Drag Racing's Exhibition Attractions Lou Hart, Cory Lee, 2008-05-15 This book showcases photographically the wide variety of cars and drivers that fit into the exhibition theme: the jets, wheelstanders, rockets and other exhibition vehicles which have thrilled millions of spectators. Their entire basis was who had the fastest vehicle. But in 1959 complaints from other competitors and Detroit automakers got all aircraft-powered dragsters banned, so they became the sideshow attached to the legitimate circus that is drag racing. The Green Monster became the first exhibition car exceeding 200 mph everywhere it ran. Wanting even more, Walt Arfons debuted the first jet-powered dragster which became the desire of every fan and promoter throughout the country. At virtually the same instant, Tom Ivo had Kent Fuller build a four-engine dragster and although it was too heavy to be competitive, the tire-smoke show became arguably the most famous exhibition car in history. See Bill "Maverick" Golden and the Little Red Wagon, "Wild Bill" Shrewsberry's and the Hurst Hemi Under Glass, LA Dart and Knott's Berry Wagon, Chuck Poole and his Chuckwagon, Doug Rose and The Green Mamba, plus many more.

The Art of Drag Racing John Jodauga, Melissa Pasillas, 2011-11-01 During the 1970s and 1980s, John Jodauga was perhaps drag racing's most published illustrator. Not only did his work appear in the National DRAGSTER, Hot Rod, Car Craft, Motor Trend, Drag Racing, and Super Stock & Drag Illustrated, but he also did promotional art for the sport's biggest stars such as Bill Jenkins, Don Prudhomme, Raymond Beadle, Bob Glidden, Don Nicholson and others; commercial artwork for many aftermarket manufacturers such as Moroso Performance Products; and program covers for such major racetracks as Ontario Motor Speedway. During this same period, he performed the bulk of the marketing artwork for the National Hot Rod Association, ranging from posters and program covers to holiday cards. This book is the first official compilation of Jodauga's work performed over a period of 45 years, and contains over 60 full-page, full-color reproductions of his illustrations and paintings that include examples of his most recent efforts. Drag Racing in the 1960s Doug Boyce,2021-03-15 The 1960s were a fascinating decade on the race scene. Relive the memories today through this wonderful new book. Drag racing has a long and storied history. Many have said that the first drag race happened shortly after the second car was made. While that may or may not be true, racing prior to World War II was mostly centered around dry-lake activities and top-speed runs. After the war, drag racing became organized with the formation of the NHRA, and during the 1950s, many tracks were built across America to accommodate the racers. Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead-valve designs, and the horsepower race really started to heat up. In many forms of racing, the 1960s brought technological evolution. The decade began with big engines in even bigger stock chassis and ended with purpose-built race-only chassis, fiberglass bodies, fuel injection, nitro methane, and blowers. Quarter-mile times that were in the 13-second range in the beginning of the decade were in the 7-second range by the end. New classes were formed, dedicated cars were built for them, and many racers themselves became recognized names in the sports landscape. In *Drag Racing in the 60s: The Evolution in Race Car Technology*, veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a results-based one. Covered are all the classes, including Super Stocks, Altered Wheelbase cars (which led to Funny Cars), Top Fuelers, Gassers, and more.

Drag Race Fever Grady Bryant,2012-10-01 Legendary drag racer and fiction writer Grady Bryant has released his latest book, *Drag Race Fever*. It was only a matter of time before Grady shared his adventures of the early days of drag racing in a story that all sports and drag racers will enjoy. The story involves a young man getting started in drag racing in the early 1960's when the factory experimental race cars were the top calling cards of all drag race promoters. These cars were the first Funny Cars of today. Read how these racers evolved into the cars we see today and learn how driver Johnny Rock and his mechanic Clutch Roberts toured the states pulling their race car to the next match race, continuously sacrificing so their car would have the parts to race again. Although the story is fiction any drag race fan can fit different names to the drivers and relate to all the accounts of living on the road and racing every Saturday and Sunday at different tracks across the nation.

Drag Racing Collectibles Cory Lee, 2011 The late 1940s and early 1950s were a great time for car clubs and various timing associations throughout the United States. The earliest keepsakes by hot rodders were member pins, car club plaques, t-shirts, jackets, decals, photographs and the rare event poster and program. The fanatics' demand for more collectible items grew as quickly as the sport of drag racing, clinging to countless amounts of memorabilia branded by their favorite driver, car or race event. This photo book displays hundreds of examples of original drag racing collectible memorabilia from the 1950s though current times. From a single keepsake to the super collections that include tens of thousands of items, the author has hand picked each item to represent the diverse range of drag racing collectibles and souvenirs--everything from die cast cars, T-shirts and jackets, damaged and crashed car parts, trading cards, posters, toys, pins and badges, decals and stickers, fire suits and helmets, team hand out cards, events programs, and so much more.

