! Leora Tanenbaum,2000-08-22 Girls may be called sluts for any number of reasons, including being outsiders, early developers, victims of rape, targets of others' revenge. Often the labels has nothing to do with sex -- the girls simply do not fit in. An important account of the lives of these young women, Slut! weaves together powerful oral histories of girls and women who finally overcame their sexual labels with a cogent analysis of the underlying problem of sexual stereotyping. Author Leora Tanenbaum herself was labeled a slut in high school. The confessional article she wrote for Seventeen

about the experience caused a sensation and led her to write this book.
