Department of Management Studies

Driving the Economy through Innovation and Entrepreneurship Department of Management Studies, 2017-05-04 Modern technologies are central to creation of wealth through business expansion leading to economic development. This is visible in the fast-paced technology-induced economic growth experienced by most countries, especially by rapidly growing economies such as India, China, Brazil, South Korea, among others. Increasing individual scientific contribution, nurturing entrepreneurial talent, promoting innovative competence, strategically prioritizing and investing in technologies and enhancing national economic wealth are some of the important Technology Management goals. Technology Management has emerged as a strategic and knowledge domain of interest to academicians, practitioners, and policy makers across the globe. Technology Management has also evolved into an inter-disciplinary concern which requires national and international collaborations and exchange of insights. Keeping this objective in mind the International Conference on Technology Management is organized by the Department of Management Studies, Indian Institute of Science, Bangalore, a leader in research and education in Technology Management for the last several decades. This conference aims at integrating experiences of academicians, industry leaders, Technology Managers and Innovators towards effective knowledge creation and economic development. The contributions of the present volume are presented at the International Conference on Technology Management-2012 during 18-20 July 2012.

Everyone Has a Story Savi Sharma, 2016

UNTOLD LOVE MIHIR BOMMISSETTY, 2018-06-22 Memory is a way of holding onto the things you love, the things you are, the things you never want to lose. The morning, I saw today at my college has also become a memory to be remembered as the last morning of my college days. How strange are those old recollections that haunt us, without our being able to get rid of them! Today, I feel lucky to have a plenty of good friends. In my engineering life, I solved friendship equations along with several mathematical equations to get a good job, and plenty of good friends. Mukul, a tall, pretty guy, and roommate of my hostel room took few months to be my best friend, and I miss him the most after completion of my B.Tech life.
