Labib Habachi, Charles Cornell Van Siclen

Egyptian Obelisks Henry Honeychurch Gorringe, 1885 A deluxe book produced at the point that Harroun and Bierstadt dissolved their business ... The Artotypes in this book are some of the finest produced by Bierstadt. The pictorial record of this engineering feat is remarkable in itself; casing and tilting the obelisk, loading it into the side of the ship by removing part of the hull, pulling it out on a special dock in the Hudson and then moving it by custom made rail from the river to the site next to the Metropolitan Museum. The illustrations show the hieroglyphics, now mostly lost due to New York's polluted air, bright and clear.--Hanson Collection catalog, p. 82

Psychic Self-Defense Dion Fortune, 2021-12-12 Psychic Self-Defense Dion Fortune - Psychic Self-Defense is one of the best guides to detection and defence against psychic attack from one of the leading occult writers of the 20th century. After finding herself the subject of a powerful psychic attack in the 1930's, famed British occultist Dion Fortune wrote this detailed instruction manual on protecting oneself from paranormal attack. This classic psychic self-defence guide explains how to understand the signs of a psychic attack, vampirism, hauntings, and methods of defence. Everything you need to know about the methods, motives, and physical aspects of a psychic attack and how to overcome it is here, along with a look at the role psychic elements play in mental illness and how to recognise them.

Signs and Symbols Adrian Frutiger, 1998 Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and

trademarks.

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert, Erma Hermens, Marja Peek, 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Sophie's World Jostein Gaarder, 2007-03-20 One day Sophie comes home from school to find two questions in her mail: Who are you? and Where does the world come from? Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

Nineteen Eighty-Four George Orwell, 2021-01-09 *Nineteen Eighty-Four: A Novel*, often published as 1984, is a dystopian social

science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, *Nineteen Eighty-Four* centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Hatshepsut, from Queen to Pharaoh Metropolitan Museum of Art (New York, N.Y.), 2005 A fascinating look at the artistically productive reign of Hatshepsut, a female pharaoh in ancient Egypt

Journey to the West Miroslav Bárta, 2011 This book is intended as a commented summary of some of the major trends and most important features that can be encountered when analysing ancient Egyptian society of the Old Kingdom. We have to bear in mind that around 3000 BCE one of the first centralised states in our recorded history rose, and the Old Kingdom represents

certainly one of its apogees. Moreover, there is hardly any comparable society that left behind such a wealth of archaeological and literary evidence, a welcome companion for our journey back in time. The goal for writing this book was to outline general trends in the history of the non-royal tomb development of the period. The reason is rather simple and straightforward: ancient Egyptians considered the tomb to be their afterlife residence for eternity. In the afterlife they replicated the life they experienced during the lifetime. Thus the tomb architecture, decoration, inscriptions and equipment paradoxically represent a major tool for our understanding of the everyday life of the ancient Egyptians and enable a better comprehension of the development and dynamics of the Old Kingdom. The book is divided into nine chapters covering, step by step, the development of the Egyptian tomb and society from the Predynastic Period to the end of the first six Egyptian dynasties, a lengthy period of time which covers the Early Dynastic and the Old Kingdom periods. These six chapters are accompanied by three additional chapters on religious aspects of the Old Kingdom society, its economy and environment.

The History of Mathematics David M. Burton, 1991 This text is designed for the junior/senior mathematics major who intends to teach mathematics in high school or college. It concentrates on the history of those topics typically covered in an undergraduate curriculum or in elementary schools or high schools. At least one year of calculus is a prerequisite for this course. This book contains enough material for a 2 semester course but it is flexible enough to be used in the more common 1 semester course.

The Image of the City Kevin Lynch, 1964-06-15 The classic

work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

Mein Kampf Adolf Hitler, 2024-02-26 Madman, tyrant, animal—history has given Adolf Hitler many names. In *Mein Kampf* (My Struggle), often called the Nazi bible, Hitler describes his life, frustrations, ideals, and dreams. Born to an impoverished couple in a small town in Austria, the young Adolf grew up with the fervent desire to become a painter. The death of his parents and outright rejection from art schools in Vienna forced him into underpaid work as a laborer. During the First World War, Hitler served in the infantry and was decorated for bravery. After the war, he became actively involved with socialist political groups and quickly rose to power, establishing himself as Chairman of the National Socialist German Worker's party. In 1924, Hitler led a coalition of nationalist groups in a bid to overthrow the Bavarian government in Munich. The infamous Munich Beer-hall putsch was unsuccessful, and Hitler was arrested. During the nine months he was in prison, an embittered and frustrated Hitler dictated a personal manifesto to his loyal follower Rudolph Hess. He vented his sentiments against communism and the Jewish people in this document, which was to become *Mein Kampf*, the controversial book that is seen as the blue-print for Hitler's political and military campaign. In *Mein Kampf*, Hitler describes his strategy for rebuilding Germany and conquering Europe. It is a glimpse into the mind of a man who destabilized world peace and pursued the genocide now known as the Holocaust.

• Library Journal • Publishers Weekly In a profound work that
pivots from the biggest questions about American history and
ideals to the most intimate concerns of a father for his son, Ta-
Nehisi Coates offers a powerful new framework for understanding
our nation's history and current crisis. Americans have built an
empire on the idea of "race," a falsehood that damages us all but
falls most heavily on the bodies of black women and men—bodies
exploited through slavery and segregation, and, today,
threatened, locked up, and murdered out of all proportion. What is
it like to inhabit a black body and find a way to live within it? And
how can we all honestly reckon with this fraught history and free
ourselves from its burden? *Between the World and Me* is Ta-Nehisi
Coates's attempt to answer these questions in a letter to his

adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

Archaeology Anthropology and Interstellar Communication

Douglas A. Douglas A. Vakoch, 2015-03-24 Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.
