Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Ferrari 250 GTO Keith Bluemel, 2017-08-01 This magnificent book tells the story of a Ferrari 250 GTO with a particularly interesting and varied history. The car, chassis number 4153 GT, came fourth in its first outing at the Le Mans 24 Hours in 1963, and won the 10-day race-cum-rally Tour de France in 1964 with Lucien Bianchi and Georges Berger. It competed in almost every form of motorsport, including the Angolan Grand Prix, Africa in 1964, and endurance racing, hill-climbing and rallying in 1965, entered by the great Belgian team Ecurie Francorchamps. In 1966-69, it raced in Spain with owner Gerard Delgado and his friend Eugenio Baturone, a period that is described here for the first time. All this is covered in fascinating detail, supported by a fine collection of period photographs.

Brothers Rodriguez Carlos Jalife, 2009 Exhaustive research and extensive interviews presents a carefully realized, painstakingly accurate portrait of Pedro and Ricardo Rodriguez. Photographs show the brothers at every stage of their lives, from

childhood until their early deaths, and in all forms of competition.

Sun Bread Elisa Kleven, 2004-03-30 Winter's gray chill has set in and everyone misses the sun-especially the baker. So she decides to bring some warmth to the town by making sun bread. And as the bread bakes, rising hot and delicious, everyone comes out to share in its goodness. Everyone, including the sun itself. With a lilting, rhyming text, colorful illustrations, and a recipe for baking your own sun bread, this tasty treat from the illustrator of the best-selling *Abuela* is just right for all ages to enjoy.

The Courageous Follower Ira Chaleff, 2009-11 For every leader there are dozens of followers working closely with them. This updated third edition speaks to those followers and gives them the insights and tools for being effective partners with their leaders.

Drawings on a Bus Ellsworth Kelly, 2007 This reproduction of Ellsworth Kelly's 1954 Sketchbook 23 offers a rare glimpse into the celebrated artist's rigorous exploration of line, form and composition. Drawn into a blank book and forming a single continuous gesture over 25 pages as the artist saw and captured the changing fall of shadows while riding on a bus in Paris, Kelly's line pursues a path of eccentric discovery and distillation through subtle variations and bold transformations.

Ferrari 1947-1997 Gianni Cancellieri, 1998 This is a collector's book on five decades of engineering innovation- body, engine, drive-train and chassis with the background to Ferrari's history as a car manufacturer traced decade by decade. Testimonials and memoirs from early drivers are listed and included is a cutaway series depicting the most famous Ferrari road and competition cars. Appendices list technical details, production output, drivers, major race victories and international

championships.

International Law Lori Fisler Damrosch, 2001 Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. Cases and Materials on International Law offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law.
