Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Hover Car Racer Matthew Reilly,2021 In the world of the near future, the most popular sport in the world is hover car racing. This is the story of Jason Chaser, a talented young racer selected to attend the Race School. He's younger than the other students. He's smaller. His trusty car, the Argonaut, is older. But Jason Chaser is no ordinary racer. And as he races against the best drivers in the world he will learn that at Race School winning is everything, that not everyone in this world fights fair, and that you never ever have any friends on the track.
