Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Papertoy Glowbots Brian Castleforte, 2016-08-23 Origami meets amazing creatures in a book of paper craft fun! Papertoy Glowbots introduces 46 robots that have the added cool factor of lighting up, whether using glow-in-the-dark stickers that come with the book or light sources like flashlights, Christmas tree lights, and electric tea lights. The 46 die-cut paper robots are created by Brian Castleforte,

author of Papertoy Monsters, along with the hottest papertoy designers from around the world. Meet the robots and read about their entertaining backstories in the front, then turn to the card stock section in the back to build them. The templates are die-cut and ready to pop out, fold, and glue. Bold, colorful graphics ensure the robots look as amazing in the daytime as they do with the lights off.

Poetical Works... John Keats,1902

"Please ... Don't Kill Me" William C. Dear,Carlton Stowers,2018-02-09 I don't care who you hire, or what the company has to pay him ... so long as he's the best there is. This anguished cry from the wife of murder victim Dean Milo would draw private investigator Bill Dear into one of the most frustrating and ultimately triumphant cases of his career. Dean Milo was a phenomenally successful businessman who had built a tiny family business into a \$50 million-a-year corporation. Along the way he had established a lengthy list of enemies that began with his immediate family and stretched throughout the social and business community. His fast-track ride to the top came to a violent halt on August 11, 1980, when Milo was found dead in his luxurious Ohio home, shot twice in the head. A blank telegram form lay nearby. Four months after his death, the investigation remained a confusing collection of non sequiturs. Clues pointed toward Milo's involvement with the Mafia, the drug world,

and the gay community. His own family refused to cooperate with the authorities. And time was ticking by ... In desperation, Maggie Milo turned to Texas private eye Bill Dear. This is the gripping story of the remarkable collaboration between Dear and the police detectives of Akron, Ohio, that led to eleven convictions, an Ohio record. It is also a tale of the human weakness, desperation, and overwhelming greed that led to a sudden death.
