**If Anything Happens I Love You** Will McCormack, Michael Govier, 2022-09-27

Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

**Achtung-Panzer!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

I hate the way my body looks. Sound familiar? Like many women and men, perhaps you have tried virtually every weight-loss plan that exists only to give up in disappointment and despair. More importantly, they have maintained that weight with a new and incomparable peace with themselves and with the One who designed them. Thin Within makes it possible to: Identify and resolve issues that cause you to eat more than your body needs Leave diets behind forever Discover and enjoy those foods that promote health and vitality Experience the abundant life as you reach and maintain your natural God-given size

Dark Is the Sun Philip Jose Farmer,2012-06-18 Fifteen billion years from now, Earth is a dying planet, its skies darkened by the ashes of burned-out galaxies, its molten core long cooled. The sunless planet is nearing the day of final gravitational collapse in the surrounding galaxy. Mutations and evolution have led to a great disparity of life-forms, while civilization has resorted to the primitive. Young Deyv of the Turtle Tribe knew nothing of his world's history or its fate. He lived only to track down the wretched Yawtl who had stolen his precious Soul Egg. Joined by other victims of the same thief - the feisty Vana and the plant-man Sloosh - the group sets off across a nightmare landscape of monster-haunted jungle and wetland. Their search leads them ultimately to the jeweled wasteland of the Shemibob, an ageless being from another star who knows Earth's end is near and holds the only key to escape.

**Russia Under the Old Regime** Richard Pipes,1992 The author traces with compelling detail the evolution of the Russian state, where the Tsar claimed to own the land and its inhabitants as if they were his own personal property. Professor Pipes analyzes the political behavior of Russia's peasantry, nobility and bourgeoisie as well as its clergy, showing why none of them could limit the absolute power of the state. He discusses how the intelligentsia challenged the Tsars' power, leading to increased repression and Russia's development as a bureaucratic police state. This sweeping epic brings Russia's turbulent history to life and helps us better understand the roots of modern Russia.
