If she gathers them all, an incredibly powerful dragon will appear and grant her one wish. The Occupied Clinic Saiba Varma,2020-09-21 In The Occupied Clinic, Saiba Varma explores the psychological, ontological, and political entanglements between medicine and violence in Indian-controlled Kashmir—the world's most densely militarized place. Into a long history of occupations, insurgencies, suppressions, natural disasters, and a crisis of public health infrastructure come interventions in human distress, especially those of doctors and humanitarians, who struggle against an epidemic: more than sixty percent of the civilian population suffers from depression, anxiety, PTSD, or acute stress. Drawing on encounters between medical providers and patients in an array of settings, Varma reveals how colonization is embodied and how overlapping state practices of care and violence create disorienting worlds for doctors and patients alike. Varma shows how occupation creates worlds of disrupted meaning in which clinical life is connected to political disorder, subverting biomedical neutrality, ethics, and processes of care in profound ways. By highlighting the imbrications between humanitarianism and militarism and between care and violence, Varma theorizes care not as a redemptive practice, but as a fraught sphere of action that is never quite what it seems.

Metagaming Stephanie Boluk,Patrick LeMieux,2017-04-04 The greatest trick the videogame industry ever pulled was convincing the world that videogames were games rather than a medium for making metagames. Elegantly defined as “games about games,” metagames implicate a diverse range of practices that stray outside the boundaries and bend the rules: from technical glitches and forbidden strategies to Renaissance painting, algorithmic trading, professional sports, and the War on Terror. In Metagaming, Stephanie Boluk and Patrick LeMieux demonstrate how games always extend beyond the screen, and how modders, mappers, streamers, spectators, analysts, and artists are changing the way we play. Metagaming uncovers these alternative histories of play by exploring the strange experiences and unexpected effects that emerge in, on, around, and through videogames. Players puzzle through the problems of perspectival rendering in Portal, perform clandestine acts of electronic espionage in EVE Online, compete and commentate in Korean StarCraft, and speedrun The Legend of Zelda in record times (with or without the use of vision). Companies like Valve attempt to capture the metagame through international e-sports and online marketplaces while the corporate history of Super Mario Bros. is undermined by the endless levels of Infinite Mario, the frustrating pranks of Asshole Mario, and even Super Mario Clouds, a ROM hack exhibited at the Whitney Museum of American Art. One of the only books to include original software alongside each chapter, Metagaming transforms videogames from packaged products into instruments, equipment, tools, and toys for intervening in the sensory and political economies of everyday life. And although videogames conflate the creativity, criticality, and craft of play with the act of consumption, we don't simply play videogames—we make metagames.

Queer Cinema in the World Karl Schoonover,Rosalind Galt,2016-11-18 Proposing a radical vision of cinema's queer globalism, Karl Schoonover and Rosalind Galt explore how queer filmmaking intersects with international sexual cultures, geopolitics, and aesthetics to disrupt dominant modes of world making. Whether in its exploration of queer cinematic temporality, the paradox of the queer popular, or the deviant ecologies of the queer pastoral, Schoonover and Galt reimagine the scope of queer film studies. The authors move beyond the gay art cinema canon to consider a broad range of films from Chinese lesbian drama and Swedish genderqueer documentary to Bangladeshi melodrama and Bolivian activist video. Schoonover and Galt make a case for the centrality of queerness in cinema and trace how queer cinema circulates around the globe—institutionally via film festivals, online consumption, and human rights campaigns, but also affectively in the production of a queer sensorium. In this account, cinema creates a uniquely potent mode of queer worldliness, one that disrupts normative ways of being in the world and forges revised modes of belonging.

Otaku and the Struggle for Imagination in Japan Patrick W. Galbraith,2019-12-06 From computer games to figurines and maid cafes, men called “otaku” develop intense fan relationships with “cute girl” characters from manga, anime, and related media and material in contemporary Japan. While much of the Japanese public considers the forms of character love associated with “otaku” to be weird and perverse, the Japanese government has endeavored to incorporate “otaku” culture into its branding of “Cool Japan.” In Otaku and the Struggle for Imagination in Japan, Patrick W. Galbraith explores the conflicting meanings of “otaku” culture and its significance to Japanese popular culture, masculinity, and the nation. Tracing the history of “otaku” and “cute girl” characters from their origins in the 1970s to his recent fieldwork in Akihabara, Tokyo (“the Holy Land of Otaku”), Galbraith contends that the discourse surrounding “otaku” reveals tensions around contested notions of gender, sexuality, and ways of imagining the nation that extend far beyond Japan. At the same time, in their relationships with characters and one another, “otaku” are imagining and creating alternative social worlds.

Claiming Home Tina Büchler,2022-01-31 Through biographical narratives, Claiming Home traces how queer migrant

women living in Switzerland navigate often contradictory perspectives on sexuality, gender, and nation. Situated between heteronormative and racialized stereotypes of migrant women on the one hand, and the implicitly white figure of the lesbian on the other, queer migrant women are often rendered >impossible subjects.< Claiming Home maps how they negotiate conflicting loyalties in this field and how they, in their own way, claim a sense of belonging and home.

Mapping Queer Space(s) of Praxis and Pedagogy Elizabeth McNeil,James E. Wermers,Joshua O. Lunn,2017-11-14 This book explores intersections of theory and practice to engage queer theory and education as it happens both in and beyond the university. Furthering work on queer pedagogy, this volume brings together educators and activists who explore how we see, write, read, experience, and, especially, teach through the fluid space of queerness. The editors and contributors are interested in how queer-identified and -influenced people create ideas, works, classrooms, and other spaces that vivify relational and (eco)systems thinking, thus challenging accepted hierarchies, binaries, and hegemonies that have long dominated pedagogy and praxis.
