Grand Prix Cars Denis Jenkinson, 2015-10-02 “ In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties — such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes — the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)

To Hell and Back Niki Lauda,2020-02-27 Niki Lauda drove a car for sport, but crossed the line between life and death and fought back to even greater glory. Even people who know nothing of Formula One have heard of his crash at Nurburgring in 1976, when he was dragged from the inferno of his Ferrari so badly injured he was given the last rites. Within 33 days, he was racing again at Monza. His wounds bled, he had no eyelids. He was terrified. A year later, he reclaimed his World Championship title. In *To Hell and Back* he reveals how he battled fear to stage a comeback that seemed beyond human endurance. Then it's Lauda vs Hunt, an epic rivalry later dramatized in 2013's Hollywood blockbuster *Rush*, and he looks back on the strict childhood and parental disapproval that he believes gave him an 'addiction to excellence'. There'll never be another like him.

Bruce McLaren Bruce McLaren,2018-01-09 Originally published in 1964, Bruce McLaren's autobiography *From the Cockpit* is a classic motor racing memoir. So scarce and expensive are original copies that Evro Publishing, in collaboration with McLaren, is reissuing a facsimile version for all fans to enjoy. In his own words, Bruce describes his inspiring climb up the ladder of motor racing success, culminating in the inception of Bruce McLaren Motor Racing Ltd in 1963. Engaging to read, his book provides fascinating insight into not only his accomplishments but also his unique character, charm and tenacity. In his own words, 'Life is measured in achievement, not in years alone.' Overcoming childhood illness: a rare disease stopped Bruce walking for two years and meant long spells in hospital. Early competition in New Zealand with a modified Austin Seven. The recipient of New Zealand's first 'Driver to Europe' scheme, his results in his first season away from home included fifth place in the 1958 German Grand Prix with a works Cooper. McLaren became the youngest Grand Prix winner in the 1959 United States GP for Cooper, as team-mate to Jack Brabham in the year the Australian won his first World Championship title. The ups and downs of his life in Formula 1 up to the end of 1963, from winning at Monaco in 1962 to crashing at the Nurburgring and ending up in hospital - where the idea for this book was born. The story concludes with the formation of his own team, initially to run modified Cooper chassis, and Bruce's emotional victory in the 1964 New Zealand Grand Prix.

Driven by Desire Alan Wilson,2011-10-15 From a five-year-old girl racing 60mph micro-midgets in South Africa, to a Formula One driver in the British Championship during her first full year of racing in the UK, and on to becoming the first and only woman ever to win a Formula One race, Desire Wilson was a winner bested by very few of her male rivals. But single-seater racing was just the start of Desire's ascent in motorsport. She won two FIA World Championship Sports Car Endurance races in 1980, and went on to compete in well over 120 types of race car at more than 100 race tracks around the world. Always competitive, she earned a reputation for an intense, no-nonsense approach to racing, shrugging off the media glamour to focus on the hard grind of staying competitive in one of the world's toughest sporting arenas. Moving to the male-dominated world of North American racing, Desire became a pioneer for women racing in the harsh world of Indy Cars, facing discrimination, financial problems, and other obstacles ranging from tragedy to farce. Her career is unique in the world of racing, encompassing everything from club racing to Formula One and World Championship sports cars, to the evil monsters of the IndyCar World Series - the world's fastest race cars. Hers is a story of hardships, fun, tragedy, perseverance, injury, and the amazing behind-the-scenes world masked by the public face and glamour of racing. It tells, too, of the consequences of politics and discrimination in the male world of professional auto racing.

