Ten Years of Motors and Motor Racing Charles Jarrott,1906

Grand Prix Cars Denis Jenkinson,2015-10-02 “ In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties – such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes – the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)

9600 Hp: The Story of the World's Oldest E-Type Jaguar Philip Porter,2021-06 From development prototype to Geneva Motor Show star and 150mph road-test car, 9600 HP played a key role in the launch of the sensational Jaguar E-type.

Driven by Desire Alan Wilson,2011-10-15 From a five-year-old girl racing 60mph micro-midgets in South Africa, to a Formula One driver in the British Championship during her first full year of racing in the UK, and on to becoming the first and only woman ever to win a Formula One race, Desire Wilson was a winner bested by very few of her male rivals. But single-seater racing was just the start of Desire's ascent in motorsport. She won two FIA World Championship Sports Car Endurance races in 1980, and went on to compete in well over 120 types of race car at more than 100 race tracks around the world. Always competitive, she earned a reputation for an intense, no-nonsense approach to racing, shrugging off the media glamour to focus on the hard grind of staying competitive in one of the world's toughest sporting arenas. Moving to the male-dominated world of North American racing, Desire became a pioneer for women racing in the harsh world of Indy Cars, facing discrimination, financial problems, and other obstacles ranging from tragedy to farce. Her career is unique in the world of racing, encompassing everything from club racing to Formula One and World Championship sports cars, to the evil monsters of the IndyCar World Series - the world's fastest race cars. Hers is a story of hardships, fun, tragedy, perseverance, injury, and the amazing behind-the-scenes world masked by the public face and glamour of racing. It tells, too, of the consequences of politics and discrimination in the male world of professional auto racing.

Porsche 70 Years Randy Leffingwell,2017-09-19 This richly illustrated book offers a complete history of Porsche, Germany's premium sports-car maker. Porsche 70 Years focuses on engineering and design stories, while also paying homage to key players.

A Thrilling Race Patricia Harris,2017-07-15 It's race day at Mr. Fred's racetrack. Who will win? This fast-paced story puts young readers in the driver's seat as Mary Ann and her friends zoom around the track. Basic concepts such as opposites and colors are introduced in this exciting fiction book, which accompanies the HABA game Monza. Readers will also learn about teamwork, problem solving, and the importance of being a good sport regardless of whether they win or lose. Age-appropriate text and colorful illustrations make this an enjoyable book for both emerging readers and younger listeners.

Ford GT40 Ray Hutton,2018-02-06 This sumptuous book tells the story of one of the world's most important racing cars. Always raced in Gulf's iconic blue-and- orange colours, this Ford GT40, known by its chassis number '1075', won the Le Mans 24 Hours not just once but twice, in 1968 and 1969, and the second victory came after the closest fight ever seen at the finish of this great endurance race. Four other championship wins – at Brands

Hatch, Spa, Watkins Glen and Sebring – add to this GT40’s distinction as the very best of its breed, driven by ‘greats’ such as Jacky Ickx, Pedro Rodríguez and Brian Redman. The car’s entire competition life is covered in fascinating detail, together with biographies of its drivers and insights into John Wyer’s crack team that ran it, all supported by a fine collection of period photographs.

Austin Healey Simon Ham,2018-04-03 This first title in a brand-new series of Porter Profiles throws the spotlight on one of the most successful Big Healeys of all time. It is one of few cars to have such a varied history throughout a racing career that spans its entire life. Registered UJB 143, it was a works entry for the Sebring 12 Hours and Le Mans 24 Hours in 1960. After being sold to the privateer Ecurie Chiltern outfit, it was re-registered DD 300 and returned to the famous French enduro in ’61 and ’62. It then passed to Healey stalwart John Chatham and would regularly be raced over the next four decades, in everything from Modsports to sprints and finally historic events. The Healey’s long and successful career continues with its current owners and it is all covered in this fascinating new book, complete with a superb selection of period photographs.

Brothers Rodriguez Carlos Jalife,2009 Exhaustive research and extensive interviews presents a carefully realized, painstakingly accurate portrait of Pedro and Ricardo Rodriguez. Photographs show the brothers at every stage of their lives, from childhood until their early deaths, and in all forms of competition.

Ferrari Leonildo Turrini,2018-05-03 * The most beautiful cars in the world have been rolling out of the Maranello Ferrari factory for 70 years. This book is a tribute to the mix of imagination and ingenuity that makes them so special Ferrari: The Best contains seven chapters full of curiosities, outstanding photos, solid information and previously-unrevealed details with models, people, victories and places that have contributed to make Ferrari the worldwide famous icon it is today. A book for the most demanding fan and collector as well as for any car lover.

Virgil Exner Peter Grist,2014-10-09 The story of a man that brought his own personal style to the world of industrial design, from automobiles to powerboats. Some 50 years after his design masterpieces wrested styling leadership away from General Motors - Harley Earl. Thirty four years after his untimely death, Virgil Exner’s name still remains inexorably linked to the Chrysler Corporation in the minds of car enthusiasts worldwide. For an all too brief period, Exner’s name epitomised all that was great and exciting in America. His thrilling automobile designs from the mid-fifties took the world by storm and put Chrysler at the top. His work was nothing less than a revolution. Until the mid-fifties, engineers, creating cars that were reliable but invariably staid and conservative, had dominated auto design. Exner introduced to Chrysler, firstly with his ‘idea cars’ then with production models, vehicles that were wanted for their looks but at the same time, were soundly engineered; automobiles that carried classic proportions and gave the illusion of movement even whilst stationary. His design of the 1947 Studebaker established the design pattern for all modern cars and was a huge success. Along with automobile styling, his talents stretched to many other areas of industrial design, from trains to trucks and boats to Buicks. This book gets behind the character of the man, his strengths and weaknesses, his personal tragedies and his vision of modern transport. Uncover why he set up in competition with Raymond Loewy, get the real facts behind historic inaccuracies and why he was made scapegoat for the sales disaster of the early sixties, Then delight in his fine artwork and his love of motor racing. With many previously unseen works of art and family photos among the 150 colour images throughout this is a unique and fascinating insight into a pivotal player in the development of the modern automobile.
