*Archaeology Anthropology and Interstellar*

*Communication* Douglas A. Douglas A. Vakoch, 2015-03-24

Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

**The Emperor of All Maladies** Siddhartha

Mukherjee, 2011-08-09 Winner of the Pulitzer Prize and a documentary from Ken Burns on PBS, this New York Times bestseller is “an extraordinary achievement” (The New Yorker)—a magnificent, profoundly humane “biography” of cancer—from its first documented appearances thousands of years ago through the epic battles in the twentieth century to cure, control, and conquer it to a radical new understanding of its essence. Physician, researcher, and award-winning science writer, Siddhartha Mukherjee examines cancer with a cellular biologist’s precision, a historian’s perspective, and a biographer’s passion. The result is an astonishingly lucid and eloquent chronicle of a disease humans have lived with—and perished from—for more than five thousand years. The story of cancer is a story of human ingenuity, resilience, and perseverance, but also of hubris, paternalism, and misperception. Mukherjee recounts centuries of discoveries, setbacks, victories, and

deaths, told through the eyes of his predecessors and peers, training their wits against an infinitely resourceful adversary that, just three decades ago, was thought to be easily vanquished in an all-out “war against cancer.” The book reads like a literary thriller with cancer as the protagonist. Riveting, urgent, and surprising, *The Emperor of All Maladies* provides a fascinating glimpse into the future of cancer treatments. It is an illuminating book that provides hope and clarity to those seeking to demystify cancer.

*Crampton Hodnet* Barbara Pym, 2013-08-01 Miss Morrow is content in her position as spinster companion to Miss Doggett, even if her employer and the woman's social circle regard her as a piece of furniture. Stephen Latimer, the new cleric and Miss Doggett's dashing new tenant, upsets the balance for Miss Morrow by proposing the long discounted possibility of marriage.

**Murder With Peacocks** Donna Andrews, 2006-02-07 Three Weddings...And a Murder So far Meg Langslow's summer is not going swimmingly. Down in her small Virginia hometown, she's maid of honor at the nuptials of three loved ones--each of whom has dumped the planning in her capable hands. One bride is set on including a Native American herbal purification ceremony, while another wants live peacocks on the lawn. Only help from the town's drop-dead gorgeous hunk, disappointingly rumored to be gay, keeps Meg afloat in a sea of dotty relatives and outrageous neighbors. And, in whirl of summer parties and picnics, Southern hospitality is strained to the limit by an offensive newcomer who hints at skeletons in the guests' closets. But it seems this lady has offended one too many when she's found dead in suspicious circumstances, followed by a string of accidents--some fatal. Soon, level-headed Meg's to-do list extends from

flower arrangements and bridal registries to catching a killer--before the next catered event is her own funeral...

*The Resonance of Unseen Things* Susan

Lepselter, 2016-03-03 *The Resonance of Unseen Things* offers an ethnographic meditation on the “uncanny” persistence and cultural freight of conspiracy theory. The project is a reading of conspiracy theory as an index of a certain strain of late 20th-century American despondency and malaise, especially as understood by people experiencing downward social mobility. Written by a cultural anthropologist with a literary background, this deeply interdisciplinary book focuses on the enduring American preoccupation with captivity in a rapidly transforming world. Captivity is a trope that appears in both ordinary and fantastic iterations here, and Susan Lepselter shows how multiple troubled histories—of race, class, gender, and power—become compressed into stories of uncanny memory. “We really don’t have anything like this in terms of a focused, sympathetic, open-minded ethnographic study of UFO experiencers. . . . The author’s semiotic approach to the paranormal is immensely productive, positive, and, above all, resonant with what actually happens in history.” —Jeffrey J. Kripal, J. Newton Rayzor Professor of Religion, Rice University “Lepselter relates a weave of intimate alien sensibilities in out-of-the-way places which are surprisingly, profoundly, close to home. Readers can expect to share her experience of contact with complex logics of feeling, and to do so in a contemporary America they may have thought they understood.” —Debbora Battaglia, Mount Holyoke College “An original and beautifully written study of contemporary American cultural poetics. . . . The book convincingly brings into relief the anxieties of those at the margins of American economic and civic life, their perceptions of state

power, and the narrative continuities that bond them to histories of violence and expansion in the American West.”  
—Deirdre de la Cruz, University of Michigan

