How to Pass OSCP Series: Windows Privilege Escalation Step-By-Step Guide Alan Wang, 2020-11-13 This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more. Impact Werner Goldsmith, 2001-11-01 Carefully organized, skillfully written text examines stereomechanical impact; vibrational aspects of impact; contact phenomena produced by the impact of elastic bodies; dynamic processes involving plastic strains; results of impact experiments and dynamic properties of materials. Well-illustrated treatment presumes some knowledge of partial differential equations, operational calculus, and elasticity. 284 illustrations.

Thrombosis and Embolism: from Research to Clinical Practice Md. Shahidul Islam, 2016-11-25 This unique publication explores diverse themes relating to thrombosis and embolism, from basic research at cell and molecular level to the actual care, prevention, and treatment of diverse categories of patients suffering from such diseases. Chapters cover a variety of topics including thrombosis and embolism in surgical patients, cancer patients, pregnant women and children and adolescents, as well as treatment of the conditions by traditional anticoagulants, novel oral anticoagulants, thrombolytic therapy, endovascular treatment and embolectomy. Readers may explore cutting edge research, recommendations from major societies, contemporary guidelines, areas of controversy and directions for ongoing and future research. The book features comprehensive information ranging from molecular mechanisms of diseases to the clinical features, diagnosis, and therapeutic regimens for treating a variety of clinical conditions. It has a broad appeal to scientists and research students as well as busy clinicians engaged in patient care, who will all find something important and useful amongst these carefully selected chapters.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He

grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

The Chess Organiser's Handbook Stewart

Reuben, 2005-07-01 For me and many arbiters, Stewart Reuben's book is our bible. Casto Abundo, Rating Administrator, Elista FIDE Office. This third edition, as well as updated comprehensive and practical information on all aspects of running tournaments, also contains the new FIDE (World Chess Federation) Official Laws of Chess. These Laws were revised at the Chess Olympiad in Calvia, with changes taking effect from July 2005. • Several new chapters have been added on inputting games, websites, junior chess and peripheral events. • The FIDE Title Regulations have been fully revised since the last edition, substantially due to the efforts of Stewart Reuben. What is provided here are the necessary rules, which will enable an organiser or arbiter to run a title norm event. • Various Swiss Pairing Systems are compared critically. • Information given provides what is practically a blue-print to enable an organiser to put together a tournament. Stewart Reuben is internationally recognised as one of the world's foremost chess organisers and arbiters. He is currently Chairman of the FIDE Organizers Committee; Secretary of the

Rules and Tournament Regulations Committee, member of the Title and Ratings Committee and of the Qualification Commission. He is also past Chairman of the British Chess Federation. He has officiated at and/or organised numerous top-level events, including the World Championship. He holds three FIDE titles: Arbiter, Organizer and Candidate Master.

The Ghost at Brooklands Museum Mark

Richardson, 2016-11-28 I am the first person (to my knowledge) to set a work of fiction at Brooklands Museum or Brooklands racing circuit. The circuit has a rich history and was the world's first purpose-built motor racing circuit built in 1907. In its heyday in the 1930s races at Brooklands such as the Brooklands 500 Miles Race (incorporated in the novel) were as popular as Wimbledon or Ascot. Brooklands Museum is hugely popular with over 170,000 annual visitors. Brooklands Museum has also had numerous ghost sightings over the years. Ghostly sightings of racing drivers have been reported at multiple locations where the circuit still exists or once stood. This provided a lot of inspiration for setting a ghost novel at Brooklands. The novel itself is centred on Brooklands' record breaking race car (which now resides in the museum) the Napier-Railton. The car, which was built in a workshop at Brooklands, holds the all-time lap record at the circuit. As the full circuit is no longer complete, this record will stand forever. The car is incredibly beautiful and is regularly exhibited and run at international motor shows. As a one-of-a-kind, unique automobile it is currently valued at over £7m. Some photos of me with the car have been shared as per the above request. Finally, all profits I personally make from the novel will be donated to Brooklands Museum.

The Jack Brabham Story Jack Brabham, Doug Nye, 2004-02-26

This title covers the career of Jack Brabham, which saw him win three Formula 1 Driver's World Championship titles, multiple F2 Championships, become the world's first dominant manufacturer

of single-seater racing cars and the first driver to win a World Title in a car bearing his own name.

American Muscle Cars, 1960-1975 Bruce

LaFontaine, 2001-11-01 Expertly rendered illustrations of fast, flashy, and powerful sports cars, among them the 1962 Ford Thunderbird, 1964 Corvette Stingray, 1968 Chevy Impala SS427, 1969 Camaro Z-28, 1970 Ford Torino Fastback, 1971 Mustang Boss 351, 1974 Firebird Trans-Am, and 37 others. For coloring book enthusiasts and muscle car fans.

The Concorde Experience, 2005 This gem of a gift book focuses on the first in the British Airways fleet to fly commercially, and is told through quotes from staff and passengers.

Brothers Rodriguez Carlos Jalife, 2009 Exhaustive research and extensive interviews presents a carefully realized, painstakingly accurate portrait of Pedro and Ricardo Rodriguez. Photographs show the brothers at every stage of their lives, from childhood until their early deaths, and in all forms of competition.

Elemental Luther E. Vann, Aberjhani, 2008 : **ELEMENTAL**: The Power of Illuminated Love is the product of two individuals' combined creative and spiritual visions. It features some 64 paintings by celebrated artist Luther E. Vann with more than approximately 50 accompanying poems and two essays by award-winning author Aberjhani. The art, spanning the early 1970s to 2007, expresses Vann's perception of spiritual principles active in the personal and public lives of people in New York and Savannah. Introductory essays comment on Vann's life and his art. The poems complement the art with themes that explore issues like war, homelessness, the nature of love, and expanded spiritual consciousness.

May We Be Forgiven A.M. Homes, 2013-09-24 Winner of the 2013 Women's Prize for Fiction—A darkly comic novel of twenty-first-century domestic life by a writer who is always "compelling,

devastating, and furiously good” (Zadie Smith) Harold Silver has spent a lifetime watching his younger brother, George, a taller, smarter, and more successful high-flying TV executive, acquire a covetable wife, two kids, and a beautiful home in the suburbs of New York City. But Harry, a historian and Nixon scholar, also knows George has a murderous temper, and when George loses control the result is an act of violence so shocking that both brothers are hurled into entirely new lives in which they both must seek absolution. Harry finds himself suddenly playing parent to his brother’s two adolescent children, tumbling down the rabbit hole of Internet sex, dealing with aging parents who move through time like travelers on a fantastic voyage. As Harry builds a twenty-first-century family created by choice rather than biology, we become all the more aware of the ways in which our history, both personal and political, can become our destiny and either compel us to repeat our errors or be the catalyst for change. *May We Be Forgiven* is an unnerving, funny tale of unexpected intimacies and of how one deeply fractured family might begin to put itself back together.

Where am I Wearing? Kelsey Timmerman, 2008-11-24 Globalization makes it difficult to know where the things you buy come from. Journalist and travel writer Kelsey Timmerman wanted to know where his clothes came from and who made them, so he traveled from Honduras to Bangladesh to Cambodia to China and back. Along the way, he met the people who made his favorite clothes and learned as much about them as he did about globalization itself. Enlightening and controversial at once, this book puts a human face on globalization.
