It's a huge, very noisy traffic jam and everyone's in a hurry to get somewhere The racing car, off to the track, goes vroooooom; the beach buggy, on its way to the coast, goes bumble bumble; and Mr Luiggi cries 'Mamma Mia My ice creams are melting ' What ever could be the cause of all this traffic?

Jam-packed town scenes illustrate the adventures of Sunnyside's residents through comical, visual narratives (follow Milo the Monkey who has run away with Zebedee's hat or spot the little rubber ducks that have escaped the plastics factory) and spot all of the town's vehicles on the eye watering gatefold - fire engines, tractors, ice-cream vans, racing cars and fork-lift trucks! With a chock-a block play page at the end of the book, too, there are so many hours of interactive fun to be had! William Bee (both the author and an actual character in the book) keeps his readers very busy, quizzing them throughout and leading them around the scenes - can you spot a missing shoe? **Accents of English: Volume 2** John C. Wells, 1982-04-08 Accents of English is about the way English is pronounced by different people in different places. Volume 1 provides a synthesizing introduction, which shows how accents vary not only geographically, but also with social class, formality, sex and age; and in volumes 2 and 3 the author examines in greater depth the various accents used by people who speak English as their mother tongue: the accents of the regions of England, Wales, Scotland and Ireland (volume 2), and of the USA, Canada, the West Indies, Australia, New Zealand, South Africa, India, Black Africa and the Far East (volume 3). Each volume can be read independently, and together they form a major scholarly survey, of considerable originality, which not only includes descriptions of hitherto neglected accents, but also examines the implications for phonological theory. Readers will find the answers to many questions: Who makes 'good' rhyme with 'mood'? Which accents have no voiced sibilants? How is a Canadian accent different from an American one, a New Zealand one from an Australian one, a Jamaican one from a Barbadian one? What are the historical reasons for British-American pronunciation differences? What sound changes are currently in progress in New York, in London, in Edinburgh? Dr Wells has written principally for students of linguistics, phonetics and English language, but the motivated general reader will also find the study both fascinating and rewarding.

This book brings together accounts of recent work in this increasingly important field and will be a valuable resource both for those already engaged in evaluation and for those in training. Part One presents a review of the literature, covering past developments in the wider field of educational evaluation, as well as specifically in second language education. Part Two contains a series of eight original case-studies, written by scholars involved in evaluations in widely divergent settings.
