Elise Allen

Policing Democracy Mark Ungar, 2020-03-03 2011 Winner of the Charles H. Levine Memorial Book Prize of the International Political Science Association Latin America's crime rates are astonishing by any standard—the region's homicide rate is the world's highest. This crisis continually traps governments between the need for comprehensive reform and the public demand for immediate action, usually meaning iron-fisted police tactics harking back to the repressive pre-1980s dictatorships. In *Policing Democracy*, Mark Ungar situates Latin America at a crossroads between its longstanding form of reactive policing and a problem-oriented approach based on prevention and citizen participation. Drawing on extensive case studies from Argentina, Bolivia, and Honduras, he reviews the full spectrum of areas needing reform: criminal law, policing, investigation, trial practices, and incarceration. Finally, *Policing Democracy* probes democratic politics, power relations, and regional disparities of security and reform to establish a framework for understanding the crisis and moving beyond it.

Populazzi Elise Allen, 2011 Cara has to climb The Ladder of guys to become the most popular girl in school, in a hilarious, heartbreaking, and hopeful coming-of-age story by the co-writer of Hilary Duff's first novel for teens, *Elixir*.

Digital Transformation in Business and Society Babu George, Justin Paul, 2019-10-04 The digital traces that people leave behind as they conduct their daily lives provide a powerful resource for businesses to better understand the dynamics of an otherwise chaotic society. Digital technologies have become omnipresent in our lives and we still do not fully know how to make the best use of the data these technologies could harness. Businesses leveraging big data appropriately could definitely gain a sustainable competitive advantage. With a balanced mix of texts and cases, this book discusses a variety of digital technologies and how they transform people and organizations. It offers a debate on the societal consequences of the yet unfolding technological revolution and proposes alternatives for harnessing disruptive technologies for the greater benefit of all. This book will have wide appeal to academics in technology management, strategy, marketing, and human resource management.

Agile Management Ángel Medinilla, 2012-10-09 If you have tried to implement Agile in your organization, you have probably learned a lot about development practices, teamwork, processes and tools, but too little about how to manage such an organization. Yet managerial support is often the biggest impediment to successfully adopting Agile, and limiting your Agile efforts to those of the development teams while doing the same old-style management will dramatically limit the ability of your organization to reach the next Agile level. Ángel Medinilla will provide you with a comprehensive understanding of what Agile means to an organization and the manager's role in such an environment, i.e., how to manage, lead and motivate self-organizing teams and how to create an Agile corporate culture. Based on his background as a "veteran" Agile consultant for companies of all sizes, he delivers insights and experiences, points out possible pitfalls, presents practical approaches and possible scenarios, also including detailed suggestions for further reading. If you are a manager, team leader, evangelist, change agent (or whatever nice title) and if you want to push Agile further in your organization, then this is your book. You

will read how to change the paradigm of what management is about: it is not about arbitrary decisions, constant supervision and progress control, and the negotiation of changing requirements. It is about motivation, self-organization, responsibility, and the exploitation of all project stakeholders' knowledge. We live in a different world than the one that most management experts of the 20th century describe, and companies that strive for success and excellence will need a new kind of manager – Agile managers.

The Disneyland Encyclopedia Chris Strodder, 2017-04-11 Completely updated and expanded with over 50 new entries and 300 new photos, The Disneyland Encyclopedia spans the entire history of the park, from its founding more than 50 years ago to the present day. This fascinating book features detailed explorations of 600 Disneyland topics, including lands, attractions, restaurants, stores, events, and significant people. Each of the main encyclopedia entries illuminates the history of a Disneyland landmark, revealing the initial planning strategies for the park's iconic attractions and detailing how they evolved over the decades. Enriching this unique A-to-Z chronicle are profiles of the personalities who imagined and engineered the kingdom known as "The Happiest Place on Earth." Discover unbuilt concepts, including Liberty Street, Rock Candy Mountain, and Chinatown, and delight in fascinating trivia about long-lost Disneyland features, from the real rifles in the shooting gallery that was once located on Main Street to the jet-packed Rocket Man who flew above Tomorrowland. The new "Mouscellany feature adds fun facts, hidden secrets, and odd trivia to the third edition. Overflowing with meticulously researched details and written in a spirited, accessible style, The Disneyland Encyclopedia is a comprehensive and entertaining exploration of the most-influential, most-renovated, and most-loved theme park in the world!

