**The Necronomicon** Simon,1980-03-01 In the past 31 years, there has been a lot of ink—actual and virtual—spilled on the subject of the Necronomicon. Some have derided it as a clumsy hoax; others have praised it as a powerful grimoire. As the decades have passed, more information has come to light both on the book's origins and discovery, and on the information contained within its pages. The Necronomicon has been found to contain formula for spiritual trans-formation, consistent with some of the most ancient mystical processes in the world, processes that were not public knowledge when the book was first published, processes that involve communion with the stars. In spite of all the controversy, the first edition sold out before it was published. And it has never been out of print since then. This year, the original designer of the 1977 edition and the original editor have joined forces to present a new, deluxe hardcover edition of the most feared, most reviled, and most desired occult book on the planet.

**Necronomicon Spellbook** Simon,1998-10-01 The mighty powers invoked by this eldritch tome are really long-forgotten psychic abilities, able to affect the most basic needs and desires, including Love, Wealth, Peace of Mind, and Protection Against Enemies. But now comes a guide that enables anyone to pick up the book and use its ineluctable power without fear or risk according to editor Simon.

**The Egyptian Book of the Dead Tarot** Js Moore,2020-09-30 This guidebook

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of

independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
