**The Challenge of Diversity: Involvement Or Alienation in the Academy?** Daryl G. Smith,Lisa Wolf-Wendel,2005-05-18 A new edition of *The Challenge of Diversity* with new introduction from the editors, which compares today's statistics to those in 1989. The original monograph is still valuable and relevant, and it is presented in its original form. In 1989 when *The Challenge of Diversity* was first published, the monograph made the case that the country's changing demographics required reframing diversity to focus on institutions' capacity to educate and involve an increasingly diverse student population. Looking at current research, the book pointed to patterns of alienation, not involvement. Our demographics are indeed different today, but many of the same challenges remain: access and success for historically underrepresented minority groups, but also the basic institutional issues such as curriculum, climate, and hiring. At the same time, the context has changed: nontraditional students (older students, women, and part-timers) are now mainstream, and numbers of some minority groups and multiracial students continues to grow. While higher education has changed profoundly, our institutions still have not yet developed the capacity to successfully educate the diversity of students present on our campuses today. In addition, we are experiencing a backlash to some diversity initiatives, and societal factors indicate that higher education needs to become more proactive in responding favorably to diversity. If the monograph were first published today, we would call it *The Imperative of Diversity*. This is Volume 30 Issue 6 of the Jossey-Bass series ASHE Higher Education Report.

**The Semantics of Metaphor** Samuel R. Levin,2019-12-01 Originally published in 1977. *The Semantics of Metaphor* presents a theory for the metaphoric construal of deviant sentences. The theory has two aspects. The first relates to metaphor considered as a productive process of language and describes the mechanisms that operate in its semantic interpretation. This part of the theory is presented in chapters III and IV. The second aspect bears on metaphor considered in the context of poetry and develops a conception of metaphoric truth. This part of the theory is presented in chapters VI and VII. The study is semantic in the sense of dealing with both meaning and truth as these properties pertain to metaphor. Of the remaining chapters, the first isolates certain problems of a pragmatic nature from the central semantic concern, chapter II follows with a survey of recent scholarship on the question of semantic deviance, and chapter V compares the theory expounded in chapters III and IV with three other accounts of metaphor.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

*Hush* Eishes Chayil,2010-09-14 Inside the closed community of Borough Park, where most Chassidim live, the rules of life are very clear, determined by an ancient script written thousands of years before down to the last detail-and abuse has never been a part of it. But when thirteen-year-old Gittel learns of the abuse her best friend has suffered at the hands of her own family member, the adults in her community try to persuade Gittel, and themselves, that nothing happened. Forced to remain silent, Gittel begins to question everything she was raised to believe. A richly detailed and nuanced book, one of both humor and depth, understanding and horror, this story explains a complex world that remains an echo of its past, and illuminates the conflict between yesterday's traditions and today's reality.
