**Fast Track to Cruising** Steve Colgate,Doris  
Colgate,2004-12-10 Learn how to handle a cruising sailboat in as  
little as seven days—even if you've never sailed before! Who says  
you have to be an experienced daysailor before you can think  
about cruising? Steve and Doris Colgate know that most of us

don't have that kind of time. At the Offshore Sailing School, the Colgates have helped more than 100,000 adults—three-quarters of whom started as beginning sailors or complete newcomers--take the helm of a midsize cruising sailboat. Now Fast Track to Cruising offers these proven instructional methods to all aspiring sailors with big dreams and little time. This is the very first guide that teaches sailing and cruising together, taking you from your first sail to independent cruising in one leap. You can make that leap in as little as seven days—as in the Colgates' "Fast Track to Cruising" course—or you can get there at a more leisurely pace. Either way, no other book will take you from your first tacking or docking maneuver to a mastery of navigation and diesel engines as efficiently as this one. America's most experienced sailing instructors present a thorough and easy to understand look at cruising. Leisure time is precious. Safety is paramount. The Colgates will help you maximize your time on the water.--Gary Jobson, ESPN's lead sailing analyst and editor at large for Cruising World and Sailing World "Doris and Steve Colgate understand that people want to reach their sailing goals as quickly as possible and they've built the excellent Fast Track program to accomplish it."--Bernadette Bernon, former editorial director of Cruising World magazine Together Steve and Doris Colgate have been teaching beginners to sail for over half a century. In Fast Track to Cruising they have included every concept and procedure you need to get yourself from a want-to-be sailor to one who is knowledgeable and competent to take the helm--with confidence and a smile.--Charles Mason, Executive Editor, SAIL magazine

*Boater' Guide ,*

*Tricks of the Trades* Bruce Van Sant, 2002-10 Bruce van Sant provides an account of his decades of experience sailing and trawling through the islands of the trade winds to South America, and shares information he has gleaned on health, thieves, con artists, corrupt officials, equipment, brokers,

outfitters, navigation, security, weather, finding a boat, and other topics.

Saving Sailing Nicholas D. Hayes, 2009-10 Saving Sailing makes an eloquent case for the revival of family sailing -- and similar uses of free time for lifelong pastimes that enrich our lives. The issue: participation in sailing is declining in America, down more than 40% since 1997 and 70% since 1979. In this wide-ranging book, researcher and avid sailor Nicholas Hayes explains why. The book shows how pressures on free time have increased, and how, in response, many Americans have turned to less rewarding forms of passive or overly structured activities and away from lifelong, family-based, multi-generational recreation. Saving Sailing builds a case for choosing how to spend free time better, seeking quality experiences with families and friends through lifelong pastimes like sailing. The main challenge, he suggests, is to develop an active system of mentoring, especially between generations. The lessons are broader than sailing, with useful ideas for all parents, for anyone seeking to strengthen the social fabric of American communities, and for those involved in programming for youth and adult activities. Author Nick Hayes is a market researcher and partner at the consulting firm FiveTwelve Group, and is active in the Milwaukee sailing scene. He has studied sailing, sailors, and sailing clubs for years, and interviewed more than 1,200 sailors worldwide since 2003 for this book. He lives in Milwaukee, Wisconsin.

Twenty Small Sailboats to Take You Anywhere John Vigor, 1999-08 John Vigor turns the spotlight on twenty seaworthy sailboats that are at home on the ocean in all weather. These are old fiberglass boats, mostly of traditional design and strong construction. All are small, from 20 feet to 32 feet overall, but all have crossed oceans, and all are cheap. Choosing the right boat to take you across an ocean or around the world can be confusing and exasperating, particularly with a tight budget. Vigor sets out to remedy that in this book. He compares the designs and

handling characteristics of 20 different boats whose secondhand market prices start at about \$3,000. Interviews with experienced owners (featuring valuable tips about handling each boat in heavy weather) are interspersed with line drawings of hulls, sail plans, and accommodations. Vigor has unearthed the known weaknesses of each boat and explains how to deal with them. He rates their comparative seaworthiness, their speed, and the number of people they can carry in comfort. If you have ever dreamed the dream this book can help you turn it into reality.

Beyond Mexico Jean Daudelin, Edgar J. Dosman, 1995 As a result of the North American Free Trade Agreement Canada's relations with Mexico and Latin America have reached a turning point both politically and economically. *Beyond Mexico* is a timely assessment of the dynamic state and the prospects of Canada's relations with Latin America. Every day, trade developments under nafta are redefining political, economic and social connections between Canada, Mexico and the United States. In this well-documented, policy-relevant and eminently accessible study, specialists address the challenges raised by non-governmental organizations, security and human rights issues, inter-municipal exchange programs, Canada's membership in the Organization of American States, and by successive crises in Haiti. This collection looks beyond NAFTA to explore the range and realities of Canada's involvement in the entire hemisphere.
