Drag Racing 201 - Racing in the New Economy Ike Heckler Jr,2011-11-25 Following the success of his first book, Drag Racing 101, where IH Racing's Team Owner Ike Heckler Jr. explains how to build your first race car and secure sponsorship, Ike now brings you Drag Racing 201 - Racing in the New Economy. After racing at NHRA tracks in the northeast and southeast for the past 10 years in a booming economy where securing sponsorships was relatively easy, Ike takes you on an exciting journey through 2010 and explains what it is like to uproot your personal life in order to pursue the goal of semi-pro drag racing. With over 52 career round wins and national media exposure from SPEED TV's Pinks All Out, NHRA's National Dragster, and NMCA's Fastest Street Car magazine, Ike has secured corporate sponsorships from Lucas Oil, VP Racing Fuels, WIX Filters, O'Reilly Auto Parts, ReMax Realty, Holiday Inn Hotels & Resorts, CARQUEST Auto Parts, and Ken's Speed & Machine. IH Racing's primary sponsor, Premier Properties of the Space Coast, is owned by Mr. Heckler and develops residential and commercial properties in southeast Florida. In Drag Racing 201 Ike explains how to use your own company together with your other sponsors to be able to fund a full race season and be able to travel the hundreds of miles from racetrack to racetrack economically. From getting into the Final 32 at the Pinks All Out event in West Palm, FL to making the WIX All Out 16 at the Pinks All Out event at zMax Dragway in Charlotte, Ike brings you along to all the other races and other fun events he was able to attend in 2010 with the help of good friends and sponsors. You will also ride along as he moves from Florida to North Carolina, then back to Florida just so he could honor his commitment to all his sponsors and race the season. He will also show you how the degrading economy affected his racing operation in 2010 and how he had to adjust and sacrifice his personal life to be able to race and survive. Drag Racing 201 then looks into the future of the sport and projects how it may look a few years from now and gives the reader some valuable tips on how to afford racing a full season and how the racer may have to live differently in order to race and live their dream. Ike also gives the reader some valuable sponsorship tips along the way that will help with sponsor exposure and could make securing sponsorships a little easier. This 80 page full color book has over 75 pictures highlighting the West Palm FL, Charlotte NC, and the Bristol TN Pinks All Out events (and getting on SPEED TV), the Atlanta, NHRA Unleashed event, and what it feels like to work for an NHRA national event. If your goal is to drag race in the New Economy, this book is a must read that will save you money and increase your sponsor exposure !!

Drag Racing in the 1960s Doug Boyce,2021-03-15 The 1960s were a fascinating decade on the race scene. Relive the memories today through this wonderful new book. Drag racing has a long and storied history. Many have said that the first drag race happened shortly after the second car was made. While that may or may not be true, racing prior to World War II was mostly centered around dry-lake activities and top-speed runs. After the war, drag racing became organized with the formation of the NHRA, and during the 1950s, many tracks were built across America to accommodate the racers. Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead-valve designs, and the horsepower race really started to heat up. In many forms of racing, the 1960s brought technological evolution. The decade began with big engines in even bigger stock chassis and ended with purpose-built race-only chassis, fiberglass bodies, fuel injection, nitro methane, and blowers. Quarter-mile times that were in the 13-second range in the beginning of the decade were in the 7-second range by the end. New classes were formed, dedicated cars were built for them, and many racers themselves became recognized names in the sports landscape. In Drag Racing in the 60s: The Evolution in Race Car Technology, veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a results-based one. Covered are all the classes, including Super Stocks, Altered Wheelbase cars (which led to Funny Cars), Top Fuelers, Gassers, and more.

Drag Racers Jeffrey Zuehlke,2007-09-01 Drag racing is all about pure speed. Inside and out, top fuel dragsters, funny cars, and other drag racers are built to burn off the starting line and sail across the finish line. Races take just a few seconds, but they're packed with excitement, danger, and intense competition. Even the smallest mistake can be the difference between winning and losing. In this book you will learn how the sport got its start on a lonely stretch of road near Santa Barbara, California. You'll also learn about the major classes of drag racers, how they got their start, and the drivers who push them to their limits.

