The Number Sense Stanislas Dehaene,2011-04-29 Our understanding of how the human brain performs mathematical calculations is far from complete, but in recent years there have been many exciting breakthroughs by scientists all over the world. Now, in *The Number Sense*, Stanislas Dehaene offers a fascinating look at this recent research, in an enlightening exploration of the mathematical mind. Dehaene begins with the eye-opening discovery that animals—including rats, pigeons, raccoons, and chimpanzees--can perform simple mathematical calculations, and that human infants also have a rudimentary number sense. Dehaene suggests that this rudimentary number sense is as basic to the way the brain understands the world as our perception of color or of objects in space, and, like these other abilities, our number sense is wired into the brain. These are but a few of the wealth of fascinating observations contained here. We also discover, for example, that because Chinese names for numbers are so short, Chinese people can remember up to nine or ten digits at a time--English-speaking people can only remember seven. The book also explores the unique abilities of idiot savants and mathematical geniuses, and we meet people whose minute brain lesions render their mathematical ability useless. This new and completely updated edition includes all of the most recent scientific data on how numbers are encoded by single neurons, and which brain areas activate when we perform calculations. Perhaps most important, *The Number Sense* reaches many provocative conclusions that will intrigue anyone interested in learning, mathematics, or the mind. A delight. --Ian Stewart, *New Scientist* Read *The Number Sense* for its rich insights into matters as varying as the cuneiform depiction of numbers, why Jean Piaget's theory of stages in infant learning is wrong, and to discover the brain regions involved in the number sense. --The New York Times Book Review Dehaene weaves the latest technical research into a remarkably lucid and engrossing investigation. Even readers normally indifferent to mathematics will find themselves marveling at the wonder of minds making numbers. --Booklist

From Bloodshed to Hope in Burundi Ambassador Robert Krueger,Kathleen Tobin Krueger,2009-03-06 In 1994, while nations everywhere stood idly by, 800,000 people were slaughtered in eight weeks in Rwanda. Arriving as U.S. Ambassador to neighboring Burundi a few weeks later, Bob Krueger began drawing international attention to the genocide also proceeding in Burundi, where he sought to minimize the killing and to preserve its fledgling democratic government from destruction by its own army. *From Bloodshed to Hope in Burundi* is a compelling eyewitness account of both a horrific and persistent genocide and of the ongoing efforts of many courageous individuals to build a more just society. Krueger and his wife Kathleen graphically document the slaughter occurring all around them, as well as their repeated efforts to get the U.S. government and the international community to take notice and take action. Bob Krueger reconstructs the events of the military coup that precipitated the Burundi genocide and describes his efforts to uncover the truth by digging up graves and interviewing survivors. In straightforward and powerful language, Kathleen Krueger recounts her family's experience living amid civil war, including when she faced down a dozen AK-47-wielding African soldiers to save the life of a household worker. *From Bloodshed to Hope in Burundi* shines a piercing light on a genocide that has gone largely unreported, and identifies those responsible for it. It also offers hope that as the truth emerges and the perpetrators are brought to account, the people of Burundi will at last achieve peace and reconciliation.

Cultural Memory Studies Astrid Erll,Ansgar Nünning,2010-01-01 This handbook represents the interdisciplinary and international field of “cultural memory studies” for the first time in one volume. Articles by renowned international scholars offer readers a unique overview of the key concepts of cultural memory studies. The handbook not only documents current research in an unprecedented way; it also serves as a forum for bringing together approaches from areas as varied as sociology, political sciences, history, theology, literary studies, media studies, philosophy, psychology, and neurosciences. “Cultural memory studies” – as defined in this handbook – came into being at the beginning of the 20th century, with the works of Maurice Halbwachs on *mémoire collective*. In the course of the last two decades this area of research has witnessed a veritable boom in various countries and disciplines. As a consequence, the study of the relation of “culture” and “memory” has diversified into a wide range of approaches. This handbook is based on a broad understanding of “cultural memory” as the interplay of present and past in sociocultural contexts. It presents concepts for the study of individual remembering in a social context, group and family memory, national memory, the various media of memory, and finally the host of emerging transnational lieux de mémoire such as 9/11.

Representing Capital Fredric Jameson,2014-01-07 *Representing Capital*, Fredric Jameson’s first book-length engagement with Marx’s magnum opus, is a unique work of scholarship that records the progression of Marx’s thought as if it were a musical score. The textual landscape that emerges is the setting for paradoxes and contradictions that struggle toward resolution, giving rise to new antinomies and a new forward movement. These immense segments overlap each other to combine and develop on new levels in the same way that capital itself does, stumbling against obstacles that it overcomes by progressive expansions, which are in themselves so many leaps into the unknown.