*With a Little Help* Cory Doctorow, 2015-07-16 With a Little Help is my first serious experiment in self-publishing. I've published many novels, short story collections, books of essays and so on with publishers, and it's all been very good and satisfying and educational and so on, but it seems like it's time to try something new. With a Little Help consists of 12 stories, all reprints except for Epoch (commissioned by Mark Shuttleworth).

**The Mist** Stephen King, 2017-05-23 #1 New York Times bestselling author Stephen King's terrifying novella about a town engulfed in a dense, mysterious mist as humanity makes its last stand against unholy destruction—originally published in the acclaimed short story collection *Skeleton Crew* and made into a TV series, as well as a feature film starring Thomas Jane and Marcia Gay Harden. In the wake of a summer storm, terror descends...David Drayton, his son Billy, and their neighbor Brent Norton join dozens of others and head to the local grocery store to replenish supplies following a freak storm. Once there, they become trapped by a strange mist that has enveloped the town. As the confinement takes its toll on their nerves, a religious zealot, Mrs. Carmody, begins to play on their fears to convince them that this is God's vengeance for their sins. She insists a sacrifice must be made and two groups—those for and those against—are aligned. Clearly, staying in the store may prove fatal, and the Draytons, along with store employee Ollie Weeks, Amanda Dumfries, Irene Reppler, and Dan Miller, attempt to make their escape. But what's out there may be worse than what they left behind. This exhilarating novella explores the horror in both the enemy you know—and the

one you can only imagine.

**a tumblr book** Allison McCracken, Alexander Cho, Louisa Stein, Indira N Hoch, 2020-10-26 This book takes an extensive look at the many different types of users and cultures that comprise the popular social media platform Tumblr. Though it does not receive nearly as much attention as other social media such as Twitter or Facebook, Tumblr and its users have been hugely influential in creating and shifting popular culture, especially progressive youth culture, with the New York Times referring to 2014 as the dawning of the “age of Tumblr activism.” Perfect for those unfamiliar with the platform as well as those who grew up on it, this volume contains essays and artwork that span many different topics: fandom; platform structure and design; race, gender and sexuality, including queer and trans identities; aesthetics; disability and mental health; and social media privacy and ethics. An entire generation of young people that is now beginning to influence mass culture and politics came of age on Tumblr, and this volume is an indispensable guide to the many ways this platform works.

**Francis Alÿs** Francis Alÿs, Tate Modern (Gallery), 2010 This is an illustrated survey of Francis Alÿs's entire career. It includes interviews and essays by leading international writers. It also presents descriptions of Alÿs's work by the man himself, as well as responses from a wide range of critics and commentators.

Architects of Buddhist Leisure Justin Thomas McDaniel, 2017-04-01 Buddhism, often described as an austere religion that condemns desire, promotes denial, and idealizes the contemplative life, actually has a thriving leisure culture in Asia. Creative religious improvisations designed by Buddhists have been produced both within and outside of monasteries across the region—in Nepal, Japan,

