Click, Clack, Quack to School! Doreen Cronin, 2018-07-03 They can stand in line (sort of), use indoor voices (perhaps), and are capable of sharing (rumor has it), so the Click Clack critters are ready for school...but is school ready for them? A charming addition to the award-winning Click, Clack series from the New York Times bestselling and Caldecott winning team who brought you Click, Clack, Moo and Click, Clack, Surprise! Farmer Brown has been invited to be a guest at the elementary school's Farm Day! The animals excitedly practice their best classroom behavior: standing quietly in line, using their inside voices, and learning how to share. But then they find out that farm animals aren't actually allowed in school (who knew they were considered a health code violation?!). Rules are rules, so Farmer Brown goes to school solo—or so he thinks...for while our favorite barnyard bunch don't get high marks in rules, they do excel in disguise.

The Day-Glo Brothers Chris Barton, 2009-07-01 A discovery that made the world a brighter place! Joe and Bob Switzer were very different brothers. Bob was a studious planner who wanted to grow up to be a doctor. Joe dreamed of making his fortune in show business and loved magic tricks and problem-solving. When an accident left Bob recovering in a darkened basement, the brothers began experimenting with ultraviolet light and fluorescent paints. The Strange Case of Origami Yoda (Origami Yoda #1) Tom Angleberger, 2012-08-07 In this funny, uncannily wise portrait of the dynamics of a sixth-grade class and of the greatness that sometimes comes in unlikely packages, Dwight, a loser, talks to his classmates via an origami finger puppet of Yoda. If that weren't strange enough, the puppet is uncannily wise and prescient. Origami Yoda predicts the date of a pop quiz, guesses who

stole the classroom Shakespeare bust, and saves a classmate from popularity-crushing embarrassment with some well-timed advice. Dwight's classmate Tommy wonders how Yoda can be so smart when Dwight himself is so clueless. With contributions from his puzzled classmates, Tommy assembles this first case file in the blockbuster bestselling Origami Yoda series, written by Tom Angleberger, author of *Star Wars: Return of the Jedi: Beware the Power of the Dark Side*, and hailed by *School Library Journal* as "honest, funny, and immensely entertaining." European Pack for Visiting Auschwitz-Birkenau Memorial and Museum Alicja Białecka, 2010-01-01 Taking groups of students To The Auschwitz-Birkenau Memorial and Museum is a heavy responsibility, but it is a major contribution to citizenship if it fosters understanding of what Auschwitz stands for, particularly when the last survivors are at the end of their lives. it comes with certain risks, however. This pack is designed for teachers wishing to organise student visits to authentic places of remembrance, and For The guides, academics and others who work every day with young people at

Auschwitz. There is nothing magical about visiting an authentic place of remembrance, and it calls for a carefully thought-out approach. To avoid the risk of inappropriate reactions or the failure to benefit from a large investment in travel and accommodation, considerable preparation and discussion is necessary before the visit and serious reflection afterwards. Teachers must prepare students for a form of learning they may never have met before. This pack offers insights into the complexities of human behaviour so that students can have a better understanding of what it means to be a citizen. How are they concerned by what happened at Auschwitz? is the unprecedented process of exclusion that was practised in the Holocaust still going on in Europe today? in what sense is it different from present-day racism and anti-Semitism? the young people who visit Auschwitz in the next few years will be witnesses of the last witnesses, links in the chain of memory. Their generation will be the last to hear the survivors speaking on the spot. The Council of Europe, The Polish Ministry of Education And The Auschwitz-Birkenau Memorial and Museum are jointly sponsoring this project aimed at preventing crimes against humanity through Holocaust remembrance teaching.

Shadowlands: A Journey Through Britain's Lost Cities and Vanished Villages Matthew Green, 2022-07-19 One of Literary Hub's Most Anticipated Books of 2022 A "brilliant London historian" (BBC Radio) tells the story of Britain as never before—through its abandoned villages and towns. Drowned. Buried by sand. Decimated by plague. Plunged off a cliff. This is the extraordinary tale of Britain's eerie and remarkable ghost towns and villages; shadowlands that once hummed with life. Peering through the cracks of history, we find

Dunwich, a medieval city plunged off a cliff by sea storms; the abandoned village of Wharram Percy, wiped out by the Black Death; the lost city of Trellech unearthed by moles in 2002; and a Norfolk village zombified by the military and turned into a Nazi, Soviet, and Afghan village for training. Matthew Green, a British historian and broadcaster, tells the astonishing tales of the rise and demise of these places, animating the people who lived, worked, dreamed, and died there. Traveling across Britain to explore their haunting and often-beautiful remains, Green transports the reader to these lost towns and cities as they teeter on the brink of oblivion, vividly capturing the sounds of the sea clawing away row upon row of houses, the taste of medieval wine, or the sights of puffin hunting on the tallest cliffs in the country. We experience them in their prime, look on at their destruction, and revisit their lingering remains as they are mourned by evictees and reimaged by artists, writers, and mavericks. A stunning and original excavation of Britain's untold history, *Shadowlands* gives us a truer sense of the progress and ravages of time, in a moment when many of our own settlements are threatened as never before.

Climate Benefits of Material Recycling Hillman, Karl, Damgaard, Anders, Eriksson, Ola, Jonsson, Daniel, Fluck, Lena, 2015-07-06 The purpose of

this project is to compare emissions of greenhouse gases from material recycling with those from virgin material production, both from a material supply perspective and from a recycling system perspective. The method for estimating emissions and climate benefits is based on a review, followed by a selection, of the most relevant publications on life cycle assessment (LCA) of materials for use in Denmark, Norway and Sweden. The proposed averages show that emissions from material recycling are lower in both perspectives, comparing either material supply or complete recycling systems. The results can be used by companies and industry associations in Denmark, Norway and Sweden to communicate the current climate benefits of material recycling in general. They may also contribute to discussions on a societal level, as long as their average and historic nature is recognised.
