**Original Grin** Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

*If Anything Happens I Love You* Will McCormack, Michael Govier, 2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most

importantly, in the fight toward human connection, love, and acceptance.

**Hokusai** Seiji Nagata,Hokusai Katsushika,1999 An introduction to the life and art of Japan's famous artist export, Hokusai, written by the curator of the Ota Memorial Museum in Tokyo. *Achtung-Panzer!* Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

KAWS ,2019 KAWS is one of the most prominent and prolific artists of his generation. Working across art, fashion and design, he creates colour-filled paintings, murals, large-scale sculptures, street and public art, products, and streetwear. His work is infused with humour and humanity and is deeply tied to our times. KAWS draws his cast of characters from pop-culture animations to form a distinctive artistic vocabulary. Featuring a new text by Margaret Atwood (*The Handmaid's Tale*), a biographical essay by NGV Senior Curator of Contemporary Art, Dr Simon Maidment, and more than 200 images, including documentation of the career-survey exhibition KAWS: Companionship in the Age of Loneliness at the National Gallery of Victoria, this publication is a comprehensive overview of the artist's work to date. -- Publisher website.

**Lois Greenfield** William A. Ewing,2015 Lois Greenfield's unique approach to photographing the human form in motion has redefined the genre of dance photography and transcended its limitations. Rather than shooting literal moments from a dance, Greenfield captures split-second movements created specifically for her camera. Her astonishing images of dancers in mid-flight appear to defy all laws of physics, with her performers seeming to levitate and assume incredible sculptural forms.

Moving Still charts Greenfield's shift to colour photography and from shooting with a film camera to a digital camera. It also illustrates the evolution of her individual style pioneered in her previous books, *Breaking Bounds* and *Airborne*. These radical changes over the last fifteen years or so have influenced the way she conceives her pictures and have seen Greenfield move from capturing high-energy moments to exploring more ambiguous and enigmatic scenarios - without any digital manipulation. The book showcases more than 150 of these breathtaking new images featuring leading contemporary dancers and well-known dance companies. Divided into four picture sections, the free-flowing, rhythmic design of the book reflects the dynamism and grace of Greenfield's photographs. William A. Ewing, the eminent photography writer and curator, contributes an interview with the photographer about her work, as well as an introduction. Greenfield herself, through commentaries on the photographs, offers fascinating insights into her creative process behind the camera and the challenges she faces in shooting these images. The result is an absorbing journey through Greenfield's work that celebrates not only contemporary dance, but also the transformative power of photography.