Korea, Macau, Hong Kong, Singapore, Laos, Thailand, and Vietnam. Justin McDaniel looks at the growth of Asia's culture of Buddhist leisure—what he calls “socially disengaged Buddhism”—through a study of architects responsible for monuments, museums, amusement parks, and other sites. In conversation with noted theorists of material and visual culture and anthropologists of art, McDaniel argues that such sites highlight the importance of public, leisure, and spectacle culture from a Buddhist perspective and illustrate how “secular” and “religious,” “public” and “private,” are in many ways false binaries. Moreover, places like Lek Wiriyaphan's Sanctuary of Truth in Thailand, Suối Tiên Amusement Park in Saigon, and Shi Fa Zhao's multilevel museum/ritual space/tea house in Singapore reflect a growing Buddhist ecumenism built through repetitive affective encounters instead of didactic sermons and sectarian developments. They present different Buddhist traditions, images, and aesthetic expressions as united but not uniform, collected but not concise: Together they form a gathering, not a movement. Despite the ingenuity of lay and ordained visionaries like Wiriyaphan and Zhao and their colleagues Kenzo Tange, Chan-soo Park, Tadao Ando, and others discussed in this book, creators of Buddhist leisure sites often face problems along the way. Parks and museums are complex adaptive systems that are changed and influenced by budgets, available materials, local and global economic conditions, and visitors. Architects must often compromise and settle at local optima, and no matter what they intend, their buildings will develop lives of their own. Provocative and theoretically innovative, *Architects of Buddhist Leisure* asks readers to question the very category of “religious” architecture. It challenges current methodological approaches in religious studies and speaks to a broad

audience interested in modern art, architecture, religion, anthropology, and material culture. **Everything Nice** Lannie Rose, 2009-01-08 Most coming-of-age stories are about teenagers, but not this one. Eddy's coming-of-age hardly starts until he's 35 years old, when he discovers a penchant for wearing women's clothes. It takes him ten more exciting and very weird years before he figures out he really should have been a girl all along. After the sex change, Eddy, now Lannie, has to build a whole new life as a woman. The hard part was going to be finding a man to love her. While *Everything Nice* is YATA - Yet Another Transgender Autobiography - it brings to the genre an honesty about relationships and sex before and after gender transition; a hard look at the dating scene from a transsexual point of view; and the unique sense of humor Lannie demonstrated in *HOW THE CHANGE YOUR SEX* and *LANNIE! MY JOURNEY FROM MAN TO WOMAN*. If you only read one transsexual autobiography this year, *Everything Nice* is the one you want to choose.

**Science in the Forest, Science in the Past** Willard McCarty, Geoffrey E. R. Lloyd, Aparecida Vilça, 2022-03-29  
Science in the Forest, Science in the Past: Further Interdisciplinary Explorations comprises of papers from the second of two workshops involving a group of scholars united in the conviction that the great diversity of knowledge claims and practices for which we have evidence must be taken seriously in their own terms rather than by the yardstick of Western modernity. Bringing to bear social anthropology, history and philosophy of science, computer science, classics and sinology among other fields, they argue that the use of such dismissive labels as 'magic', 'superstition' and the 'irrational' masks rather than solves the problem and reject counsels of despair which assume or argue that radically alien beliefs are strictly unintelligible to outsiders and can be understood only from within the system in question. At the same time, they accept that how to proceed to a better understanding of the data in question poses a formidable challenge. Key problems identified in the inaugural workshop, whose proceedings were published in HAU: Journal of Ethnographic Theory (2019) and in HAU Books (2020), provided the basis for asking how obvious pitfalls might be avoided and a new or revised framework within which to pursue these problems proposed. The chapters in this book were originally published in Interdisciplinary Science Reviews.

Theater as Data Miguel Escobar Varela, 2021-08-02 In Theater as Data, Miguel Escobar Varela explores the use of computational methods and digital data in theater research. He considers the implications of these new approaches, and explains the roles that statistics and visualizations play. Reflecting on recent debates in the humanities, the author suggests that there are two ways of using data, both of which have a place in theater research. Data-driven methods are closer to the pursuit of verifiable results common in the sciences; and data-assisted methods are closer to the interpretive traditions of the humanities. The book surveys four major areas within theater scholarship: texts (not only playscripts but also theater reviews and program booklets); relationships (both the links between fictional characters and the collaborative networks of artists and producers); motion (the movement of performers and objects on stage); and locations (the coordinates of performance events, venues, and touring circuits). Theater as Data examines important contributions to theater studies from similar computational research, including in classical French drama, collaboration networks in Australian theater, contemporary Portuguese choreography, and global productions of Ibsen. This overview is complemented by short descriptions of the author's own work in the computational analysis of theater practices in Singapore and Indonesia. The author ends by considering the future of computational theater research, underlining the importance of open data and digital sustainability practices, and encouraging readers to consider the benefits of learning to code. A web companion offers illustrative data, programming tutorials, and videos.

