Grand Prix Cars Denis Jenkinson,2015-10-02 " In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties – such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes – the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ..." Grand Prix Ford Graham Robson,2015-10-09 In 1965, Colin Chapman persuaded Ford to underwrite development of a V8 for the new 3000cc Grand Prix formula. Built by Cosworth, the new DFV engine won Lotus four World Championship Grands Prix in 1967. A year later, and now available to other constructors, the engine began its domination of Grand Prix racing.

Brabham BT52 Owners' Workshop Manual 1983 (all models) Andrew van de Burgt,2016-02-01 Designed to suit new regulations, after ground-effect cars were banned at the end of 1982, the BT52 was very distinctive, with short, angular sidepods and a dart-shaped profile. During the 1983 season, the innovative Brabham team, with now F1 supremo Bernie Ecclestone at the helm, introduced the first high-pressure fuel rig seen in F1, to speed up refuelling stops, and used 'ovens' to pre-heat tyres prior to pitstops. This manual provides a fascinating insight into the design, evolution, operation and maintenance of the Brabham BT52.

Ferrari Racecars 1966-1983 William Taylor,2013-12-01 Taken by motor sports photographer Ian Catt, the historic images are an accumulation of twenty years of being at the right place at the right time, capturing the very essence of both Formula 1 and World Championship Sportscar racing during this heady period. Working for a leading sponsor Ian had the chance to capture the cars both in motion on the track, as well as in the pits and paddock, where he could 'get up close' to both the cars and drivers.

The Last Road Race Richard Williams,2004 The 1957 Pescara Grand Prix marked the end of an era in motor racing. Sixteen cars and drivers raced over public roads on the Adriatic coast in a three-hour race of frightening speed and constant danger. Stirling Moss won the race, beating the great Juan Manuel Fangio (in his final full season) and ending years of supremacy by the Italian teams of Ferrari and Maserati. Richard Williams brings this pivotal race back to life, reminding us of how far the sport has changed in the intervening fifty years. The narrative includes testaments from the four surviving drivers who competed - Stirling Moss, Tony Brooks, Roy Salvadori and Jack Brabham. This is a brilliant account of one of the great sporting events of the last century, at a time when for a grand prix driver 'the chances of survival were statistically no better than those of a Battle of Britain fighter pilot'.

Senna Versus Prost Malcolm Folley,2009-05-07 In the late eighties and early nineties, Formula One was at its most explosive, with thrilling races, charismatic drivers, nail-biting climaxes - and the most deadly rivalry ever witnessed in sport. Two of Formula One's most honoured champions and iconic figures drove together for McLaren for two seasons, and their acrimonious and hostile relationship extended even after one of them had left the team. ALAIN PROST, France's only F1 world champion, the intelligent, smooth driver with the epithet 'Le Professeur'. Ayrton Senna, the mercurial kid from a privileged background in Sao Paulo who would become the most intense and ruthless racing driver the world has ever seen. It was a story that would have a tragic ending. As the great rivals raced to victory, their relationship deteriorated badly, beginning with the breaking of a gentleman's agreement, and public spats followed, culminating in Prost accusing Senna of deliberately trying to ride him off the circuit, and fearful that the Brazilian would get someone killed with his daring overtaking feats. And the final, sad act of this drama happened at the San Marino Grand prix at Imola in May 1994, when Senna was killed. Featuring a rare interview with Prost, and insight from Martin Brundle, Damon Hill, Sir Frank Williams, Bernie Ecclestone, Derek Warwick, Johnny Herbert, Gerhard Berger, plus McLaren insiders and other F1 figures, Malcolm Folley provides us with a breath-taking account of one of the all-time classic sporting rivalries.

The Formula One Pack Ron Van der Meer,Adam Cooper,1999 Detailed pop-up spreads, interactive elements, 3D glasses, a CD of racing sounds, and a collection of informative booklets provide a unique view of the sport of Formula One racing. This pack brings to life the excitement of the Formula One experience. The first large paper sculpture recreates the famous Fangio driving his Maserati 250F. Another feat of paper engineering shows us the

inside of an Arrows transporter, revealing how cars are packed into the trailer. No amount of detail is spared as a turn of the page provides an intricate look inside a modern Formula One cockpit, putting us in the driver's seat. All the details of a pit stop can be viewed on a pop-up in which each crew member plays out his clearly defined role. In a treat for the true Formula One enthusiast, a complete three-dimensional Ferrari pop-up shows the genuine complexities of the vehicle. The final spread allows us to rotate the crankshaft of a V10 racing engine to see the pistons in action. The inclusive booklets, driver cards, and racetrack plans give detailed factual information that every Formula One fan will value. Red/blue filter glasses, included in the pack, give an x-ray view of the internal working of the modern racing car and allow diagrams of good and bad driving techniques to come to life on the page. All of this can be enjoyed to the background sounds of a CD recording of a day at the races.

Racing Camaros Steve Holmes,2021-03-12 Chevrolet created the Camaro in response to the runaway sales success of the Ford Mustang, the first pony car. The Mustang went on sale in April 1964, and by August that same year, General Motors launched an intensive program to bring its own pony car to market. In September 1966, the Camaro went on sale. Chevrolet wanted the Camaro to be better than the Mustang in every area, including style, ride-quality, and performance. To that end, with the Mustang having already achieved so much racing success, Chevrolet wanted to beat it on the track also. *Racing Camaros: An International Photographic History 1966 - 1984* is a photographic celebration of road racing Camaros throughout the world. It focuses on production-based cars, rather than the heavily modified tube-frame silhouette machines that began appearing in the late 1970s. Included are images of big-budget factory-supported cars competing in the Trans-Am series, right through to low-buck independents, and cars competing throughout the world. For the first time, the international road racing representation of the Camaro is featured in a book, which includes countless photos that have never been published. Technical detail is provided throughout, from concept and design, right through its racing career, and the challenges and developments that took place to make it a winner. Only period images have been used. This is a true photographic history depicting the global popularity of the Chevrolet Camaro as a road racing car.
Brothers Rodriguez Carlos Jalife,2009 Exhaustive research and extensive interviews presents a carefully realized, painstakingly accurate portrait of Pedro and Ricardo Rodriguez. Photographs show the brothers at every stage of their lives, from childhood until their early deaths, and in all forms of competition.
