world of magic, danger and political intrigue. Perfect for fans of Elizabeth Lim, Kalynn Bayron and the films of Studio Ghibli. Kurara has never known any other life than being a servant onboard the Midori, a flying ship serving the military elite of the Mikoshiman Empire, a vast realm of floating cities. Kurara also has a secret — she can make folded paper figures come to life with a flick of her finger. But when the Midori is attacked and Kurara's secret turns out to be a power treasured across the empire, a gut-wrenching escape leads her to the gruff Himura, who takes her under his wing. Under Himura's tutelage, and with the grudging support and friendship of his crew, Kurara learns to hunt shikigami — wild paper spirits sought after by the Princess of Mikoshima. But what does the princess really want with the shikigami? Are they merely enchanted figures without will or thought, or are they beings with souls and minds of their own? As fractures begin to appear both across the empire and within Kurara's understanding of herself, Kurara will have to decide who she can trust. Her fate, and the fate of her friends — and even the world — may rest on her choice. And time is running out.

Unfolding Matthew Shlian,2021-02-16 A stunning monograph and complete retrospective of the work of paper engineer and artist Matthew Shlian, covering a decade of unrivaled and unexpected creativity. Since its invention in approximately 100 BCE China, paper has been a cornerstone of civilization. The invention of paper shaped currency, communication, history, and religion. And yet, perhaps because of its widespread accessibility today, paper is underestimated as an artistic medium. Artist Matthew Shlian has always recognized paper’s significance as a medium and message, and as a material for experimentation and understanding. In his hands, engineering, science, and geometry form stunning and unexpected art. Folded, tessellated, compressed, extrapolated, two-dimensional paper becomes three-dimensional sculpture. Since he began in 2004, Shlian’s signature paper engineering has gained international recognition and led to collaborations with Apple, SUPREME, Shinola, Herman Miller, Warp Records, Sesame Street, and exhibitions around the world. Unfolding is the first monograph of Shlian’s genius, compiling his most important work over the past decade. A journey into the new possibilities of folding technology, the intricate complexities of Islamic patterns, and the sheer potential offered by a sheet of white paper, Unfolding is the celebration of a humble material, on the edge of its existence, elevated to timeless form and possibility.