**Funds of Knowledge** Norma Gonzalez, Luis C. Moll, Cathy Amanti, 2006-04-21 The concept of funds of knowledge is based on a simple premise: people are

competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents how to do school although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. Funds of Knowledge:

Theorizing Practices in Households, Communities, and Classrooms is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.

**City of the Beasts** Isabel Allende, 2021-01-05 A search for the Beast, a Yeti-like creature within the heart of the Amazon, becomes a quest for self-discovery in this young adult coming-of-age story filled with international adventure, rich mythology, and magical realism from globally celebrated novelist Isabel Allende. Fifteen-year-old Alexander Cold has the chance to take the trip of a lifetime. Parting from his family and ill mother, Alexander joins his fearless grandmother, a magazine reporter for International Geographic, on an expedition to the dangerous, remote world of the Amazon. Their mission, along with the others on their team—including a celebrated anthropologist, a local guide and his young daughter Nadia, and a doctor—is to document the legendary Yeti of the Amazon known as the Beast. Under the dense canopy of the jungle, Alexander is amazed to discover much more than he could have imagined about the hidden worlds of the rain forest. Drawing on the strength of the jaguar, the totemic animal Alexander finds within himself, and the eagle, Nadia's spirit guide, both young people are led by the invisible People of the Mist on a thrilling and unforgettable journey to the ultimate discovery.

The Beauty Myth Naomi Wolf, 2009-03-17 The bestselling classic that redefined our view of the relationship between beauty and female identity. In today's world, women have more power, legal recognition, and professional success than ever before. Alongside the evident progress of the women's movement, however, writer and journalist Naomi Wolf is troubled by a different kind of social control, which, she argues, may prove just as

restrictive as the traditional image of homemaker and wife. It's the beauty myth, an obsession with physical perfection that traps the modern woman in an endless spiral of hope, self-consciousness, and self-hatred as she tries to fulfill society's impossible definition of the flawless beauty.

**Saul Bass** Jan-Christopher Horak, 2014-11-18 Iconic graphic designer and Academy Award-winning filmmaker Saul Bass (1920–1996) defined an innovative era in cinema. His title sequences for films such as Otto Preminger's *The Man with the Golden Arm* (1955) and *Anatomy of a Murder* (1959), Alfred Hitchcock's *Vertigo* (1958) and *North by Northwest* (1959), and Billy Wilder's *The Seven Year Itch* (1955) introduced the idea that opening credits could tell a story, setting the mood for the movie to follow. Bass's stylistic influence can be seen in popular Hollywood franchises from the *Pink Panther* to *James Bond*, as well as in more contemporary works such as Steven Spielberg's *Catch Me If You Can* (2002) and television's *Mad Men*. The first book to examine the life and work of this fascinating figure, *Saul Bass: Anatomy of Film Design* explores the designer's revolutionary career and his lasting impact on the entertainment and advertising industries. Jan-Christopher Horak traces Bass from his humble beginnings as a self-taught artist to his professional peak, when auteur directors like Stanley Kubrick, Robert Aldrich, and Martin Scorsese sought him as a collaborator. He also discusses how Bass incorporated aesthetic concepts borrowed from modern art in his work, presenting them in a new way that made them easily recognizable to the public. This long-overdue book sheds light on the creative process of the undisputed master of film title design—a man whose multidimensional talents and unique ability to blend high art and commercial imperatives profoundly influenced generations of

filmmakers, designers, and advertisers.
