To Hell and Back Niki Lauda,2020-02-27 Niki Lauda drove a car for sport, but crossed the line between life and death and fought back to even greater glory. Even people who know nothing of Formula One have heard of his crash at Nurburgring in 1976, when he was dragged from the inferno of his Ferrari so badly injured he was given the last rites. Within 33 days, he was racing again at Monza. His wounds bled, he had no eyelids. He was terrified. A year later, he reclaimed his World Championship title. In *To Hell and Back* he reveals how he battled fear to stage a comeback that seemed beyond human endurance. Then it's Lauda vs Hunt, an epic rivalry later dramatized in 2013's Hollywood blockbuster *Rush*, and he looks back on the strict childhood and parental disapproval that he believes gave him an 'addiction to excellence'. There'll never be another like him.

Not Just Furry Dice... Chris Mitchell,2021-11-25 This is the light-hearted story of an industry which hardly existed before 1960 but then grew very fast until the late 1990s and then shrunk to a shadow of its former self.

Driven by Desire Alan Wilson,2011-10-15 From a five-year-old girl racing 60mph micro-midgets in South Africa, to a Formula One driver in the British Championship during her first full year of racing in the UK, and on to becoming the first and only woman ever to win a Formula One race, Desire Wilson was a winner bested by very few of her male rivals. But single-seater racing was just the start of Desire's ascent in motorsport. She won two FIA World Championship Sports Car Endurance races in 1980, and went on to compete in well over 120 types of race car at more than 100 race tracks around the world. Always competitive, she earned a reputation for an intense, no-nonsense approach to racing, shrugging off the media glamour to focus on the hard grind of staying competitive in one of the world's toughest sporting arenas. Moving to the male-dominated world of North American racing, Desire became a pioneer for women racing in the harsh world of Indy Cars, facing discrimination, financial problems, and other obstacles ranging from tragedy to farce. Her career is unique in the world of racing, encompassing everything from club racing to Formula One and World Championship sports cars, to the evil monsters of the IndyCar World Series - the world's fastest race cars. Hers is a story of hardships, fun, tragedy, perseverance, injury, and the amazing behind-the-scenes world masked by the public face and glamour of racing. It tells, too, of the consequences of politics and discrimination in the male world of professional auto racing.

Formula 1 Car by Car 1990-99 Peter Higham,2021-05-18 The formative years of the 1950s are explored in this fourth installment of Evro's decade-by-decade series covering all Formula 1 cars and teams. When the World Championship was first held in 1950, red Italian cars predominated, from Alfa Romeo, Ferrari and Maserati, and continued to do so for much of the period. But by the time the decade closed, green British cars were in their ascendancy, first Vanwall and then rear-engined Cooper playing the starring roles, and BRM and Lotus having walk-on parts. As for drivers, one stood out above the others, Argentine Juan Manuel Fangio, becoming World Champion five times. Much of the fascination of this era also lies in its numerous privateers and also-rans, all of which receive their due coverage in this complete work. Year-by-year treatment covers each season in fascinating depth, running through the teams -- and their various cars -- in order of importance. Alfa Romeo's supercharged 11/2-litre cars dominated the first two years, with titles won by Giuseppe Farina (1950) and Fangio (1951). The new marque of Ferrari steamrolled the opposition in two seasons run to Formula 2 rules (1952-53), Alberto Ascari becoming champion both times, and the same manufacturer took two more crowns with Fangio (1956) and Mike Hawthorn (1958). Maserati's fabulous 250F, the decade's most significant racing car, propelled Fangio to two more of his five championships (1954 and 1957). German manufacturer Mercedes-Benz stepped briefly into Formula 1 (1954-55) and won almost everything with Fangio and up-and-coming Stirling Moss. Green finally beat red when the Vanwalls, driven by Moss and Tony Brooks, won the inaugural constructors' title (1958). Then along came Cooper, rear-engine pioneers, to signpost Formula 1's future when Jack Brabham became World Champion (1959).

