The Return Dulce Maria Cardoso, 2016-07-07 Everyone has gone away... We too should no longer be here. Luanda, 1975. The Angolan War of Independence has been raging for at least a decade, but with the collapse of the Salazar dictatorship, defeat for the Portuguese is now in sight. Thousands of settlers are fleeing back to Portugal to escape the brutality of the Angolan rebels. Rui is fifteen years old. He has lived in Luanda all his life and has never even visited the far-away homeland - although he has heard many stories. But now his family are finally accepting that they too must return, and Rui is filled with a mixture of excitement and dread at the prospect. But just as they are leaving for the airport, his father is taken away by the rebels, and the family must leave without him. Not knowing if the father is alive or dead - or if they will ever find out what has become of him, Rui, his mother and sister try to rebuild their lives in their new home. This turns out to be a five star hotel in a quiet, seaside suburb of Lisbon, where returnee families are crammed into luxurious rooms by the dozen. These palatial surroundings are a cruel contrast with the reality of returnee life. The hotel becomes a curious form of purgatory as the families wait to discover what will become of them - ever conscious of the fact that they are hardly welcome back in their homeland. Rui has his own personal struggle with his new life: growing up, dropping out of school, facing discrimination, and the ever-present worry over his mother's deteriorating health and his father's fate. And then one night Rui's father returns from the dead. Translated from the Portuguese by Ángel Gurría-Quintana

Finding Latinx Paola Ramos, 2020-10-20 Latinos across the United States are redefining identities, pushing boundaries, and awakening politically in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, "Latinx." She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the "Las Poderosas" who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their

belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how “Latinx” has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of reportage, *Finding Latinx* calls on all of us to expand our understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we are.

Man and His Symbols Carl G. Jung, 2012-02-01 The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung’s revolutionary ideas “What emerges with great

clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society.”—The Guardian “Our psyche is part of nature, and its enigma is limitless.” Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life’s work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Women, Business and the Law 2021 World Bank, 2021-04-05
Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law

2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

The Origins of Self Martin P. J. Edwardes, 2019-07-22 The Origins of Self explores the role that selfhood plays in defining human society, and each human individual in that society. It considers the genetic and cultural origins of self, the role that self plays in socialisation and language, and the types of self we generate in our individual journeys to and through adulthood. Edwardes argues that other awareness is a relatively early evolutionary development, present throughout the primate clade and perhaps beyond, but self-awareness is a product of the sharing of social models, something only humans appear to do. The self of which we are aware is not something innate within us, it is a model of our self produced as a response to the models of us offered to us by other people. Edwardes proposes that human construction of selfhood involves seven different types of self. All but one of them are internally generated models, and the only non-model, the actual self, is completely hidden from conscious awareness. We rely on others to tell us about our self, and even to let us know we are a self.

The Last Descendant of Aeneas Marie Tanner, 1993-01-01
From antiquity to the eve of the modern era, rulers of Western empires inspired hero worship by proclaiming their divine origins. In this fascinating original study, Marie Tanner presents the history of the emperor's mythic image and its continuing influence on Western political thought. She shows that these pretensions to divinity were based on the Trojan legend and the myth of Rome as developed in Vergil's *Aeneid* and that later Christian emperors expanded these claims by tracing their lineage not only to the pagan gods but also to the priest-kings of the Old Testament. Through this amalgam of heritages each successive Holy Roman emperor proclaimed that he was the last descendant of Aeneas, destined to yield the terrestrial rule of Rome to Christ and thereby inaugurate millennial peace. By examining a wide range of literary, artistic, and historical sources plus a corpus of new illustrations, Tanner discovers remarkable chains of evidence for this process, one that culminates with the Renaissance Hapsburgs who imbued the holiest symbols of the faith with dynastic meaning as they attempted to consolidate all priestly and secular powers in their grip. On these foundations Philip II of Spain, son of the Holy Roman Emperor Charles V and the first monarch to rule the four known continents, created a new concept of absolute monarchy that shaped the principles of modern statecraft and determined the dominant form of government in Europe for the next two centuries.

Women Build the Welfare State Donna J. Guy, 2009-01-16 In this pathbreaking history, Donna J. Guy shows how feminists, social workers, and female philanthropists contributed to the emergence of the Argentine welfare state through their advocacy of child welfare and family-law reform. From the creation of the government-subsidized Society of Beneficence in 1823, women were at the forefront of the child-focused philanthropic and municipal groups that proliferated first to address the impact of urbanization, European immigration, and high infant mortality rates, and later to meet the needs of wayward, abandoned, and delinquent children. Women staffed child-centered organizations that received subsidies from all levels of government. Their interest in children also led them into the battle for female suffrage and the campaign to promote the legal adoption of children. When Juan Perón expanded the welfare system during his presidency (1946-1955), he reorganized private charitable organizations that had, until then, often been led by elite and immigrant women. Drawing on extensive research in Argentine archives, Guy reveals significant continuities in Argentine history, including the rise of a liberal state that subsidized all kinds of women's and religious groups. State and private welfare efforts became more organized in the 1930s and reached a pinnacle under Juan Perón, when men took over the welfare state and philanthropic and feminist women's influence on child-welfare activities and policy declined. Comparing the rise of Argentina's welfare state with the development of others around the world, Guy considers both why women's child-welfare initiatives have not received more attention in historical accounts and whether the welfare state emerges from the top down or from the bottom up.

The Age of Surveillance Capitalism Shoshana Zuboff, 2019-01-15 The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented

form of power called surveillance capitalism, and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new behavioral futures markets, where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new means of behavioral modification. The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a Big Other operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled hive of total connection that seduces with promises of total certainty for maximum profit - at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.
