Kathleen Armour

Working for Wildlife Ross Galbreath, 1993 ... Describes the development of wildlife administration and management in New Zealand which led to this combination of functions in the Wildlife Service, and the changes in attitudes towards wildlife and conservation which eventually in 1987 brought about its replacement. Against this background of shifting ideas and policies, *Working for wildlife* also presents the exploits and achievements of the dedicated band of Wildlife officers. They were pre-eminently people of action rather than bureaucratic administrators: fisheries technicians wading in chilly streams to record and measure migrating trout; fauna conservation field officers and scientists searching for the last of the kakapo in the precipitous Fiordland country, or scaling the cliffs of Little Mangere Island to find ways to rescue the black robins ; deer-cullers in the hills fighting the Deer Menace. They were the original good keen men; the exploits of those who worked for Wildlife will stir the pride of all New Zealanders.--Back cover.

Hauptprobleme Der Philosophie, Von Georg Simmel Georg Simmel, 1910

Gold Town Clay Dawson, 1989 There is something about gold that makes a white man go crazy. And Danville was right in the middle of the richest gold and silver territory in the world. Long Rider was not looking for a fortune when he rode into town. But what he found was a town gone mad with gold fever and a tycoon mad with jealousy.

Firestorm Ann Druffel, 2003 The authorised biography of Dr James E McDonald's research into the UFO phenomenon. McDonald worked in the 1950s and 1960s to raise the UFO issue in the scientific community as a serious problem. This book documents his brave fight for justice and truth, and his untimely and mysterious end. McDonald is a largely forgotten hero in the long and important battle to uncover the truth of the alien presence on Earth. With this landmark work, Ann Druffel places McDonald clearly where he belongs among the great pioneers of UFOlogy.
