Star Wars Paper Models Bill Scollon,2021-10-26 This keepsake book includes pieces to build 25 detailed paper models of Star Wars vehicles from across all 9 episodes of the Skywalker saga! Each model also has a corresponding trading card that includes captivating information about each vehicle. This combination model kit and keepsake book will take you on an adventure through the entire Skywalker saga. Inside, you'll find beautifully illustrated and highly detailed punch-out pieces and step-by-step instructions for constructing 25 iconic Star Wars vehicles, including the Millennium Falcon, a TIE fighter, and an X-wing. A collectible keepsake fact book contains fascinating story synopses and vehicle details, so you'll discover little-known tidbits about each vehicle as you build the models. Each vehicle also comes with a collectible trading card. Star Wars fans across the spectrum will enjoy assembling and displaying this collection of replica vehicles from a galaxy far, far away.

If Anything Happens I Love You Will McCormack,Michael Govier,2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from "above" as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose's soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

More Than Bollywood Gregory D. Booth,Bradley Shope,2014 This is the first book to tackle the diverse styles and multiple histories of popular musics in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks.

Making Puppets Come Alive Larry Engler,Carol Fijan,2012-07-25 Unlike other performing arts, puppetry is perhaps the only art form in which directing, acting, writing, designing, sculpture, and choreography are combined. In effect, the performer is creating an artistic entertainment that will appeal to audiences of all ages – in homes, in theaters, and in classrooms. This lucid, easy-to-follow book was specifically conceived to teach beginners how to bring a hand puppet to life and how, with practice, to develop the skills needed to mount an amateur puppet show – complete with staging, costumes, and special effects. Award-winning puppeteers Larry Engler and Carol Fijan provide ingenious finger, wrist, and arm exercises that are crucial for creating a full working range of puppet motions and emotions. They also cover the elements of good puppet theatrical technique: speech, voice use, and synchronization; stage deportment and interactions; improvisation, dramatic conflict, role characterization, and more. Every detail is clearly explained and beautifully illustrated with photographs, specific chapters being devoted to the use of props, puppet voices and movements, the construction of simple stages and lighting effects, and much more. A splendid addition to the literature on this subject, *Making Puppets Come Alive* is the best book on hand puppetry we've seen. – The Whole Kids Catalog.

The Wal-Mart Effect Charles Fishman,2006 An award-winning journalist breaks through the wall of secrecy to reveal how the world's most powerful company really works and how it is transforming the American economy.
