Grand Prix Cars Denis Jenkinson,2015-10-02 “ In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties — such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes — the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)

A Monastic Renaissance at St Albans James G. Clark,2004-12-09 A Monastic Renaissance at St Albans is a study of intellectual life at the abbey of St Albans - one of Britain's greatest Benedictine monasteries - during the lifetime of Thomas Walsingham (c.1340-1422), one of the most prolific scholars of the later middle ages. It has always been assumed that the monasteries fell into decline long before the dissolution and that cultural and intellectual activities were largely abandoned as the monks surrendered themselves to high living and low morals. This study challenges this view. Drawing on a wide variety of manuscript sources, it shows that education, independent study, and even the co-ordinated copying of books continued to flourish at St Albans (and its affiliate houses) for much of the fourteenth and fifteenth centuries. In fact the abbey emerged as one of the country's most influential centres of learning, a clearing-house for books and ideas in Ricardian and Lancastrian England. Thomas Walsingham himself played a key part in this renaissance in monastic studies; his works were copied and circulated throughout the St Albans network and his influence acted upon the next generation of monastic readers and writers. Walsingham was not only a compiler of contemporary chronicles but also a Classical scholar of extraordinary originality. His commentary on Ovid's *Metamorphoses*, his re-working of the histories of Alexander of Macedon and the Trojan War, and his *Genealogia deorum gentilium*, are discussed in detail here for the first time. Walsingham's interest in the Classics was shared by many of his St Albans colleagues, and they in turn were members of a wider circle of literary scholars, which included the London schoolmaster, John Seward. The work of these scholars, monastic and secular, points towards a revival of Classical and literary scholarship in England long before Italian humanism and other traces of the continental Renaissance first found their way into the country.

Impacts of Invasive Species on Coastal Environments Christopher Makowski, Charles W. Finkl,2018-07-24 This book focuses on the global threats to coastal environments from invasive, non-native species and examines how these alien biological species adversely alter landscapes and socioeconomic conditions as well as the psychological attitudes and perceptions of local inhabitants and tourists. Designed for the professional or specialist in marine science, coastal zone management, biology, and related disciplines, this volume appeals to those not only working directly with invasive flora and fauna species, but also those individuals involved in a wide array of coastal related fields. Examples and case studies of coastal invasive species are drawn from many different geographic areas worldwide, including North and South America, Europe, Oceania, the Caribbean, Southeast Asia, and Africa.

Microorganisms in Home and Indoor Work Environments Brian Flannigan, Robert A. Samson, J. David Miller,2002-01-03 Despite the large amount of money spent on research into pollution of the indoor environment, the problem remains complex with major gaps in our knowledge of the identities and sources of pollutants and of the effects of prolonged exposure to indoor pollutants on health. *Microorganisms in Home and Indoor Work Environments* considers one such group o

Jim Clark Eric Dymock,2017-04-01 Out of print for twenty years, a new edition of Jim Clark 'Tribute to a Champion' by Eric Dymock will be published in the spring. Lightly edited and completely redesigned in colour throughout, this eagerly sought classic of motor racing celebrates the life and achievements of Jim Clark (1936-1968), World Champion 1963 and 1965. In the new book, Eric Dymock details his place in motor racing history and total command of Formula 1, portraying him as an individual, nail-biting and insecure, yet the greatest driver in any sort of motor sport. From a Scottish farming family Clark rewrote the annals of American racing at Indianapolis, coming second at his first attempt in 1963, winning in 1965. He seemed a match for any odds during eight dangerous years at the top of motor racing, yet died in an unlikely accident at a minor event at Hockenheim on April 7th 1968. Genius at the wheel was not enough. Rivals' subsequent safety campaigns saved countless lives on and off the track. Eric Dymock observed Clark from before he ever sat in a racing car, covering his professional career as member of The Motor magazine staff from 1962, and then as specialist motor racing correspondent from 1966. This book has photographs of Jim Clark's birthplace, home, memorabilia and archive material from the Jim Clark Room at Duns. The measured analysis throws light on the tense mood of Formula 1 in the hazardous 1960s when Clark narrowly missed four consecutive world titles. Misfortune in the closing laps of the final race of the season twice denied him a unique quartet. Some of his other records remain secure however. Clark's eight grand slams (pole position, leading every lap, fastest lap and winning a Grand Prix - his closest rivals Alberto Ascari and Michael Schumacher managed only five) is unlikely to be matched. The new edition will go on sale in the spring at regular bookshop prices for a new generation of Formula 1 fans, as the 50th anniversary of Clark's accident approaches.