Tuttle Concise Japanese Dictionary Samuel E. Martin, 2013-02-05 Every serious student of Japanese needs a reliable and user-friendly dictionary in their collection. Tuttle Concise Japanese Dictionary, now with 30% more content, is a completely updated dictionary designed for students and business people who are living in Japan and using the Japanese language on a daily basis. Its greatest advantage is that it contains recent idiomatic expressions which have become popular in the past several years and which are not found in other competing dictionaries. The dictionary has been fully updated with the addition of recent vocabulary relating to computers, mobile phones, social media and the Internet. Other special features that set this dictionary apart include: Over 25,000 words and expressions including idioms and slang. User-friendly layout with main entries in color. Complete Japanese-English and English-Japanese sections. Romanized forms and the Japanese script are given for all Japanese words. A guide to pronunciation helps the user to pronounce Japanese words correctly. Different senses of each word are distinguished by multiple definitions.

The Artist–Enterprise in the Digital Age Xavier Greffe, 2016-06-29 This book is a monograph of cultural economics of a new concept, artist–enterprises. It explores various dimensions that artists embody, i.e., aesthetic, critical, messianic, and economic ones, and screens the multiple challenges faced by the artist–enterprises in terms of pricing, funding, and networking in the Digital Age. It shows how these artist–enterprises are at the

core of the contemporary creative industries. Even when they are on their own, artists have to demonstrate or manage a variety of skills, sign contracts both in the early and later stages of their activities, and also maintain relationships and networks that enable them to attain their artistic and economic goals. They are no longer simply entrepreneurs managing their own skills but are the enterprises themselves. The artist–enterprises thus find themselves at the confluence of two dynamics of production–artistic and economic: artistic because they invent new expressions and meanings; and economic because these expressions must be supported by monetary values on the market. The artistic dynamic is part of a long process of artistic enhancement and only an artist can say whether it has reached the point of presentation or equilibrium. The economic dynamic is dependent on the constant endorsement of artists' works by the market to ensure their survival as artist–enterprises. The tension created by this disparity is further aggravated by another tension: the need to overcome a number of risks so that artist–enterprises can progress. This book will be of special interest to artists, managers, students, professionals, and researchers in the fields of the arts, creativity, economics, and development. The author is Emeritus Professor at the University Paris I Panthéon-Sorbonne.

Words You Should Know How to Spell David Hatcher, Jane Mallison, 2010-07-18 Ceilling. Beleive. Scissers. Do you have trouble spelling everyday words? Is your spell check on overdrive? Well, this easy-to-use dictionary is just what you need! Organized with speed and convenience in mind, it gives you instant access to the correct spellings of more than 12,500 words. Also provided are quick tips and memory tricks, like: Help yourself get the spelling of their right by thinking of the phrase ?their heirlooms.? Most words ending in a ?seed? sound are spelled ?-cede? or ?-ceed,? but one word ends in ?-sede.? You could say the rule for spelling this word supersedes the other rules. No matter what you're working on, you can be confident that your good writing won't be marred by bad spelling. This book takes away the guesswork and helps you make a good impression!

Autumn Falls Bella Thorne, Elise Allen, 2014 Following her adored father's death, a teenager named Autumn Falls is forced to relocate to a new school in Florida for sophomore year. And when Autumn receives an enchanted gift: a journal that literally brings Autumn's writing to life--anything could happen. Could the journal be imbued with her dad's spirit?--

Ezra and Dorothy Pound Ezra Pound, Dorothy Pound, 1999 More than 150 previously unpublished letters of poet Ezra Pound and his wife, Dorothy, are combined with military and FBI documents, previously unknown photographs, and an extensive Introduction to create the definitive work on Pound's postwar incarceration, his indictment for treason, and the writing of his greatest literary work, the *Pisan Cantos*.

Women Going Public Lien Foubert, 2012-12-28 The Julio-Claudian period (c. 27 BC to 68 AD) was a time of great tension, witnessing profound challenges to Roman political and social life. One manifestation of this was the increasingly important role played by women in the power struggles that gripped the Empire during the reign of Augustus and his four successors. This study discusses the portrayal of women from imperial families, who developed high public profiles to help to guarantee their family's continuity and create a public image of the

princeps and his reign.

Manga for the Beginner Kawaii Christopher Hart,2012-08-07 Got manga? Christopher Hart's got manga, and he wants to share it with all his millions of readers—especially the beginners. With Manga for the Beginner, anyone who can hold a pencil can start drawing great manga characters right away. Using his signature step-by-step style, Hart shows how to draw the basic manga head and body, eyes, bodies, fashion, and more. Then he goes way beyond most beginner titles, exploring dynamic action poses, special effects, light and shading, perspective, popular manga types such as animals, anthros, and shoujo and shounen characters. By the end of this big book, the new artist is ready to draw dramatic story sequences full of movement and life.