Vintage and Historic Drag Racers Robert Genat, Diggers, funny cars and more of the best vintage drag racers of the late 1950s and 1960s! Fuel and Guts Tom Madigan, 2007-08-15 This is the story of how Top Fuel drag racing started, told by those who lived it. An insider from the beginning, author Tom Madigan draws on interviews with builders and racers like Mickey Thompson, Tony Nancy, Tommy Ivo, and Tom McEwen, to name just a few. Their words, and those of others such as engine builder Ed Pink and chassis builder Kent Fuller, give readers a real sense of a lost, and truly thrilling, world. This is Top Fuel drag racing of California in the 50s and 60s, and these are the racers who made its name. Fuel and Guts recreates a time of passion and pure adrenaline--a time before accountants and corporations saw a winner in drag racing. In sidebars, drivers like Don Garlits and Shirley Muldowney tell what it was like to leave home and try to make it on the Californians home turf. You weren't really a winner until you beat the guys who started it all. And in this book, readers meet these winners and feel once more an excitement now gone forever.

Collecting Drag Racing Model Kits Tom Boyd, 2020-08-15 Relive the golden age of drag racing through this exhaustive volume covering the best drag racing model kits of the era. Model expert Tim Boyd, author of Collecting Muscle Car Model Kits, turned his attention to the fantastic drag racing model kits available from the late 1950s through today. Some racing model kits were actually 3-in-1 kits, where the builder assembled the drag-race version of the car in lieu of the street or custom version. Boyd starts by covering the

options, collectability, variety, availability, and value of these wonderful kits, and then concentrates on the highly detailed drag racing-only kits that became available starting in the mid-1960s through today. He also shows the differences between original kits, older reproduction kits, and new reproduction kits that many enthusiasts find at swap meets and online sources today. Many of these great kits were from the 1960s, an era when building model kits was a widely popular, serious hobby, similar to video games today. Not only was it fun to build the kits but it was also a great way to learn about all the different race classes and categories because there wasn't regular TV or online coverage during that era. The artwork on those kits was fantastic, and many collectors today seek original kits largely because of it. The classes of racing covered are Gassers, Rail Dragsters, Stocks and Super Stocks, Funny Cars, Pro Stocks, Exhibition Racers, and more. Drag racing cars designed by model companies that never actually existed are also covered. Nostalgia drags are some of the most popular events around the country today. People can't get enough of these old race cars that were built in an era when variety, innovation and home building ruled the day. This book is great for modelers in general, model-kit collectors, and drag-racing fans young and old alike.

Drag Racing 201 - Racing in the New Economy Ike Heckler Jr, 2011-11-25 Following the success of his first book, *Drag Racing 101*, where IH Racing's Team Owner Ike Heckler Jr. explains how to build your first race car and secure sponsorship, Ike now brings you *Drag Racing 201 - Racing in the New Economy*. After racing at NHRA tracks in the northeast and southeast for the past 10 years in a booming economy where securing sponsorships was relatively easy, Ike takes you on an exciting journey through 2010 and explains what it is like to uproot your personal life in order to pursue the goal of semi-pro drag racing. With over 52 career round wins and national media exposure from SPEED TV's Pinks All Out, NHRA's National Dragster, and NMCA's Fastest Street Car magazine, Ike has secured corporate sponsorships from Lucas Oil, VP Racing Fuels, WIX Filters, O'Reilly Auto Parts, ReMax Realty, Holiday Inn Hotels & Resorts, CARQUEST Auto Parts, and Ken's Speed & Machine. IH Racing's primary sponsor, Premier Properties of the Space Coast, is owned by Mr. Heckler and develops residential and commercial properties in southeast Florida. In *Drag Racing 201* Ike explains how to use your own company together with your other sponsors to be able to fund a full race season and be able to travel the hundreds of miles from racetrack to racetrack economically. From getting into the Final 32 at the Pinks All Out event in West Palm, FL to making the WIX All Out 16 at the Pinks All Out event at zMax Dragway in Charlotte, Ike brings you along to all the other races and other fun events he was able to attend in 2010 with the help of good friends and sponsors. You will also ride along as he moves from Florida to North Carolina, then back to Florida just so he could honor his commitment to all his sponsors and race the season. He will also show you how the degrading economy affected his racing operation in 2010 and how he had to adjust and sacrifice his personal life to be able to race and survive. *Drag Racing 201* then looks into the future of the sport and projects how it may look a few years from now and gives the reader some valuable tips on how to afford racing a full season and how the racer may have to live differently in order to race and live their dream. Ike also gives the reader some valuable sponsorship tips along the way that will help with sponsor exposure and could make securing sponsorships a little easier. This 80 page full color book has over 75 pictures highlighting the West Palm FL, Charlotte NC, and the Bristol TN Pinks All Out events (and getting on SPEED TV), the Atlanta, NHRA Unleashed event, and what it feels like to work for an NHRA national event.