Match Race Mayhem Doug Boyce,2017-06-15 Drag racing is a very regulated sport. In the history of the NHRA, IHRA, and other sanctioning bodies, many classes existed in an effort to make sure the cars racing against each other are as equal as possible. It is a noble, if not futile, pursuit. You have two cars facing off that have very similar statistics in terms of weight, transmission type, fuel type, estimated horsepower, and all other sorts of measurables. The byproduct is that often the races that were fair were not the races that the fans wanted to see. During the golden age of drag racing, fans didn't care as much about class racing as much as they wanted to see scores settled, rivalries battled, and interesting match-ups. There were the manufacturer rivalries, Ford versus Chevy, Chevy versus Mopar, Mopar versus Ford, as well as numerous driver rivalries. Match races were also a great way to feature wildly popular cars that no longer had a class in which to compete, yet the fans still wanted to see them. So popular and intense were these races that many track promoters didn't bother to promote class racing at all. Instead, they used the match races as headliners, similar to the marquee at your local arena or a billboard in Las Vegas, all resulting in putting more fans in the stands. And the drivers loved it too. Although the prize money for national events was fairly average for the day, the extra appearance fees and prize money to lure the most popular match racers to events increased the driver's take exponentially. Many of the most popular pro drivers quit class racing altogether just to go match racing. Veteran drag race author Doug Boyce tells the tale of the history of match racing through the cars, the drivers, the events, the classes, the rivalries, and everything else that was fun about match racing during the golden era. It's all here, complemented by wonderful vintage photography provided by fans and professionals in attendance. If you are a fan of any class of drag racing, from any era, Match Race Mayhem is a fun addition to your racing library. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font:

Drag Race Fever Grady Bryant,2012-10-01 Legendary drag racer and fiction writer Grady Bryant has released his latest book, *Drag Race Fever*. It was only a matter of time before Grady shared his adventures of the early days of drag racing in a story that all sports and drag racers will enjoy. The story involves a young man getting started in drag racing in the early 1960's when the factory experimental race cars were the top calling cards of all drag race promoters. These cars were the first Funny Cars of today. Read how these racers evolved into the cars we see today and learn how driver Johnny Rock and his mechanic Clutch Roberts toured the states pulling their race car to the next match race, continuously sacrificing so their car would have the parts to race again. Although the story is fiction any drag race fan can fit different names to the drivers and relate to all the accounts of living on the road and racing every Saturday and Sunday at different tracks across the nation.

Drag Racing Funny Cars ,1975 Brief text and color photographs introduce some of the different kinds of modified cars used in drag racing.

Drag Racing's Exhibition Attractions Lou Hart,Cory Lee,2008-05-15 This book showcases photographically the wide variety of cars and drivers that fit into the exhibition theme: the jets, wheelstanders, rockets and other exhibition vehicles which have thrilled millions of spectators. Their entire basis was who had the fastest vehicle. But in 1959 complaints from other competitors and Detroit automakers got all aircraft-powered dragsters banned, so they became the sideshow attached to the legitimate circus that is drag racing. The Green Monster became the first exhibition car exceeding 200 mph everywhere it ran. Wanting even more, Walt Arfons debuted the first jet-powered dragster which became the desire of every fan and promoter throughout the country. At virtually the same instant, Tom Ivo had Kent Fuller build a four-engine dragster and although it was too heavy to be competitive, the tire-smoke show became arguably the most famous exhibition car in history. See Bill “Maverick” Golden and the Little Red Wagon, “Wild Bill” Shrewsberry’s and the Hurst Hemi Under Glass, LA Dart and Knott’s Berry Wagon, Chuck Poole and his Chuckwagon, Doug Rose and The Green Mamba, plus many more.

High Performance Robert C. Post,1994 What emerges is a compelling look at the men and women who have devoted their lives to this extraordinary pursuit and a sensitive exploration of their motivations.

Drag Racing Jerolyn Ann Nentl,1978 Introduces drag racing, a relatively new form of automobile racing in which cars engage in a contest of acceleration.

