Nigel Bennett

Grand Prix Cars Denis Jenkinson,2015-10-02 “ In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties — such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes — the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)

Inspired to Design Nigel Bennett,2013-10-15 Nigel Bennett’s unique autobiography describes his life and career, from growing-up influenced by car design, to his education and the building of his 750 specials. He describes his work as Firestone Development Manager, recounting many tales of the outstanding designers and drivers of the period. Detailing his work in Formula 1, as a Team Lotus engineer, and then as Team Ensign designer, he also covers his Indycar designs at Theodore, Lola Cars and Penske Cars. Life after his retirement, his involvement in boat design and with modern F1 teams, are also recounted.

McRae Colin McMaster,David Evans,2013-09-24

Racing Camaros Steve Holmes,2021-03-12 Chevrolet created the Camaro in response to the runaway sales success of the Ford Mustang, the first pony car. The Mustang went on sale in April 1964, and by August that same year, General Motors launched an intensive program to bring its own pony car to market. In September 1966, the Camaro went on sale. Chevrolet wanted the Camaro to be better than the Mustang in every area, including style, ride-quality, and performance. To that end, with the Mustang having already achieved so much racing success, Chevrolet wanted to beat it on the track also. *Racing Camaros: An International Photographic History 1966 - 1984* is a photographic celebration of road racing Camaros throughout the world. It focuses on production-based cars, rather than the heavily modified tube-frame silhouette machines that began appearing in the late 1970s. Included are images of big-budget factory-supported cars competing in the Trans-Am series, right through to low-buck independents, and cars competing throughout the world. For the first time, the international road racing representation of the Camaro is featured in a book, which includes countless photos that have never been published. Technical detail is provided throughout, from concept and design, right through its racing career, and the challenges and developments that took place to make it a winner. Only period images have been used. This is a true photographic history depicting the global popularity of the Chevrolet Camaro as a road racing car.

The British at Indianapolis Ian Wagstaff,2010-12-15 *The British at Indianapolis* recounts the history of the Indianapolis 500 race through the eyes and actions of those British born or British citizens who have driven in it, or been involved in any other way – be it as a designer, mechanic, or official. It also examines the British built cars that have won the Indy 500 and the significance of the rear engined revolution brought to the Indianapolis Motor Speedway by Cooper in 1961, and elevated to success by Lotus and Lola. It includes such names as Jim Clark, Graham Hill, Nigel Mansell and 2010 Indy 500 champion, and two times winner, Dario Franchitti.

Alain Prost Maurice Hamilton,2015-09-24 Four-time Formula One Drivers' Champion Alain Prost is one of the best racing drivers of all time. Having discovered karting at the

age of 14 during a family holiday, Prost progressed through motorsport's junior ranks, winning the French and European Formula Three championships, before joining the McLaren Formula One team in 1980 at the age of 24. In his six seasons with McLaren, Alain Prost won 30 races and three driving titles and in 1985 he became the first French World Champion. In 1986 he became the first back-to-back champion since Jack Brabham 26 years earlier. In 1987, his 28th Grand Prix victory beat Jackie Stewart's 14-year-old record. However, in 1988 his brilliant new team mate Ayrton Senna won eight races and the driving title. Thus began the sensational rivalry that conspired to push two of the sport's greatest drivers to unprecedented heights of success and controversy, and the most bitter feud in Formula One history.

Automotive Art Project JAMES. RENDLE. PAGE, Steve Rendle, 2021-03 Claude Nahum was brought up surrounded by all things automotive. The son of Bernar Nahum, considered to be the father of the Turkish automotive industry, Claude was fascinated by cars and engineering from an early age. Claude's career led him into automotive design, research and engineering, before eventually heading and growing the Kiraça group trading company in Europe, all the while maintaining his link with the automotive world. As Claude's career progressed, he began collecting and racing cars, and the growth of his stable led to him establishing The N Collection. Wishing to create a distinctive tribute to his favourite cars, Claude commissioned six leading artists, and gave them free rein to depict each of 25 cars from his collection in their own inimitable style. The Automotive Art Project showcases that work.

The Light Car Company Rocket Clive Neville, 2020-09 The Light Car Company Rocket was the brainchild of former racing driver Chris Craft and design genius Gordon Murray, who relentlessly chased his goal of building the lightest production road car of all time. Starting with a clean sheet of paper, Murray's unique creation made extensive use of bespoke components and was crammed with the technological brilliance for which he's renowned. Today, it has a cult following and is recognised by die-hard enthusiasts and the motoring cognoscenti as being a landmark achievement in sports car history. Written by Rocket owner Clive Neville and designed by Rick Ward - the man who originally penned the car's badge and all of its publicity material - this book tells the full history of a fascinating car.

Cooper Mike Lawrence, 2000-04-01 Concert program.

F1 Images Daniele Amaduzzi, Alberto Borsieri, 1986

Ferrari 1947-1997 Gianni Cancellieri, 1998 This is a collector's book on five decades of engineering innovation- body, engine, drive-train and chassis with the background to Ferrari's history as a car manufacturer traced decade by decade. Testimonials and memoirs from early drivers are listed and included is a cutaway series depicting the most famous Ferrari road and competition cars. Appendices list technical details, production output, drivers, major race victories and international championships.