Japanese in Thirty Hours Eiichi 1902- Kiyooka,2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Advances in Biotechnology Indu Ravi,Mamta Baunthiyal,Jyoti Saxena,2013-10-21 The book “Advances in Biotechnology” is about recent advances in some of the important fields that are ongoing in certain biotechnological applications. Biotechnology has been quite helpful in keeping pace with the demands of every increasing human population and in improving the quality of human life. Major biotechnological achievements associated with human welfare have been from the fields like genetic engineering; transgenic plants and animals; genomics, proteomics, monoclonal antibodies for the diagnosis of disease, gene therapy etc. Fourteen authoritative chapters written by experts having experience in academics and research on current developments and future trends in biotechnology have been empathized. The book provides a detailed account of various methodologies used in biotechnology i.e. High capacity vectors, DNA sequencing dealing with next generation sequencing, Molecular markers, DNA microarray technology, as well as Proteomics that have revolutionized biotechnology with a wide array of applications. The book not only presents a well-founded explanation of the topics but also aims to present up-to-date reviews of current research efforts, some thoughtful discussions on the potential benefits and risks involved in producing biotechnological products and the challenges of bringing such products to market. It will prove to be an excellent reference work for both academicians and researchers, indicating new starting points to young researchers for new projects in the field. The book is intended for biotechnologist, biologist, researchers, teachers and students of Biosciences and Biotechnology.

Brand Mascots Stephen Brown,Sharon Ponsonby-McCabe,2014-06-27 Tony the Tiger. The Pillsbury Doughboy. The

Michelin Man. The Playboy bunny. The list of brand mascots, spokes-characters, totems and logos goes on and on and on. Mascots are one of the most widespread modes of marketing communication and one of the longest established. Yet, despite their ubiquity and utility, brand mascots seem to be held in comparatively low esteem by the corporate cognoscenti. This collection, the first of its kind, raises brand mascots' standing, both in an academic sense and from a managerial perspective. Featuring case studies and empirical analyses from around the world – here Hello Kitty, there Aleksandr Orlov, beyond that Angry Birds – the book presents the latest thinking on beast-based brands, broadly defined. Entirely qualitative in content, it represents a readable, reliable resource for marketing academics, marketing managers, marketing students and the consumer research community. It should also prove of interest to scholars in adjacent fields, such as cultural studies, media studies, organisation studies, anthropology, sociology, ethology and zoology.

A Maid and a Million Men James Gerald Dunton, 1928 Leona changes places with her twin brother so that he could get away from camp to visit his fiancée. Unexpected sailing orders however send Leona to the trenches of France.

Wizard! Stephen Brown, 2005 Harry Potter may not be the biggest brand in the world, or the most venerable, but his story is one of the most dramatic. This book tells the story of the Harry Potter brand and how it has taken the entertainment world by storm. Joanne K Rowling and her fabulous money-spinning creation is a contemporary fairytale, a 21st century version of the classic cornucopian chronicle. An impoverished single parent pens an accidental bestseller, which grows exponentially. The book begets more books, which beget movies and merchandise and huge media coverage. Today, Harry Potter is as much a brand as Tom Cruise, Starbucks or even Heinz. This book provides a fascinating insight into how Harry Potter became one of the world's most recognised brands in an extraordinarily short period of time.

Teaching Basic, Advanced, and Academic Vocabulary Robert J. Marzano, 2020 To guarantee students have a working knowledge of appropriate vocabulary before entering secondary school, educators need to establish an effective vocabulary program in their schools and classrooms. In *Teaching Basic, Advanced, and Academic Vocabulary: A Comprehensive Framework for Elementary Instruction*, author Robert J. Marzano provides elementary educators with a comprehensive framework for vocabulary instruction. Marzano defines three different tiers of vocabulary terms: (1) Tier 1 terms are those words that are frequently used in the English language, (2) Tier 2 terms appear less frequently, and (3) Tier 3 terms are specific to grade level and subject area. By organizing these terms into semantic clusters and subject areas, Marzano creates a powerful and unique approach to ensuring students build their vocabulary. By reading this book, K-5 teachers will obtain the tools and strategies needed to construct a solid foundation for literacy development in their classrooms--

Mistress Anne Temple Bailey, 2023-07-26 *Mistress Anne*, a classical book, has been considered important throughout the human history, and so that this work is never forgotten we at Alpha Editions have made efforts in its preservation by republishing this book in a modern format for present and future generations. This whole book has been reformatted, retyped and designed. These books are not made of scanned copies of their original work and

hence the text is clear and readable.