Rethinking Poverty United Nations. Department of Economic and Social Affairs,2010 The 2010 issue of the Report on the World Social Situation focuses on the challenge of achieving poverty reduction. The Millennium Development Goals seek to halve, by 2015, the level of extreme poverty that existed since 1990. The Report begins with an overview of global, regional and selected country poverty trends over the period 1981-2005, critically examines the conventional policy framework and popular poverty reduction programmes, argues that a commitment to eradicating poverty and to enhancing equity and social integration requires consistent actions directed towards sustainable economic growth, productive employment creation and social development, entailing an integrated approach to economic and social policies for the benefit of all citizens. It recommends consideration of the policy approaches that have dominated the discourse on growth and poverty thus far.

Viva Kennedy Ignacio M. García,2000 For a few brief months during the presidential campaign of 1960, Mexican Americans caught a glimpse of their own Camelot in the promise of John F. Kennedy. Grassroots Viva Kennedy Clubs sprang up not only in the southwestern United States but also across California and the upper Midwest to help elect the young Catholic standard bearer. The leaders of the Viva Kennedy Clubs were confident and hopeful that their participation in American democracy would mark the beginning of the end of discrimination, violence, and poverty in the barrio. Although the dream of attaching their own Camelot to Kennedy's ultimately ended in disappointment, these participatory efforts contributed to an identity-building process for Mexican Americans that led to greater emphasis on Americanization for some and to the more radical rhetoric of the Chicano Movement for others. In *Viva Kennedy*, Ignacio M. Garcia surveys the background, development, and evolution of the Viva Kennedy Clubs and their post-election incarnation as PASO, the Political Association of Spanish-Speaking Organizations. He argues that patriotic fervor of the 1940s and postwar economic expansion spurred middle-class Mexican Americans to strive for full inclusion in American society. Ironically, those involved in the Viva Kennedy movement showed their militancy in fighting discrimination even as they upheld America's conservative values. They believed that discrimination could be

overcome through government actions that recognized their civil rights and through their own political participation. Garcia describes the post-election problems of the Viva Kennedy reformers, who first saw the Kennedy administration ignore its campaign promises to them and then encountered their own factional squabbles, chronic funding problems, and a growing unease among Anglo Americans wary of Mexican American political power. Based on research and interviews with key leaders of the Viva Kennedy movement such as Ed Idar, Jr., Edward R. Roybal, and Albert Pena, Jr., this study unveils a portrait of a people in transition and provides a nuanced picture of twentieth-century Mexican American history.

Seventh-Day Adventists Answer Questions on Doctrine George R. Knight,2003 This completely new typeset of the monumental 1957 classic contains an extensive historical and theological introduction and detailed notations by George R. Knight, professor of church history at Andrews University.; Originally produced by the Ministerial Association of the General Conference of SDAs, Questions on Doctrine was widely acclaimed and heavily distributed in the late 1950s and early 1960s as a forthright answer to questions from evangelicals about key elements of Adventist doctrine. Controversy regarding the book's position on the nature of Christ and the atonement soon stopped its circulation.; Intended as a complete reference on the book itself, this new edition faithfully reproduces the original text of Questions on Doctrine, with in-text indicators of the original pagings. It includes later important documents that bring the work up to date. The original bibliography is followed by an updated selected bibliography. Commentary on various historical or bibliographic topics is included in new footnotes throughout the text, all while preserving the reading integrity of the original edition.; George Knight's introductory essays provide the background for how the book came about and describe the interaction of the principal players involved in the dispute about a small section of content that shelved this classic work for more than a generation.; This new edition of Question on Doctrine beautifully preserves this outstanding and winsome work of Adventist apologetics to future generations of scholars, laypersons, and critics. It is an essential element of every Adventist library.

Nephilim Crown 5G Apocalypse Dean Henderson,2019-07-16 Nephilim Crown 5G Apocalypse is an indictment of the computer revolution as simply the latest mechanism through which the royal bloodline families seek to control humanity. The roll out of their well-tested battlefield weapons system known as 5G represents the pinnacle in their use of electro-magnetic frequencies to literally remote control what these feudalists have for 8,000 years seen as their human herd. Since their intervention in Sumeria, these hybrid fallen angel Nephilim have usurped, steered and plundered all of Creation as self-appointed god/kings. The coming 5G apocalypse represents an opportunity for a great unveiling - the Greek meaning of apocalypse - of not only their nefarious 5G deception, but of the fraudulent Nephilim Crown itself. This book is written with the hope that it contributes to this great unveiling so that humanity will seize this moment not just to stop the 5G fourth industrial revolution of the Fourth Reich, but to emancipate itself from its Crown overlords.

