Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Pieces I Found Emilee Cote,2019-09-03 This collection of poems stems from true experience. the piece I found is about heartbreak, love, healing, and self-love. It's about naivety of young love, or what we think is love. It represents the moment you fall, and you getting up seems meaningless. This collection of poems shows the journey of finding yourself after a heartbreak. The pain, the healing, and the acceptance. It's about growing through whatever pain you're feeling, and turning it into something wonderful.

DMT Dialogues David Luke,Rory Spowers,2018-08-14 Cutting-edge explorations and discussions of DMT experiences and plant sentience from leading luminaries in the field of psychedelic research • Includes contributions from Rupert Sheldrake, Rick Strassman, Dennis McKenna, Graham Hancock, Jeremy Narby, Erik Davis, Peter Meyer, David Luke, and many others • Explores DMT beings, plant sentience, interspecies communication, discarnate consciousness, dialoguing with the divine, the pineal gland, the Amazonian shamanic perspective on Invisible Entities, and the science behind hallucinations Encounters with apparently sentient beings are reported by half of all first time users of the naturally occurring psychedelic DMT, yet the question of DMT beings and plant sentience, interspecies communication, discarnate consciousness, and perhaps even dialoguing with the divine has never been systematically explored. In September 2015, ten of the world’s leading luminaries noted for exploring the mysterious compound DMT (dimethyltryptamine) gathered with other researchers at Tyringham Hall in England to discuss the subject. Over three days, they pooled their expertise from a wide range of subjects--archaeology, anthropology, religious studies, psychology, neuroscience, chemistry, and psychopharmacology, to name a few--to explore the notion of “entheogenic plant sentience” and the role of DMT as a conduit between Spirit and Matter. Offering cutting-edge insights into this visionary domain, this book distills the potent exchange of ideas that occurred at Tyringham Hall, including presentations and discussions on DMT entities, the pineal gland, the possibility of DMT as a chemical messenger from an extraterrestrial civilization, the Amazonian shamanic perspective on Invisible Entities, morphic resonance, and the science behind hallucinations. Contributors to the talks and discussions include many leading thinkers in this field, including Rupert Sheldrake, Rick Strassman, Dennis McKenna, Graham Hancock, Jeremy Narby, Erik Davis, Ede Frecska, Luis Eduardo Luna, Bernard Carr, Robin Carhart-Harris, Graham St. John, David Luke, Andrew Gallimore, Peter Meyer, Jill Purce, William Rowlandson, Anton Bilton, Vimal Darpan, Santha Faiia, and Cosmo Feilding Mellen.

International Law Lori Fisler Damrosch,2001 Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. Cases and Materials on International Law offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law.
