Time Out Florence Editors of Time Out,2011-12-27 Florence has the greatest collection of Renaissance art in the world, and a character list that reads like a Who's Who of the period's greatest artists and thinkers u Dante, Leonardo, Michaelangelo u not to mention the powerful families who financed their work - the Medici and the Strozzi. Evidence of their lasting influence abounds today, including the discovery of a Leonardo fresco beneath a painting by Vasari, and the unearthing of Michaelangelo's plans for a church facade. The city's challenge today is to manage the resultant tourist hordes; a new entrance to an enlarged Uffizi should double tourist numbers to the gallery, while a tramline is intended to reduce the city's traffic.

Emmet Otter's Jug-Band Christmas Russell Hoban,2017-10-24 Celebrate Christmas with the inspiration for the beloved Jim Henson film - in print after over 40 years. In 1977, when Jim Henson debuted the now-classic film Emmet Otter's Jug-Band Christmas, few knew it was based on a story written and illustrated by Russell and Lillian Hoban, creators of Bread and Jam for Frances and other treasured children's books. With an enduring score by the great Paul Williams, the movie remains a holiday tradition in homes across America. Now the book that started it all is back in print, in a beautiful gift edition that will thrill Muppets fans young and old. Inspired by the classic tale The Gift of the Magi, the story begins in a poor country cottage, as Emmet Otter dreams of buying Ma a piano for Christmas, while Ma dreams of buying Emmet a guitar. When a village talent contest is announced, both imagine their dreams coming true. But what they don't imagine finding is their real reward - the power of love, family, and hope in hard times. It is a story that reaches into a reader's heart and reminds us all that fortune favors the brave. A Bank Street College of Education Best Children's Book of the Year [A] welcome reissue of the Hobans' 1971 story . . . Colorful illustrations of the close-knit animal community contain plenty of warmth. -The Horn Book

Make Ink Jason Logan,2018-09-11 “The pigments he concocts from these humble beginnings are as fun to make as they are eye-opening to work with . . . the world never quite looks the same.” -MarthaStewart.com A 2018 Best Book of the Year-The Guardian The Toronto Ink Company was founded in 2014 by designer and artist Jason Logan as a citizen science experiment to make eco-friendly, urban ink from street-harvested pigments. In Make Ink, Logan delves into the history of inkmaking and the science of distilling pigment from the natural world. Readers will learn how to forage for materials such as soot, rust, cigarette butts, peach pits, and black walnut, then how to mix, test, and transform these ingredients into rich, vibrant inks that are sensitive to both place and environment. Organized by color, and featuring lovely minimalist photography throughout, Make Ink combines science, art, and craft to instill the basics of ink making and demonstrate the beauty and necessity of engaging with one of mankind’s oldest tools of communication. “Logan demystifies the process, encouraging experimentation and taking a fresh look at urban environments.” -NPR “The book is full of inspiration and takes a lot of the mystery out of ink making, at least at its simplest level. And it also reminds me why I love ink—any ink or liquid color as much as I do.” -The Well-Appointed Desk “Quite a few recipes . . . that use color from the kitchen: carrots, black beans, blueberries, turmeric, and onion skins all make beautiful ink colors.” -Design Observer “Make Ink opens up about methods, providing an open source guide to DIY ink.” -CityLab

The Chinese Typewriter Thomas S. Mullaney, 2018-10-09 How Chinese characters triumphed over the QWERTY keyboard and laid the foundation for China's information technology successes today. Chinese writing is character based, the one major world script that is neither alphabetic nor syllabic. Through the years, the Chinese written language encountered presumed alphabetic universalism in the form of Morse Code, Braille, stenography, Linotype, punch cards, word processing, and other systems developed with the Latin alphabet in mind. This book is about those encounters—in particular thousands of Chinese characters versus the typewriter and its QWERTY keyboard. Thomas Mullaney describes a fascinating series of experiments, prototypes, failures, and successes in the century-long quest for a workable Chinese typewriter. The earliest Chinese typewriters, Mullaney tells us, were figments of popular imagination, sensational accounts of twelve-foot keyboards with 5,000 keys. One of the first Chinese typewriters actually constructed was invented by a Christian missionary, who organized characters by common usage (but promoted the less-common characters for “Jesus to the common usage level”). Later came typewriters manufactured for use in Chinese offices, and typewriting schools that turned out trained “typewriter girls” and “typewriter boys.” Still later was the “Double Pigeon” typewriter produced by the Shanghai Calculator and Typewriter Factory, the typewriter of choice under Mao. Clerks and secretaries in this era experimented with alternative ways of organizing characters on their tray beds, inventing an input method that was the first instance of “predictive text.” Today, after more than a century of resistance against the alphabetic, not only have Chinese characters prevailed, they form the linguistic substrate of the vibrant world of Chinese information technology. The Chinese Typewriter, not just an “object history” but grappling with broad questions of technological change and global communication, shows how this happened. Water+Ink Coloring Book Winter 2020 Kim Winberry, 2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and zap the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.

Those who read this informative tattoo guide will be more knowledgeable about Japanese tattoos should they want to get inked or if they are simply interested in Japanese art and culture.

Marian Devotion Among the Roma in Slovakia Tatiana Zachar Podolinská, 2020-12-16 In this book Tatiana Zachar Podolinská explores how post-modern Marian devotion represents both the continuation and restoration of tradition in the modern world. Podolinská illuminates how Mary as a Great Enchantress has colonised the modern world and survived mandatory atheism in communist countries. The resilience of Marian devotion in the face of the secularising forces of modernity is due to how fluidly it mixes pre-modern and ultra-modern elements of beliefs and practices with the grassroot current of post-modern Christianity. At the same time, Podolinská elucidates how Mary has become the voice of peripheral ethnic groups and nations. This book specifically explains the devotion of the post-modern Mary among the Roma in Slovakia and explores how this community copes with marginalisation, creating islands of marginal centrality. By approaching the ethnicised and enculturated forms of the Virgin Mary (i.e. Chocolate Marys), the book illuminates her potential for helping the Slovak Roma on their own path from the periphery to the center.