Formula 1 Car by Car 1990-99 Peter Higham,2021-05-18 The formative years of the 1950s are explored in this fourth installment of Evro's decade-by-decade series covering all Formula 1 cars and teams. When the World Championship was first held in 1950, red Italian cars predominated, from Alfa Romeo, Ferrari and Maserati, and continued to do so for much of the period. But by the time the decade closed, green British cars were in their ascendancy, first Vanwall and then rear-engined Cooper playing the starring roles, and BRM and Lotus having walk-on parts. As for drivers, one stood out above the others, Argentine Juan Manuel Fangio, becoming World Champion five times. Much of the fascination of this era also lies in its numerous privateers and also-rans, all of which receive their due coverage in this complete work. Year-by-year treatment covers each season in fascinating depth, running through the teams -- and their various cars -- in order of importance. Alfa Romeo's supercharged 1.5-litre cars dominated the first two years, with titles won by Giuseppe Farina (1950) and Fangio (1951). The new marque of Ferrari steamrollered the opposition in two seasons run to Formula 2 rules (1952-53), Alberto Ascari becoming champion both times, and the same manufacturer took two more crowns with Fangio (1956) and Mike Hawthorn (1958). Maserati's fabulous 250F, the decade's most significant racing car, propelled Fangio to two more of his five championships (1954 and 1957). German manufacturer Mercedes-Benz stepped briefly into Formula 1 (1954-55) and won almost everything with Fangio and up-and-coming Stirling Moss. Green finally beat red when the Vanwalls, driven by Moss and Tony Brooks, won the inaugural constructors' title (1958). Then along came Cooper, rear-engine pioneers, to signpost Formula 1's future when Jack Brabham became World Champion (1959).

Staying on Track Nigel Mansell,2015-09-24 After finishing as runner-up three times in the drivers' world championship, in 1992 Mansell finally secured the title. It was the crowning achievement of a hugely successful career, in which he won 31 Grand Prix, a record for a British driver that stood until Lewis Hamilton overhauled him in 2014. Always an aggressive driver, his exciting style meant he was hailed as a hero by his millions of fans in the UK and around the world. Out of the car, he was outspoken and charismatic, which merely served to enhance his reputation. Now, 20 years after he retired from F1, Mansell looks back on a stellar career in which he battled against many legends of the sport, from Lauda through the Senna and Prost years and on to Schumacher. He provides vivid insights into what it was like to race against those greats in an era when the risks to drivers were enormous. He explains what motivated him to get to the top, and takes the reader behind the scenes to give an unrivalled insight into the sport and the key moments of his career. Still closely involved in Formula One, Mansell assesses how F1 has changed, and gives his authoritative verdict on the sport, the cars and the drivers. It is an unmissable account from one of Britain's greatest sporting heroes.

Stirling Moss Scrapbook 1955 Stirling Moss,Philip Porter,2007-09-01 The Stirling Moss Scrapbook 1955 is packed with intriguing detail, superb illustrations and a plethora of period cuttings from around the world. Throughout his career he created his personal scrapbooks, several volumes per year, and he kept a diary and photo albums, too. This book dips into his personal records and is spiced throughout with treasures to delight and fascinate. These are supplemented by period comments and many of his anecdotes. Moss has a fund of stories and is refreshingly non-PC!

The Life of Senna Tom Rubython,2011-10 This is an illustrated account of Formula One driver Ayrton Senna's life. It examines every detail - from his early days, to his first race and on to his world championships to his pole positions and finally his death and its aftermath.

Motorcycles, Mates and Memories Bill Snelling,2021-09-14 Bill Snelling reflects on his lifetime passion for two-wheeling in this entertaining, motorcycle-themed autobiography. He recalls the decades of motorcycling mayhem, mud and madness that have characterised his 70-odd years living the dream, from the early days at Arthur Lavington’s Velo shop to pounding the long-distance trials and the many race circuits he has ridden. Bill admits he was better off-road than on tarmac, but he did win one race! He went on to work for Motorcycle Sport magazine, and as a dispatch rider, before moving permanently to the Isle of Man. A great read for anyone interested in British motorcycle sports.

The British at Indianapolis Ian Wagstaff,2010-12-15 The British at Indianapolis recounts the history of the Indianapolis 500 race through the eyes and actions of those British born or British citizens who have driven in it, or been involved in any other way - be it as a designer, mechanic, or official. It also examines the British built cars that have won the Indy 500 and the significance of the rear engined revolution brought to the Indianapolis Motor Speedway by Cooper in 1961, and elevated to success by Lotus and Lola. It includes such names as Jim Clark, Graham Hill, Nigel Mansell and 2010 Indy 500 champion, and two times winner, Dario Franchitti.

Formula 1: Car by Car Peter Higham,2018-03-20 This book is the second in a multi-volume, decade-by-decade series covering the entire history of Formula 1 through its teams and cars. This instalment examines the 1970s, when the sport gained big new sponsors and grew into a television spectacle, with battles between Ferrari and Cosworth-powered opposition a continuing theme. As well as the big championship-winning teams--Lotus, Ferrari, McLaren and Tyrrell--this was a period when small teams and privateers continued to be involved in significant numbers and they are all included, down to the most obscure and unsuccessful. This book shines new light on many areas of the sport and will be treasured by all Formula 1 enthusiasts.

The New Formula One Niki Lauda,1984

Alain Prost Maurice Hamilton,2015-09-24 Four-time Formula One Drivers' Champion Alain Prost is one of the best racing drivers of all time. Having discovered karting at the age of 14 during a family holiday, Prost progressed through motorsport's junior ranks, winning the French and European Formula Three championships, before joining the McLaren Formula One team in 1980 at the age of 24. In his six seasons with McLaren, Alain Prost won 30 races and three driving titles and in 1985 he became the first French World Champion. In 1986 he became the first back-to-back champion since Jack Brabham 26 years earlier. In 1987, his 28th Grand Prix victory beat Jackie Stewart's 14-year-old record. However, in 1988 his brilliant new team mate Ayrton Senna won eight races and the driving title. Thus began the sensational rivalry that conspired to push two of the sport's greatest drivers to unprecedented heights of success and controversy, and the most bitter feud in Formula One history.
