If Anything Happens I Love You Will McCormack, Michael Govier, 2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

Expanded Animation Jeremiah Diephuis, Jürgen Hagler, Alexander Wilhelm, Michael Lankes, 2019-04-30 The symposium *Expanded Animation* was initiated in 2013 and offered a first approach to the expanded field of computer animation. In the meantime, it has become an established part of the Ars Electronica Animation Festival and the international competition Prix Ars Electronica Computer Animation. Every year under an overarching theme, the symposium has researched the field of technology and art, animation and aesthetics, investigated the collapsing boundaries in digital animation and explored positions and future trends. Much like the first conferences on computer animation at Ars Electronica in the 1980s, practice and theory are equally important. The richly illustrated publication *Expanded Animation. The Anthology* features contributions from speakers and artist positions from the past five years and presents an overview of the prize winners in Computer Animation.

Pasolini Requiem Barth David Schwartz, 1995 Riveting, obsessive, impassioned, and scandalous, here is a major biography of one of the great Renaissance men of the 20th century. Pier Paolo Pasolini was uncompromising, homosexual, anti-Fascist, anti-Communist, anti-clerical, even as he yielded to his callings as world-renowned novelist (*A Violent Life*, *The Ragazzi*), poet, polemicist, and filmmaker. Photographs. Advertising.

Hidden Alliances Elisabeth Schimana, 2020-02-18 Where are all of the women in the avant-garde electronic music scene? Anyone who thinks they do not exist is totally wrong. It is, however, a fact that hardly anyone has done any research on them or written about them. Wondering about a world allegedly lacking in female electronic musicians, Elisabeth Schimana began a search in the late 1990s and the initial results of her research went into her performance *Portrait 01 - Die Futuristin* (*Portrait 01 - the female futurists*). Her research brought her into the sphere of electronic music, which culminated in the founding of the IMA- Institute for Media Archaeology. Now, this publication presents twenty female artists and their work. The artists create a somewhat different picture of the creation and development of electronic music. This illustrated volume is as intriguing as it is fascinating, and, above all, a significant portrait of this new history.

Interface Cultures Christa Sommerer, Laurent Mignonneau, Dorothée King, 2015-07-31 From media art archeology to contemporary interaction design - the term interface culture is based on a vivid and ongoing discourse in the fields of interactive art, interaction design, game design, tangible interfaces, auditory interfaces, fashionable technologies, wearable devices, intelligent ambiances, sensor technologies, telecommunication and new experimental forms of human-machine, human-human and machine-machine interactions and the cultural discourse surrounding them. This book's aim is to give an overview of the current state of interactive art and interface technology as well as an outlook on new forms of hybridization in art, media, scientific research and every-day media applications.

Silencing the Past Michel-Rolph Trouillot, 2015-03-17 Now part of the HBO docuseries *Exterminate All the Brutes*, written and directed by Raoul Peck The 20th anniversary edition of a pioneering classic that explores the contexts in which history is produced—now with a new foreword by renowned scholar Hazel Carby Placing the West’s failure to acknowledge the Haitian Revolution—the most successful slave revolt in history—alongside denials of the Holocaust and the debate over the Alamo, Michel-Rolph Trouillot offers a stunning meditation on how power operates in the making and recording of history. This modern classic resides at the intersection of history, anthropology, Caribbean, African-American, and post-colonial studies, and has become a staple in college classrooms around the country. In a new foreword, Hazel Carby explains the book’s enduring importance to

these fields of study and introduces a new generation of readers to Trouillot’s brilliant analysis of power and history’s silences.

Art(a)Science Christa Sommerer,1998-02-16 The Arts and Sciences have long been regarded as separated disciplines. In this era of rapidly developing computer technologies a novel interdisciplinary spirit has emerged that promises a new collaboration between research and art. Computer Graphics, Interactive Arts, Scientific Visualization, Artificial Life, Chaos and Complexity, newly emerging Media Museums and Media Centers as well as Telecommunications are areas where artistic thinking influences science and where scientific methodology reaches into the arts.

Pasolini Enzo Siciliano,1987 Pasolini's body was found in a deserted field outside Rome in November 1975. He had been murdered by a homosexual prostitute, but it is possible that the murder was in fact politically motivated.
