Scott Gelfand, John R. Shook

Ectogenesis Scott Gelfand, John R. Shook, 2006 This book raises many moral, legal, social, and political, questions related to possible development, in the near future, of an artificial womb for human use. Is ectogenesis ever morally permissible? If so, under what circumstances? Will ectogenesis enhance or diminish women's reproductive rights and/or their economic opportunities? These are some of the difficult and crucial questions this anthology addresses and attempts to answer.

Hover Car Racer Matthew Reilly, 2021 In the world of the near future, the most popular sport in the world is hover car racing. Super fast and dangerous, its heroes are the racers: part fighter pilot, part race - car driver, all superstar. But to get to the Pro Circuit, you must first pass through the International Race School, a brutal cauldron of wild races on even wilder courses, where only the best of the best will survive. This is the story of Jason Chaser, a talented young racer selected to attend the Race School. He's younger than the other students. He's smaller. His trusty car, the Argonaut, is older. But Jason Chaser is no ordinary racer. And as he races against the best drivers in the world he will learn that at Race School winning is everything, that not everyone in this world fights fair, and that you never ever have any friends on the track.