McLaren MP4/4 Owners' Workshop Manual Steve Rendle,2018-06-19 The McLaren MP4/4 is the iconic Honda V6 turbo-powered F1 car built by McLaren for the 1988 grand prix season, driven by Ayrton Senna and Alain Prost. Remarkably, the car won all but one race during 1988, and took McLaren's then-new recruit Senna to his first Drivers' World Championship after a season-long battle with teammate Prost. McLaren achieved an astonishing 10 one-two finishes with the car, and suffered only two car-related retirements during the season. The MP4/4 is still statistically the most dominant F1 car ever built. Ironically, the fact that McLaren was already an enormously successful and well-resourced team prior to 1988 has led to the assumption that producing another winning car in the form of the MP4/4 was simply business as usual. The truth is rather different, with many challenges along the way, mistakes to resolve and, as ever in motor racing, an element of luck, all playing a part in the MP4/4's extraordinary success. A wealth of previously unpublished archive material, including original technical drawings and team documentation, provides fascinating new insight into the design and build of the MP4/4. Produced with the full cooperation of McLaren, and unique access to a race-winning MP4/4 chassis, this manual tells for the first time the accurate story of the design, engineering and operation of one of F1's most iconic cars, featuring extensive and often candid input from the designers, engineers and drivers involved. The McLaren story: Brief history of McLaren prior to the MP4/4 and subsequent history to the present day. Design and build of the MP4/4: The full story of how a completely new car, along with a one-off Honda engine, were designed and built for the 1988 season. The MP4/4 in action: A race-by-race account of the MP4/4's performance in the 1988 World Championship. The anatomy of the MP4/4: Chassis, aerodynamics, suspension, steering, brakes, Honda engine, transmission, wheels and tyres, cockpit and electrics. The drivers: Insight from Alain Prost and test-driver Emanuele Pirro, plus a profile of Ayrton Senna with thoughts from his former teammates. Appendices: Specifications, race results and statistics and full chassis histories.

Alfa Romeo T33/TT/3 Ian Wagstaff,2020-09 The Alfa Romeo T33/TT/3 was produced by Alfa's Autodelta racing department, under the guidance of Carlo Chiti, to compete in the 1972 World Championship for Makes. Hopes were high, as the previously dominant Group 5 racers (including the Porsche 917s and Ferrari 512s) had been outlawed in favour of 3-litre Group 6 cars, such as the Alfa. However, the Alfas struggled to take the fight to the well-developed and reliable Ferrari 312PBs, though scored regular podium positions. The highlight was a second place in the epic Targa Florio Sicilian road race, where Helmut Marko put in a stirring drive to come within seconds of victory. Marko was driving chassis 115.72.002, the most successful of the T33/TT/3 chassis Alfa Romeo T33/TT/3 tells the full story of the T33/TT/3, with an emphasis on the fascinating history of chassis 115.72.002, which competed in seven world championship rounds in 1972. The car would later have a unique second career on the race circuits and hill climbs of Greece, before racing in Japan

and South Africa prior to an eventual return to Europe, where it is still a frequent competitor in historic events. The unique history and success of 115.72.002 makes it a worthy addition to Porter Press's acclaimed Exceptional Cars series.

Inspired to Design Nigel Bennett,2013-10-15 Nigel Bennett's unique autobiography describes his life and career, from growing-up influenced by car design, to his education and the building of his 750 specials. He describes his work as Firestone Development Manager, recounting many tales of the outstanding designers and drivers of the period. Detailing his work in Formula 1, as a Team Lotus engineer, and then as Team Ensign designer, he also covers his Indycar designs at Theodore, Lola Cars and Penske Cars. Ford GT40 Ray Hutton,2018-02-06 This sumptuous book tells the story of one of the world's most important racing cars. Always raced in Gulf's iconic blue-and- orange colours, this Ford GT40, known by its chassis number '1075', won the Le Mans 24 Hours not just once but twice, in 1968 and 1969, and the second victory came after the closest fight ever seen at the finish of this great endurance race. Four other championship wins – at Brands Hatch, Spa, Watkins Glen and Sebring – add to this GT40's distinction as the very best of its breed, driven by 'greats' such as Jacky Ickx, Pedro Rodríguez and Brian Redman. The car's entire competition life is covered in fascinating detail, together with biographies of its drivers and insights into John Wyer's crack team that ran it, all supported by a fine collection of period photographs.