Stirling Moss Scrapbook, 1956-1960 Philip Porter,2009 Released in celebration of his 80th birthday, this volume in the popular series follows Sir Stirling Moss through his most turbulent, demanding, and ultimately, successful racing years. During this period, Moss' career was at its zenith. By 1960, he had secured his reputation as the greatest motor racing driver in the world, although the title of World Champion still, frustratingly, eluded him. He dominated every racing arena. In Formula One he secured numerous landmark victories, including first GP wins for Vanwall, Cooper, and Lotus. In Formula Two, he was all-conquering, driving Rob Walker's Cooper-Borgward and he helped Aston Martin to victory in the World Sports Car Championship. Yet, for all his adaptability, Moss' rise was far from simple. Racing first with Maserati, then Vanwall, and finally the privateer Rob Walker team, he struggled frequently with the restrictions of his machinery and the demands of technological change as F1 moved from front- to rear-engine racers. Off track too, things were far from simple as the pressures of fame coupled with the dangers of the sport impacted devastatingly on his personal life.

My Greatest Defeat Will Buxton,2019-07-30 My Greatest Defeat is a collection of honest and revealing insights into 20 of the greatest living racing drivers, legends of the worlds of Formula 1, Indycar, NASCAR, Le Mans and Rally. Interviews conducted specially for this book are with (in alphabetical

order) Mario Andretti, Derek Bell, Emerson Fittipaldi, Dario Franchitti, Jeff Gordon, Mika Häkkinen, Damon Hill, Jimmie Johnson, Tom Kristensen, Niki Lauda, Sebastien Loeb, Felipe Massa, Rick Mears, Emanuele Pirro, Alain Prost, Carlos Sainz, Jackie Stewart, Bobby Unser, Ari Vatanen and Alex Zanardi. Here are five highlights... Dario Franchitti — The Indycar champion talks of the deaths of the friends that book-ended his career in racing, the heartbreak that each caused and the aftermath of accidents that affected the physical functioning of his brain. Jeff Gordon — One of the all-time NASCAR greats, he looks back on his many championships, admitting that today he cannot view a single one with anything but regret as family relationships were soured and stretched to breaking point. Jimmie Johnson — One of the greatest stock car drivers in history, Johnson was at one time considered a reckless outcast. He reflects on the little-known crash that almost killed him and changed his mindset forever. Niki Lauda — A racer who needs no introduction, Niki Lauda discusses the loss of one of his aircraft over Thailand in which all on board were killed; for eight months he fought to clear the name of his pilots and change aircraft safety forever. Alex Zanardi — In a deep and revealing conversation, the Paralympic gold medalist, who lost both legs in an Indycar accident, discusses how we decipher between our passion and our ambition and how childhood dreams affect our adult decisions. Striking portrait artworks come from a revered artist in modern comic book design, Giuseppe ‘Cammo’ Camuncoli, who is renowned for the dark, brooding style that has seen him become a staple in the Vertigo, DC and Marvel stables.

Formula 1 Technology Peter Wright,Tony Matthews,2001-07-15 Author Peter Wright identifies and outlines five parameters -- Power, Weight, Tire Grip, Drag and Lift -- and shows how each can be maximized. In addition, he describes the variety of technologies (including those that have been banned over the years) that are involved, not just in the makeup of the Formula 1 cars, but also in the component manufacturing, systems testing, and the actual racing of the cars.

Superfinds Michael Kliebenstein,2020-09 This book is unique. It is a compendium of wonderful automotive treasure, as discovered. With the passage of time all cars became worthless and unloved, no matter how eminent. Racing cars inevitably became uncompetitive and redundant. Many vehicles passed into scrapyards, the motoring equivalent of a cemetery, or simply rotted away.

Nissan - The GTP & Group C Racecars 1984-1993 John Starkey,2019-06-25 When Don Devendorf and John Knepp got together to form Electramotive Engineering of El Segundo, California, little did they realise that they were setting in motion a train of events which would sooner, rather than later, bring to them and the mighty Nissan GTP cars that they promoted, developed and raced, no less than four IMSA Camel GT Championships. Here, for the first time, is the story of Nissan in racing from 1984 to 1993, the GTP era. The full story of Electramotive and NPTI is told, with interviews with Don Devendorf, John Knepp, Geoff Brabham, Trevor Harris, Kas Kastner, Ashley Page, and many other members of the crew that won the IMSA Camel GT Championship from 1988 to 1991. The story of the European Group C Nissans, using chassis from March and Lola, from 1985 to 1992 is also told, along with interviews from many of the drivers and technicians involved, such as Mark Blundell, Julian Bailey, Dave Price and Bob Bell.