Total Performers Charles R. Morris,2005 The 1960s was arguably the most important decade for drag racing. It had exciting cars, thrilling races, and most importantly, factory participation. Among the best high-performance cars and engines were those coming from Dearborn, Michigan. Ford Motor Company's Total Performance Years saw a breakthrough as drag racing helped the younger, performance- and style-conscious consumer to begin receiving some recognition. Factory participation in drag racing pushed the envelope for high performance developments. Ford's FE-series engine, Police Interceptor, GT 390, Single Overhead Cam, Cobra Jet, and Boss 429 are all covered in detail. See the cars and the drivers that made them famous - Dick Brannan's Goldfinger, Bill Lawton's Mystery Mustang, Dyno Don Nicholson's Eliminator Comet, Gas Ronda's stretched Mustang, Al Joenic's Batcar, and more. Accomplished journalist and life-long Ford aficionado Charles Morris takes you back to the Total Performance Years through first-hand accounts as well as over 400 rare photographs. A drag racer since 1966, Morris has run cars in both Stock and Super Stock classes. He is currently the owner of the original Norristown Ford 1963 lightweight Galaxie and races the car in Nostalgia Super Stock as part of the 422 Motorsports Drag Racing Team. This book is a must read for all drag racing fans, not just Ford enthusiasts.

Drag Racing Collectibles Cory Lee,2011 The late 1940s and early 1950s were a great time for car clubs and various timing associations throughout the United States. The earliest keepsakes by hot rodders were member pins, car club plaques, t-shirts, jackets, decals, photographs and the rare event poster and program. The fanatics' demand for more collectible items grew as quickly as the sport of drag racing, clinging to countless amounts of memorabilia branded by their favorite driver, car or race event. This photo book displays hundreds of examples of original drag racing collectible memorabilia from the 1950s though current times. From a single keepsake to the super collections that include tens of thousands of items, the author has hand picked each item to represent the diverse range of drag racing collectibles and souvenirs--everything from die cast cars, T-shirts and jackets, damaged and crashed car parts, trading cards, posters, toys, pins and badges, decals and stickers, fire suits and helmets, team hand out cards, events programs, and so much more.

Arnie "The Farmer" Beswick Dean Fiat,2021-02-15 Arnie “the Farmer” Beswick was called “the consummate underdog” by Hot Rod magazine. While there was good reason, there is much more to his unbelievable career. Born a third-generation farmer in the small town of Morrison, Illinois, Arnie Beswick’s driving career began not behind the wheel of a straight-line terror but that of a tractor. On local dusty roads, Arnie’s budding reputation grew with street cars, as the “flying farmer” was coined to describe his driving style. When drag racing began in the Midwest in the early 1950s, Arnie was one of the pioneers who campaigned Dodges and Oldsmobiles. In 1960, he purchased his first Pontiac and never looked back. At the beginning, he didn’t like the “farmer” nickname, but he quickly learned to utilize the name to lull his competition into complacency. After all, what could a simple farmer know of the world of high-performance drag racing? Throughout the 1960s, Arnie’s Mr. B's Passionate Poncho, Mystery Tornado, Star of the Circuit I and II, Tameless Tiger, and Super Judge all contributed to dispel the myth that a simple farmer couldn’t dominate straight-line racing. Arnie was an innovator, fierce competitor, entertainer and showman who always gave fans their money’s worth at the track. He is still brand loyal--sticking with Pontiac long after production models ceased. Arnie has always been a fan favorite for this reason, and he continues to exhilarate fans at the track with his cast of potent Pontiacs.

European Pack for Visiting Auschwitz-Birkenau Memorial and Museum Alicja Bialecka,2010-01-01 Taking groups of students To The Auschwitz-Birkenau Memorial and Museum is a heavy responsibility, but it is a major contribution to citizenship if it fosters understanding of what Auschwitz stands for, particularly when the last survivors are at the end of their lives. it comes with certain risks, however. This pack is designed for teachers wishing to organise student visits to authentic places of remembrance, and For The guides, academics and others who work every day with young people at Auschwitz. There is nothing magical about visiting an authentic place of remembrance, and it calls for a carefully thought-out approach. To avoid the risk of inappropriate reactions or the failure to benefit from a large investment in travel and accommodation, considerable preparation and discussion is necessary before the visit and serious reflection afterwards. Teachers must prepare students for a form of learning they may never have met before. This pack offers insights into the complexities of human behaviour so that students can have a better understanding of what it means to be a citizen. How are they concerned by what happened at Auschwitz? is the unprecedented process of exclusion that was practised in the Holocaust still going on in Europe today? in what sense is it different from present-day racism and anti-Semitism? the young people who visit Auschwitz in the next few years will be witnesses of the last witnesses, links in the chain of memory. Their generation will be the last to hear the survivors speaking on the spot. The Council of Europe, The Polish Ministry of Education And The Auschwitz-Birkenau Memorial and Museum are jointly sponsoring this project aimed at preventing crimes against humanity through Holocaust remembrance teaching.
