Tarot of Ceremonial Magick Lon Milo DuQuette,1995-06-01 In this ground-breaking book, Lon Milo DuQuette explains the symbology of the cards in his Tarot of Ceremonial Magick, a new deck published by Next Millennium. The concept is a breakthrough for occultists of all paths. Each card is illustrated with a list of the Zodiacal, Enochian, Ceremonial, Goetic, Tattvic, and Elemental components. DuQuette explains how the cards relate to each other and makes immediately accessible the more difficult conceptual connections that Crowley made so easily. Through DuQuette's wit and decades of practical knowledge of magical practice, students of the arcane arts can gain a whole new level of understanding of how and why magic works. Illustrated. Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer

officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Tortured Cardboard Philip E. Orbanes, 2019-07-23 The term “tortured cardboard” sums up what happens to cardboard when making a board game (bound, cut, folded, punched). And, as you’ll learn, great board games often reflect whatever “tortures” culture. Each gained immortality after a chaotic beginning and a chance survival. Why? Because—be it chess, backgammon, Clue®, Monopoly®, Scrabble®, Settlers of Catan®, or one of ten others featured in this book—each is replete with “lessons” applicable to achievement in your life. As the twenty-first century gathers momentum, our love affair with board games continues to strengthen. They involve us, they refine social skills, and they teach great lessons applicable in real life. “Tortuous” is the journey of every great board game, from birth in chaotic times, through survival by mere chance, to raging popularity and eventual immortality. Tortured Cardboard reveals how the great ones came to endure and—all fun aside—how each teaches us something about our own behavior while providing “rules” that can work in your life.

The Exile Waiting Vonda N. McIntyre, 2019-10-21 The Exile Waiting was the first novel by the Hugo and Nebula award-winning novelist Vonda N McIntyre, published in 1975. It introduces the world that McIntyre later made famous with her multi-award-winning Dreamsake: a post-apocalyptic world in which Center, an enclosed domed city, is run by slave-owning families who control the planet's resources, and are strangling the city's economy by their decadence. Mischa is a thirteen-year old sneak thief, struggling to support her drug-addict elder brother Chris, and their predatory uncle who uses their telepathic link with their captive younger sister Gemmi to control them. The alien pseudosibs Subone and Subtwo have come to Earth to take over Center's resources.

Subone is attracted by the decadent living on offer and begins to unlink from his sibling's conditioning. Subtwo has fallen unexpectedly in love with a slave. When Mischa defends Chris from Subone's malice, Subtwo hunts her beneath Center's foundations, and discovers how terrible Center's cruelty has been to its inhabitants with genetically distorted bodies and minds. They have to rescue them and leave, but how? Also included in this edition, the first republication of McIntyre's short story 'Cages', originally published in Quark 4 in 1972, in which she first created the pseudosibs and their terrible origins.
