### **Motorcycles, Mates and Memories** Bill

Snelling, 2021-09-14 Bill Snelling reflects on his lifetime passion for two-wheeling in this entertaining, motorcycle-themed autobiography. He recalls the decades of motorcycling mayhem, mud and madness that have characterised his 70-odd years living the dream, from the early days at Arthur Lavington's Velo shop to pounding the long-distance trials and the many race circuits he has ridden. Bill admits he was better off-road than on tarmac, but he did win one race! He went on to work for Motorcycle Sport magazine, and as a dispatch rider, before moving permanently to the Isle of Man. A great read for anyone interested in British motorcycle sports.

**St. James Encyclopedia of Popular Culture** Thomas Riggs, 2013 The St. James Encyclopedia Of Popular Culture, 2nd ed., updates and augments the over ten-year-old first edition. It includes 3,036 signed essays (300 of them new), alphabetically arranged, and written or reviewed by subject experts and edited to form a consistent, readable, and straightforward reference. The entries cover topics and persons in major areas of popular culture: film; music; print culture; social life; sports; television and radio; and art and performance (which include theater, dance, stand-up comedy, and other live performance). The entries analyze each topic or person's significance in and relevance to American popular culture; in addition to basic factual information, readers will gain perspective on the cultural context in which the topic or person has importance.

**Toward a Sociology of Education** John Beck, Chris  
Jenks, Nell Keddie, Michael F. D. Young, 2020-03-10 By  
including material from literary, philosophical, and  
anthropological sources, and by selecting readings which  
consider educational practice both within and beyond  
formal educational contexts, this book broadens the  
character of sociological inquiry in education. The editors  
bring together material they have found valuable when  
working with students of education and sociology at all  
levels. Many of these articles and extracts are either  
inaccessible or have not been reprinted. The collection  
should stimulate inquiry about the assumptions underlying  
current debates on curriculum, streaming, school  
organization, methods of teaching, and preconceived notions  
of ability.

**English as a Medium of Instruction in Postcolonial Contexts** Lizzi O. Milligan, Leon Tikly, 2018-10-16 Almost all low- and middle-income postcolonial countries now use English or another dominant language as the medium of instruction for some, if not all, of the basic education cycle. Much of the literature about language-in-education in such countries has focused on the instrumentalist value of English, on one side, and the rights of learners to high quality mother tongue-based education, on the other. The polarised nature of the debate has tended to leave issues related to the processes of learning in English as a Medium Instruction (EMI) classrooms under-researched. This book aims to provide a greater understanding of the existing challenges for learners and educators and potential strategies that can support more effective teaching and learning in EMI classrooms. Contributions illustrate the impact that learning in English has on learners in a range of

regional, national and local contexts and put forward theoretical and empirical analyses to support more relevant and inclusive educational policies. This volume was originally published as a special issue of Comparative Education.