The Occupation of Iraq Ali A. Allawi,2008-10-01 Involved for over thirty years in the politics of Iraq, Ali A. Allawi was a long-time opposition leader against the Baathist regime. In the post-Saddam years he has held important government positions and participated in crucial national decisions and events. In this book, the former Minister of Defense and Finance draws on his unique personal experience, extensive relationships with members of the main political groups and parties in Iraq, and deep understanding of the history and society of his country to answer the baffling questions that persist about its current crises. What really led the United States to invade Iraq, and why have events failed to unfold as planned? The Occupation of Iraq examines what the United States did and didn't know at the time of the invasion, the reasons for the confused and contradictory policies that were enacted, and the emergence of the Iraqi political class during the difficult transition process. The book tracks the growth of the insurgency and illuminates the complex relationships among Sunnis, Shias, and Kurds. Bringing the discussion forward to the reconfiguration of political forces in 2006, Allawi provides in these pages the clearest view to date of the modern history of Iraq and the invasion that changed its course in unpredicted ways.

Pandemic Disease in the Medieval World Monica Helen Green,2015 The plague organism (Yersinia pestis) killed an estimated 40% to 60% of all people when it spread rapidly through the Middle East, North Africa, and Europe in the fourteenth century: an event known as the Black Death. Previous research has shown, especially for Western Europe, how population losses then led to structural economic, political, and social changes. But why and how did the pandemic happen in the first place? When and where did it begin? How was it sustained? What was its full geographic extent? And when did it really end?

The Judgment Against Imperialism, Fascism and Racism Against Caliphate and Islam Khondakar Golam Mowla,2008-10 Where are Judges or Judgments with human conscious and high moral when about half of Iraqi population vanished since recent war against Iraq including millions children of Iraq for illegal sanction? Which means there is no justice for those who do not have WMD to attack or to defend own land or dollars or pounds to bribe or to buy few real Judges or Judgment with human conscious or moral. And without money you cannot buy a Judgment. Illegal Governors of present illegal Muslim or Arab client States are also responsible to host most powerful countries on earth with their army, air force and navy with deadly WMD in Muslim land, sea and air to invade Muslim land like Iraq and Afghanistan or to threaten Iran. There were no independent states like Iraq before First World War since those present illegal client States became part of Caliphate/Khilafah 1400 years ago. World Muslims never accepted those illegal Muslim or Arab client States which were created after First European War known as First World War. A policy of attacking the idea of the Caliphate by linking it with the political violence of the jihadi movement cannot eliminate its Koranic authority. The Islamic world may not totally agree with the armed method of the jihadi movement, but the Caliphate s linkage with the Koran is not in dispute. The political and non-violent aspect of the Islamic movement, considered the godfather of reviving the Caliphate idea, has deeper and wider appeal. An attack on the Caliphate is in effect considered an attack against Islam.[i] Readers also must judge on following fact prior to World War as Desert storm in 1991 and subsequent sanction against Iraq which killed millions children was wrong and it was internal matter of destroyed Caliphate. What about genocide in Iraq since 2003 for which half of Iraqi population are gone? What about millions killed in Indonesia after Sukarno was ousted? What about coup in Iran in 1953 which ousted democratic elected Prime Minister of Iran? What about genocide in Bangladesh in 1971 by same Pakistanis Army who is now doing same genocide in Northern Pakistan at this moment? And yet in another recent book 'THE SECRET HISTORY OF SADDAM'S WAR UNHOLY BABYLON BY ADEL DARWISH AND GREGORY ALEXANDER' published by Victor Gollancz Ltd, London, it is mentioned in pg. 3-4 that 'Britain had recognized Kuwait's independence on 19th June 1961, abrogating an agreement signed in 1899 which had made the emirate a British protectorate-..... the 1899 Anglo-Kuwait agreement signed by the former Sheikh of Kuwait for 15,000 Indian rupees from the British commissioner in Abadan., in pg. 6 it is mentioned 'Britain proceeded to establish posts and naval bases along the trade route to India via the Suez Canal, which was opened in 1866, and also signed exclusive agreements with Arab rulers throughout the Gulf. The first was with Bahrain in 1880, prohibiting the sheikhdom from making any treaties or agreements with any state other than Britain or establishing diplomatic relations with other countries without British consent. there have been 7,000 madrassas built ... and that's where bin Laden lives and we will go at him if we have actually (sic) intelligence.Seven thousand? Where on earth does this figure come from?It's an odd situation. Obama and Biden want to close down Iraq and re-conquer Afghanistan. The Palin College of Clich s characterised this as a white flag of surrender in Iraq while continuing to warn of the dangers of Iran, the name of whose loony president Ahmadinejad defeated McCain three times in last week's pseudo-debate.But it's the same old story. All we have learned in America these past two weeks, to quote Joan Littlewood's Oh! What a Lovely War, is that the war goes on.
